

# Contents

<b>Executive Summary</b>	
Background .....	ES-1
Detailed Watershed Plan Scope.....	ES-1
Watershed Overview .....	ES-2
Existing Conditions Evaluation.....	ES-6
Evaluation of Alternatives.....	ES-8
Recommendations .....	ES-8
<b>Section 1 Introduction.....</b>	<b>1-1</b>
1.1    Scope and Approach.....	1-2
1.2    Data Collection and Evaluation.....	1-2
1.3    Hydrologic and Hydraulic Modeling.....	1-3
1.3.1    Model Selection .....	1-4
1.3.2    Model Setup and Unit Numbering.....	1-4
1.3.3    Storm Duration.....	1-10
1.3.4    Areal Reduction Factor.....	1-11
1.3.5    Hydrologic Routing .....	1-11
1.3.6    Hydraulic Model Setup .....	1-12
1.3.7    Model Calibration and Verification.....	1-13
1.3.8    Flood Inundation Mapping .....	1-14
1.3.9    Discrepancies Between Inundation Mapping and Regulatory Flood Maps.....	1-14
1.3.10    Model Review .....	1-14
1.3.11    Problem Area Identification .....	1-14
1.3.12    Economic Analysis.....	1-15
1.3.13    Alternative Development and Evaluation.....	1-17
<b>Section 2 Watershed Characteristics.....</b>	<b>2-1</b>
2.1    General Watershed Description .....	2-1
2.2    Stormwater Problem Data.....	2-4
2.3    Watershed Analysis Data .....	2-19
2.3.1    Monitoring Data .....	2-19
2.3.2    Subwatershed Delineation.....	2-20
2.3.3    Drainage Network .....	2-20
2.3.4    Topography and Benchmarks .....	2-20
2.3.5    Soil Classifications.....	2-21
2.3.6    Land Use.....	2-22
2.3.7    Anticipated Development and Future Conditions.....	2-22
2.3.8    Wetland and Riparian Areas .....	2-23

2.3.9	Management of Future Conditions Through the Regulations of Site Stormwater Management.....	2-23
-------	---	------

## Section 3 Tributary Characteristics and Analysis

3.1	Butterfield Creek .....	3.1-1
3.1.1	Sources of Data .....	3.1-3
3.1.2	Watershed Analysis .....	3.1-9
3.1.3	Development and Evaluation of Alternatives .....	3.1-13
3.1.4	Recommended Alternatives, Butterfield Creek Subwatershed .....	3.1-27
3.2	Calumet Union Drainage Ditch.....	3.2-1
3.2.1	Sources of Data .....	3.2-4
3.2.2	Watershed Analysis .....	3.2-8
3.2.3	Development and Evaluation of Alternatives .....	3.2-12
3.2.4	Recommended Alternatives, Calumet Union Drainage Ditch Subwatershed .....	3.2-43
3.3	Deer Creek.....	3.3-1
3.3.1	Sources of Data .....	3.3-2
3.3.2	Watershed Analysis .....	3.3-5
3.3.3	Development and Evaluation of Alternatives .....	3.3-11
3.3.4	Recommended Alternatives, Deer Creek Subwatershed .....	3.3-17
3.4	Midlothian Creek.....	3.4-1
3.4.1	Sources of Data .....	3.4-3
3.4.2	Watershed Analysis .....	3.4-8
3.4.3	Development and Evaluation of Alternatives .....	3.4-13
3.4.4	Recommended Alternatives, Midlothian Creek Subwatershed .....	3.4-34
3.5	North Creek.....	3.5-1
3.5.1	Sources of Data .....	3.5-3
3.5.2	Watershed Analysis .....	3.5-8
3.5.3	Development and Evaluation of Alternatives .....	3.5-13
3.5.4	Recommended Alternatives, North Creek Subwatershed .....	3.5-34
3.6	Plum Creek .....	3.6-1
3.6.1	Sources of Data .....	3.6-2
3.6.2	Watershed Analysis .....	3.6-3
3.6.3	Development and Evaluation of Alternatives .....	3.6-8
3.6.4	Recommended Alternatives, Plum Creek Subwatershed .....	3.6-11
3.7	Thorn Creek.....	3.7-1
3.7.1	Sources of Data .....	3.7-2
3.7.2	Watershed Analysis .....	3.7-10
3.7.3	Development and Evaluation of Alternatives .....	3.7-15
3.7.4	Recommended Alternatives, Thorn Creek Subwatershed.....	3.7-35

