Dear Mr. Keller:

Subject: John E. Egan WRP – Solids Drying Facility Contract No. 83-444-2P,  
C175399  
IEPA Permit Nos. 2005-AO-4282, 2002-AO-0387, and 2002-AO-  
0387-1, Monitoring Report for October, November, and December  
2005

Supplemental Permit 2002-AO-0387-1 was issued on June 12, 2003. It granted the discontinuation of monitoring the groundwater using lysimeters on the north and south periphery of the solids drying site of the John E. Egan WRP solids drying facility, as previously required under Special Condition 1(3) of the original permit. Consequently, no groundwater monitoring samples were collected during this reporting period.

No biosolids were placed in or removed from the drying facility in October, November, and December 2005.

Very truly yours,

Richard Lanyon  
Director  
Research and Development
