Avila Says MWRD Receives “Clean Bill of Health”

The Metropolitan Water Reclamation District of Greater Chicago (MWRD) Chairman of Finance Frank Avila (pictured), announced the MWRD received a clean bill of financial health during an annual audit.

MWRD and MWRD Retiree Health Care Trust recently released the Comprehensive Annual Financial Reports (CAFR) for 2014. A financial audit is performed annually to ensure the MWRD is in compliance with Illinois law, which requires that MWRD prepare and publish financial

statements and any other data necessary to reflect the true financial condition and operations of the MWRD within six months of the close of each fiscal year.

“The sound financial footing of the District gives us flexibility in managing the uncertainty of our day-to-day operations, but it also provides validation to taxpayers who have come to expect fiscal responsibility from our agency,” said MWRD Chairman of Finance Frank Avila.