3.8	Little Calumet River .....	3.8-1
3.8.1	Sources of Data .....	3.8-2
3.8.2	Watershed Analysis .....	3.8-9
3.8.3	Development and Evaluation of Alternatives .....	3.8-15
3.8.4	Recommended Alternatives, Little Calumet River Subwatershed .....	3.8-44
<b>Section 4 Watershed Action Plan.....</b>		<b>4-1</b>
4.1	Watershed Maintenance Activities .....	4-1
4.2	Recommended Capital Improvements.....	4-2
4.3	Implementation Plan.....	4-5
<b>Section 5 Summary and Conclusions.....</b>		<b>5-1</b>

## Appendices

Appendix A	DWP Inundation Area and FEMA Floodplain Comparison (included in CD)
Appendix B	Chapter 6 of the CCSMP (included in CD)
Appendix C	Curve Number Calculation (included in CD)
Appendix D	Field Survey Information (included in CD)
Appendix E	Depth Damage Curves (included in CD)
Appendix F	Hydrologic Model Parameters (included in CD)
Appendix G	Hydraulic Profiles (included in Volume 2)
Appendix H	Cost Estimates (included in CD)

# Figures

ES.1	Little Calumet River Watershed Overview .....	ES-3
ES.2	Distribution of Existing Condition Damages within the Little Calumet River Watershed .....	ES-7
1.3.1	Hypothetical Damage-Frequency Relationship.....	1-17
2.1.1	Little Calumet River Watershed Overview Map.....	Volume 2
2.2.1	Little Calumet River Watershed Problem Locations .....	Volume 2
2.3.1	Little Calumet River Watershed Monitoring Locations .....	Volume 2
2.3.2	Little Calumet River Watershed Subbasins.....	Volume 2
2.3.3	Little Calumet River Watershed Topography and Drainage Network.....	Volume 2
2.3.4	Little Calumet River Watershed Soils .....	Volume 2
2.3.5	Little Calumet River Watershed Landuse .....	Volume 2
2.3.6	Little Calumet River Watershed National Wetlands Inventory.....	Volume 2
2.3.7	Little Calumet River Watershed Riparian Areas.....	Volume 2
3.1.1	Butterfield Creek Subwatershed Overview .....	Volume 2
3.1.2	Butterfield Creek Subwatershed Calibration Results, July 1996 Storm Event .....	3.1-12
3.1.3	Butterfield Creek Subwatershed Calibration Results, April 2006 Storm Event .....	3.1-12
3.1.4	Butterfield Creek Subwatershed Calibration Results, September 2008 Storm Event .....	3.1-13
3.1.5	Butterfield Creek Alternative BTCA-G1 .....	Volume 2
3.1.6	Butterfield Creek Alternative BTCA-G2 .....	Volume 2
3.1.7	Butterfield Creek Alternative BTCA-G3 .....	Volume 2
3.1.8	Butterfield Creek Alternative BCEB-G1.....	Volume 2
3.2.1	Cal Union Drainage Ditch Subwatershed Overview .....	Volume 2
3.2.2	Cal Union Drainage Ditch Alternative CUDD-G1 .....	Volume 2
3.2.3	Cal Union Drainage Ditch Alternative CUDD-G2 .....	Volume 2
3.2.4	Cal Union Drainage Ditch Alternative CUDD-G3 .....	Volume 2
3.2.5	Cal Union Drainage Ditch Alternative CUSW-G1 .....	Volume 2
3.2.6	Cal Union Drainage Ditch Alternative CUSW-G2 .....	Volume 2
3.2.7	Cal Union Drainage Ditch Alternative CUTS- G1 .....	Volume 2
3.2.8	Cal Union Drainage Ditch Alternative CHEB-G1 .....	Volume 2
3.2.9	Cal Union Drainage Ditch Alternative CHEB- G3 .....	Volume 2
3.2.10	Cal Union Drainage Ditch Alternative BLCR-G1 .....	Volume 2
3.2.11	Cal Union Drainage Ditch Alternative PKCR-G1 .....	Volume 2
3.3.1	Deer Creek Subwatershed Overview .....	Volume 2
3.3.2	Deer Creek Calibration Results, April 2006 Storm Event.....	3.3-8
3.3.3	Deer Creek Calibration Results, April 2007 Storm Event.....	3.3-8
3.3.4	Deer Creek Calibration Results, September 2008 Storm Event .....	3.3-9

