MWRDGC

Private Sector Inspections Ordinance Language

MWRD appreciates valuable contribution of the following ATP members in this endeavor

- Alan J. Hollenbeck, P.E., RJN Group**
- Paul Kendzior, P.E., Village of Northbrook**
- Ross Dring, Trustee, Kimberly Heights SD**

Concept

- **It was evident that meaningful I/I reduction cannot be achieved without addressing private sector sources**
- **There seemed a near consensus among ATP members that the “direction/drive” for private property inspections must come from the MWRD**
- **All parties supported idea that the MWRD should enact an ordinance requiring such inspections**

Development of Ordinance Language

- A few ATP members volunteered to help
- MWRD prepared initial draft based on the past discussions with the ATP
- Members submitted their comments
- The draft presented today has been developed after several rounds of comments (emails) and a teleconference

Comments by ATP Members

- **We urge you to evaluate the ordinance language and submit your comments by end of January 2013**
- **Municipalities – submit comments through your respective COGs and specify a representative per COG**
- **Others – submit comments directly to Maureen Durkin**

Private Property Inspections

Training of Inspectors

- **Overview of administrative setup**
- **Overview of currently available training/certification**
- **Potential for regional cooperation in development of a training/certification program**

Flow Monitoring

- MWRD is considering contracting services of a flow monitoring company
- When agencies require flow meters within their system (short-term basis), agencies would request MWRD to arrange for company to install meters, then provide raw data. MWRD would fund internet hosting of data
- Agencies would reimburse MWRD for the cost of meter installation, maintenance, data collection and equipment removal
- How many agencies would be interested in such a service?

Potential Funding Sources

- **MWRD's own Local Loan Assistance Program**
- **IEPA's SRF Loan Program**
(Possibility that MWRD may help administer IEPA's loan program locally)
- **How many agencies will be ready/willing to make use of this funding?**

Next Steps

Legal Review of Issues Underway

- Regional contracting authority
- Use of public funds for private sector improvements
- Authority of various types of agencies to adopt ordinances
- Authority for administering loan funds received through SRF loan program

Next ATP Meeting

**March 20, 2013 at 1 pm
LASMA Conference Room**

Topics

- Refine elements of LTOMP and annual expenditure goals**
- Review draft basement backup/SSO reporting form and protocol**
- Draft annual report form for ATP review**