3.3.5	USGS Rating Curve vs. Simulated Events, Deer Creek Gage.....	3.3-10
3.3.6	Deer Creek Alternative DRCR-G1 .....	Volume 2
3.3.7	Deer Creek Alternative DRCR-G2 .....	Volume 2
3.4.1	Midlothian Subwatershed Overview .....	Volume 2
3.4.2	Midlothian Creek Subwatershed Calibration Results, July 1996 Storm Event .....	3.4-11
3.4.3	Midlothian Creek Subwatershed Calibration Results, April 2006 Storm Event .....	3.4-12
3.4.4	Midlothian Creek Subwatershed Calibration Results, September 2008 Storm Event .....	3.4-12
3.4.5	Midlothian Creek Alternative MTCR-G1 .....	Volume 2
3.4.6	Midlothian Creek Alternative MTCR-G2 .....	Volume 2
3.4.7	Midlothian Creek Alternative MTCR-G3 .....	Volume 2
3.4.8	Midlothian Creek Alternative MTCR-G4 .....	Volume 2
3.4.9	Midlothian Creek Alternative MTCR-G5 .....	Volume 2
3.4.10	Midlothian Creek Alternative MTCR-G6 .....	Volume 2
3.4.11	Midlothian Creek Alternative NTCR-G1.....	Volume 2
3.5.1	North Creek Subwatershed Overview.....	Volume 2
3.5.2	North Creek Subwatershed Calibration Results, July 1996 Storm Event.....	3.5-11
3.5.3	North Creek Subwatershed Calibration Results, April 2006 Storm Event .....	3.5-12
3.5.4	North Creek Alternative LDET-G1.....	Volume 2
3.5.5	North Creek Alternative NCLD-G1 .....	Volume 2
3.5.6	North Creek Alternative NCLD-G2 .....	Volume 2
3.5.7	North Creek Alternative NCLD-G3 .....	Volume 2
3.5.8	North Creek Alternative NOCR-G1 .....	Volume 2
3.6.1	Plum Creek Subwatershed Overview .....	Volume 2
3.6.2	Plum Creek Subwatershed Calibration Results, April 2006 Storm Event.....	3.6-6
3.6.3	Plum Creek Subwatershed Calibration Results, April 2007 Storm Event.....	3.6-7
3.6.4	Plum Creek Subwatershed Calibration Results, September 2008 Storm Event .....	3.6-7
3.6.5	Plum Creek Alternative PLCR-G1 .....	Volume 2
3.7.1	Thorn Creek Subwatershed Overview.....	Volume 2
3.7.2	Thorn Creek at Thornton Calibration Results, April 2006 Storm Event .....	3.7-13
3.7.3	Thorn Creek at Thornton Calibration Results, April 2007 Storm Event .....	3.7-14
3.7.4	Thorn Creek at Glenwood Calibration Results, April 2007 Storm Event .....	3.7-14
3.7.5	Thorn Creek at Thornton Calibration Results, September 2008 Storm Event .....	3.7-15
3.7.6a	Thorn Creek Alternative THCR-G1 (1 of 3).....	Volume 2
3.7.6b	Thorn Creek Alternative THCR-G1 (2 of 3).....	Volume 2
3.7.6c	Thorn Creek Alternative THCR-G1 (3 of 3).....	Volume 2
3.7.7	Thorn Creek Alternative THCR-G2.....	Volume 2
3.7.8	Thorn Creek Alternative TCTA-G1 .....	Volume 2
3.7.9	Thorn Creek Alternative TCTB-G1.....	Volume 2

3.7.10	Thorn Creek Alternative TCTD-G1 .....	Volume 2
3.8.1	Little Calumet River Subwatershed Overview .....	Volume 2
3.8.2	Little Calumet River Subwatershed at South Holland Gage Calibration Results, April 2006 Storm Event .....	3.8-13
3.8.3	Little Calumet River Subwatershed at Munster Gage Calibration Results, April 2006 Storm Event .....	3.8-13
3.8.4	Little Calumet River Subwatershed at South Holland Gage Calibration Results, September 2008 Storm Event.....	3.8-14
3.8.5	Little Calumet River Subwatershed at Munster Gage Calibration Results, September 2008 Storm Event.....	3.8-14
3.8.6	Little Calumet River Alternative LCRW-G1 .....	Volume 2
3.8.7	Little Calumet River Alternative LCRW-G2 .....	Volume 2
3.8.8	Little Calumet River Alternative LCRW-G3 .....	Volume 2
3.8.9	Little Calumet River Alternative LCRW-G4 .....	Volume 2
3.8.10	Little Calumet River Alternative LCRW-G5 .....	Volume 2
3.8.11	Little Calumet River Alternative LCRW-G6 .....	Volume 2
3.8.12	Little Calumet River Alternative LCRW-G7 .....	Volume 2
3.8.13	Little Calumet River Alternative LCRW-G8 .....	Volume 2

# Tables (Volume 1)

ES.1	Little Calumet River Watershed - Land Use Status by Category (Only for Cook County).....	ES-6
ES.2	Recommended Alternatives Summary for the Little Calumet River Watershed ....	ES-10
ES.3	Little Calumet River Watershed Alternative Summary .....	ES-15
1.2.1	Little Calumet River DWP WPC Coordination Activities .....	1-2
1.3.2	Description of Curve Number Input Data .....	1-7
1.3.3	Curve Number and Directly Connected Impervious by Land Use Type .....	1-8
1.3.4	Rainfall Depths .....	1-10
1.3.5	Critical Duration by Tributary Watershed .....	1-11
1.3.6	Areal Reduction Factors for Various Storm Durations.....	1-11
1.4.1	Flood Control Technologies.....	1-19
1.4.2	Streambank Stabilization Technologies .....	1-21
2.1.1	Municipalities in the Little Calumet River Watershed .....	2-1
2.1.2	Little Calumet River Watershed Open Channel Stream Lengths .....	2-2
2.1.3	Municipalities and Their Subwatershed Tributary Drainage Areas .....	2-2
2.2.1	Summary of Responses to Form B Questionnaire .....	2-6
2.3.1	Stream Gage Locations .....	2-19
2.3.2	Hydrologic Soil Groups .....	2-21
2.3.3	Hydrologic Soil Group Distribution.....	2-21
2.3.4	Land Use Distribution for Little Calumet River Watershed Within Cook County .....	2-22
2.3.5	Projected Populations for Little Calumet River Watershed.....	2-23
3.1.1	Communities Draining to Butterfield Creek Subwatershed Within Cook County .....	3.1-1
3.1.2	Land Use Distribution for Butterfield Creek Subwatershed Within Cook County .....	3.1-1
3.1.3	IEPA Water Quality Monitoring Stations in Butterfield Creek Subwatershed .....	3.1-4
3.1.4	Community Response Data for Butterfield Creek Subwatershed .....	3.1-5
3.1.5	Channel and Overbank Associated Manning's n-Values .....	3.1-10
3.1.6	Butterfield Creek Subwatershed Calibration Results .....	3.1-11
3.1.7	Modeled Problem Definition for the Butterfield Creek Subwatershed.....	3.1-14
3.1.8	Estimated Damages for Butterfield Creek Subwatershed, Problem Group BTCR-G1.....	3.1-15
3.1.9	Evaluation of Flood Control Technologies for Butterfield Creek Subwatershed, Problem Group BTCR-G1 .....	3.1-15
3.1.10	Flood Control Alternatives for Problem Group BTCR-G1 .....	3.1-16
3.1.11	Alternative Condition Flow & WSEL Comparison for Problem Group BTCR-G1.....	3.1-17

3.1.12	Butterfield Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group BTCR-G1.....	3.1-17
3.1.13	Estimated Damages for Butterfield Creek Subwatershed, Problem Group BTCR-G2.....	3.1-18
3.1.14	Evaluation of Flood Control Technologies for the Butterfield Creek Subwatershed, Problem Group BTCR-G2 .....	3.1-18
3.1.15	Flood Control Alternatives for Problem Group BTCR-G2.....	3.1-18
3.1.16	Alternative Condition Flow & WSEL Comparison for Problem Group BTCR-G2.....	3.1-19
3.1.17	Butterfield Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group BTCR-G2.....	3.1-19
3.1.18	Estimated Damages for Butterfield Creek Subwatershed, Problem Group BTCR-G3.....	3.1-20
3.1.19	Evaluation of Flood Control Technologies for Butterfield Creek Subwatershed, Problem Group BTCR-G3 .....	3.1-21
3.1.20	Flood Control Alternatives for Problem Group BTCR-G3 .....	3.1-21
3.1.21	Alternative Condition Flow & WSEL Comparison for Problem Group BTCR-G3.....	3.1-22
3.1.22	Butterfield Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group BTCR-G3.....	3.1-22
3.1.23	Evaluation of Flood Control Technologies for Butterfield Creek Subwatershed, Problem Group BTCR-G4 .....	3.1-23
3.1.24	Estimated Damages for Butterfield Creek Subwatershed, Problem Group BCEB-G1.....	3.1-24
3.1.25	Evaluation of Flood Control Technologies for Butterfield Creek Subwatershed, Problem Group BCEB-G1 .....	3.1-25
3.1.26	Flood Control Alternatives for Problem Group BCEB-G1 .....	3.1-25
3.1.27	Alternative Condition Flow & WSEL Comparison for Problem Group BCEB-G1.....	3.1-26
3.1.28	Butterfield Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group BCEB-G1 .....	3.1-27
3.1.29	Butterfield Creek Project Alternative Matrix to Support District CIP Prioritization, All Problem Groups .....	3.1-27
3.2.1	Communities Draining to CUDD .....	3.2-1
3.2.2	Land Use Distribution for CUDD .....	3.2-1
3.2.3	Point Source Dischargers in Calumet Union Drainage Ditch Area .....	3.2-5
3.2.4	Community Response Data for Calumet Union Drainage Ditch Subwatershed.....	3.2-6
3.2.5	Channel and Overbank Associated Manning's n-Values .....	3.2-10
3.2.6	Calumet Union Drainage Ditch Subwatershed Verification Results.....	3.2-11
3.2.7	Modeled Problem Definition for the Calumet Union Drainage Ditch Subwatershed .....	3.2-12

3.2.8	Estimated Damages for Calumet Union Drainage Ditch Subwatershed, Problem Group CUDD-G1 .....	3.2-14
3.2.9	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CUDD-G1 .....	3.2-14
3.2.10	Flood Control Alternatives for Problem Group CUDD-G1 .....	3.2-15
3.2.11	Alternative Condition Flow & WSEL Comparison for Problem Group CUDD-G1 .....	3.2-16
3.2.12	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CUDD-G1	3.2-17
3.2.13	Estimated Damages for CUDD Subwatershed, Problem Group CUDD-G2 .....	3.2-18
3.2.14	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CUDD-G2 .....	3.2-18
3.2.15	Flood Control Alternatives for Problem Group CUDD-G2 .....	3.2-18
3.2.16	Alternative Condition Flow & WSEL Comparison for Problem Group CUDD-G2 .....	3.2-19
3.2.17	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CUDD-G2 .....	3.2-20
3.2.18	Estimated Damages for CUDD Subwatershed, Problem Group CUDD-G3 .....	3.2-21
3.2.19	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CUDD-G3 .....	3.2-21
3.2.20	Flood Control Alternatives for Problem Group CUDD-G3 .....	3.2-21
3.2.21	Streambank Stabilization Alternatives for Problem Group CUDD-G3.....	3.2-22
3.2.22	Alternative Condition Flow & WSEL Comparison for Problem Group CUDD-G3 .....	3.2-23
3.2.23	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CUDD-G3 .....	3.2-23
3.2.24	Estimated Damages for CUDD Subwatershed, Problem Group CUSW-G1 .....	3.2-24
3.2.25	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CUSW-G1.....	3.2-24
3.2.26	Flood Control Alternatives for Problem Group CUSW-G1 .....	3.2-25
3.2.27	Alternative Condition Flow & WSEL Comparison for Problem Group CUSW-G1 .....	3.2-25
3.2.28	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CUSW-G1.....	3.2-26
3.2.29	Estimated Damages for CUDD Subwatershed, Problem Group CUSW-G2 .....	3.2-26
3.2.30	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CUSW-G2.....	3.2-27
3.2.31	Flood Control Alternatives for Problem Group CUSW-G2 .....	3.2-27
3.2.32	Alternative Condition Flow & WSEL Comparison for Problem Group CUSW-G2 .....	3.2-28

3.2.33	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CUSW-G2.....	3.2-28
3.2.34	Estimated Damages for CUDD Subwatershed, Problem Group CUTS-G1.....	3.2-29
3.2.35	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CUTS-G1 .....	3.2-29
3.2.36	Flood Control Alternatives for Problem Group CUTS-G1.....	3.2-29
3.2.37	Alternative Condition Flow & WSEL Comparison for Problem Group CUTS-G1.....	3.2-30
3.2.38	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CUTS-G1 .....	3.2-31
3.2.39	Estimated Damages for CUDD Subwatershed, Problem Group CHEB-G1 .....	3.2-31
3.2.40	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CHEB-G1.....	3.2-32
3.2.41	Flood Control Alternatives for Problem Group CHEB-G1 .....	3.2-32
3.2.42	Alternative Condition Flow & WSEL Comparison for Problem Group CHEB-G1 .....	3.2-33
3.2.43	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CHEB-G1.....	3.2-33
3.2.44	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CHEB-G2.....	3.2-34
3.2.45	Estimated Damages for CUDD Subwatershed, Problem Group CHEB-G3 .....	3.2-35
3.2.46	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group CHEB-G3.....	3.2-35
3.2.47	Flood Control Alternatives for Problem Group CHEB-G3 .....	3.2-36
3.2.48	Alternative Condition Flow & WSEL Comparison for Problem Group CHEB-G3 .....	3.2-36
3.2.49	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group CHEB-G3.....	3.2-37
3.2.50	Estimated Damages for CUDD Subwatershed, Problem Group BLCR-G1 .....	3.2-38
3.2.51	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group BLCR-G1 .....	3.2-38
3.2.52	Flood Control Alternatives for Problem Group BLCR-G1 .....	3.2-38
3.2.53	Alternative Condition Flow & WSEL Comparison for Problem Group BLCR-G1.....	3.2-39
3.2.54	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group BLCR-G1 .....	3.2-40
3.2.55	Estimated Damages for CUDD Subwatershed, Problem Group PKCR-G1 .....	3.2-41
3.2.56	Evaluation of Flood Control Technologies for CUDD Subwatershed, Problem Group PKCR-G1.....	3.2-41
3.2.57	Flood Control Alternatives for Problem Group PKCR-G1 .....	3.2-41

3.2.58	Alternative Condition Flow & WSEL Comparison for Problem Group PKCR-G1 .....	3.2-42
3.2.59	CUDD Project Alternative Matrix to Support District CIP Prioritization for Problem Group PKCR-G1.....	3.2-43
3.2.60	CUDD Project Alternative Matrix to Support District CIP Prioritization, All Problem Groups.....	3.2-43
3.3.1	Communities Draining to Deer Creek within Cook County .....	3.3-1
3.3.2	Land Use Distribution for Deer Creek Subwatershed within Cook County.....	3.3-1
3.3.3	Point Source Dischargers in Deer Creek Area .....	3.3-3
3.3.4	Community Response Data for Deer Creek Subwatershed.....	3.3-4
3.3.5	Channel and Overbank Associated Manning's n-Values .....	3.3-6
3.3.6	Deer Creek Subwatershed Calibration Results.....	3.3-8
3.3.7	Modeled Problem Definition for the Deer Creek Subwatershed .....	3.3-11
3.3.8	Estimated Damages for Deer Creek Subwatershed, Problem Group DRCR-G1 ....	3.3-12
3.3.9	Evaluation of Flood Control Technologies for Deer Creek Subwatershed, Problem Group DRCR-G1 .....	3.3-12
3.3.10	Flood Control Alternatives for Problem Grouping DRCR-G1 .....	3.3-13
3.3.11	Alternative Condition Flow & WSEL Comparison for Problem Group DRCR-G1 .....	3.3-14
3.3.12	Deer Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Grouping DRCR-G1.....	3.3-14
3.3.13	Estimated Damages for Deer Creek Subwatershed, Problem Group DRCR-G2....	3.3-15
3.3.14	Evaluation of Flood Control Technologies for Deer Creek Subwatershed, Problem Group DRCR-G2 .....	3.3-15
3.3.15	Flood Control Alternatives for Problem Grouping DRCR-G2 .....	3.3-15
3.3.16	Alternative Condition Flow & WSEL Comparison for Problem Group DRCR-G2.....	3.3-16
3.3.17	Deer Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Grouping DRCR-G2.....	3.3-17
3.3.18	Deer Creek Project Alternative Matrix to Support District CIP Prioritization, All Problem Groups.....	3.3-17
3.4.1	Communities Draining to Midlothian Creek Subwatershed Within Cook County .....	3.4-1
3.4.2	Land Use Distribution for Midlothian Creek Subwatershed Within Cook County .....	3.4-1
3.4.3	Community Response Data for Midlothian Creek Subwatershed.....	3.4-5
3.4.4	Channel and Overbank Associated Manning's n-Values .....	3.4-10
3.4.5	Midlothian Creek Subwatershed Calibration Results .....	3.4-11
3.4.6	Modeled Problem Definition for the Midlothian Creek Subwatershed.....	3.4-13
3.4.7	Estimated Damages for MTCR Subwatershed, Problem Group MTCR-G1 .....	3.4-14

3.4.8	Evaluation of Flood Control Technologies for MTCR Subwatershed, Problem Group MTCR-G1.....	3.4-15
3.4.9	Flood Control Alternatives for Problem Group MTCR-G1 .....	3.4-15
3.4.10	Alternative Condition Flow & WSEL Comparison for Problem Group MTCR-G1 .....	3.4-16
3.4.11	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group MTCR-G1 .....	3.4-16
3.4.12	Estimated Damages for MTCR Subwatershed, Problem Group MTCR-G2.....	3.4-16
3.4.13	Streambank Stabilization Alternatives for Problem Group MTCR-G2 .....	3.4-17
3.4.14	Alternative Condition Flow & WSEL Comparison for Problem Group MTCR-G2 .....	3.4-18
3.4.15	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group MTCR-G2 .....	3.4-18
3.4.16	Estimated Damages for Midlothian Creek Subwatershed, Problem Group MTCR-G3 .....	3.4-19
3.4.17	Evaluation of Flood Control Technologies for Midlothian Creek Subwatershed, Problem Group MTCR-G3.....	3.4-19
3.4.18	Flood Control Alternatives for Problem Group MTCR-G3 .....	3.4-19
3.4.19	Alternative Condition Flow & WSEL Comparison for Problem Group MTCR-G3 .....	3.4-20
3.4.20	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group MTCR-G3 .....	3.4-21
3.4.21	Estimated Damages for Midlothian Creek Subwatershed, Problem Group MTCR-G4 .....	3.4-22
3.4.22	Evaluation of Flood Control Technologies for Midlothian Creek Subwatershed, Problem Group MTCR-G4.....	3.4-22
3.4.23	Flood Control Alternatives for Problem Group MTCR-G4 .....	3.4-22
3.4.24	Alternative Condition Flow & WSEL Comparison for Problem Group MTCR-G4 .....	3.4-23
3.4.25	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group MTCR-G4 .....	3.4-24
3.4.26	Estimated Damages for MTCR Subwatershed, Problem Group MTCR-G5.....	3.4-24
3.4.27	Evaluation of Flood Control Technologies for MTCR Subwatershed, Problem Group MTCR-G5.....	3.4-25
3.4.28	Flood Control Alternatives for Problem Group MTCR-G5 .....	3.4-25
3.4.29	Alternative Condition Flow & WSEL Comparison for Problem Group MTCR-G5 .....	3.4-26
3.4.30	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group MTCR-G5 .....	3.4-26
3.4.31	Estimated Damages for MTCR Subwatershed, Problem Group MTCR-G6.....	3.4-27
3.4.32	Evaluation of Flood Control Technologies for MTCR Subwatershed, Problem Group MTCR-G6.....	3.4-28

3.4.33	Flood Control Alternatives for Problem Group MTCR-G6 .....	3.4-28
3.4.34	Alternative Condition Flow & WSEL Comparison for Problem Group MTCR-G6 .....	3.4-29
3.4.35	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group MTCR-G6 .....	3.4-29
3.4.36	Evaluation of Flood Control Technologies for Midlothian Creek Subwatershed, Problem Group MTCR-G7 .....	3.4-30
3.4.37	Estimated Damages for Calumet Union Drainage Ditch Subwatershed, Problem Group NTCR-G1 .....	3.4-31
3.4.38	Evaluation of Flood Control Technologies for MTCR Subwatershed, Problem Group NTCR-G1 .....	3.4-31
3.4.39	Flood Control Alternatives for Problem Group NTCR-G1 .....	3.4-32
3.4.40	Alternative Condition Flow & WSEL Comparison for Problem Group NTCR-G1 .....	3.4-33
3.4.41	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group NTCR-G1 .....	3.4-34
3.4.42	Midlothian Creek Project Alternative Matrix to Support District CIP Prioritization, All Problem Groups .....	3.4-34
3.5.1	Communities Draining to North Creek Subwatershed Within Cook County .....	3.5-1
3.5.2	Land Use Distribution for North Creek Subwatershed Within Cook County .....	3.5-1
3.5.3	Point Source Dischargers in North Creek Area .....	3.5-4
3.5.4	Community Response Data for North Creek Subwatershed.....	3.5-5
3.5.5	Channel and Overbank Associated Manning's n-Values .....	3.5-10
3.5.6	North Creek Subwatershed Calibration Results.....	3.5-11
3.5.7	Calumet Union Drainage Ditch Subwatershed Verification Results.....	3.5-12
3.5.8	Modeled Problem Definition for the North Creek Subwatershed .....	3.5-13
3.5.9	Estimated Damages for North Creek Subwatershed, Problem Group LDET-G1.....	3.5-14
3.5.10	Evaluation of Flood Control Technologies for North Creek Subwatershed, Problem Group LDET-G1 .....	3.5-15
3.5.11	Flood Control Alternatives for Problem Group LDET-G1.....	3.5-15
3.5.12	Alternative Condition Flow & WSEL Comparison for Problem Group LDET-G1.....	3.5-16
3.5.13	North Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group LDET-G1 .....	3.5-16
3.5.14	Estimated Damages for North Creek Subwatershed, Problem Group NCLD-G1 .....	3.5-17
3.5.15	Evaluation of Flood Control Technologies for North Creek Subbasin, Problem Group NCLD-G1 .....	3.5-18
3.5.16	Flood Control Alternatives for Problem Group NCLD-G1 .....	3.5-18

3.5.17	Alternative Condition Flow & WSEL Comparison for Problem Group NCLD-G1 .....	3.5-20
3.5.18	North Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group NCLD-G1 .....	3.5-20
3.5.19	Estimated Damages for North Creek Subwatershed, Problem Group NCLD-G2 .....	3.5-21
3.5.20	Evaluation of Flood Control Technologies for North Creek Subwatershed, Problem Group NCLD-G2.....	3.5-22
3.5.21	Flood Control Alternatives for Problem Group NCLD-G2 .....	3.5-22
3.5.22	Alternative Condition Flow & WSEL Comparison for Problem Group NCLD-G2 .....	3.5-23
3.5.23	North Creek Project Alternative Matrix to Support District CIP Prioritization for Problem Group NCLD-G2.....	3.5-24
3.5.24	Estimated Damages for North Creek Subwatershed, Problem Group NCLD-G3 .....	3.5-25
3.5.25	Evaluation of Flood Control Technologies for North Creek Subwatershed, Problem Group NCLD-G3.....	3.5-25
3.5.26	Flood Control Alternatives for Problem Group NCLD-G3 .....	3.5-25
3.5.27	Alternative Condition Flow & WSEL Comparison for Problem Group NCLD-G3 .....	3.5-26
