## FOREWORD

Illinois Compiled Statutes mandate that the Budget and the Annual Appropriation Ordinance of the District specify the several funds, organizational units, objects, characters, and functions (activities) for which appropriations are made.

Section 3 of the Annual Appropriation Ordinance specifies that for the purposes of accounting and expenditure control, the budgetary accounts set forth in the budget shall be the official code designations of the District and that the Manual of Classification of Budgetary Code Accounts issued by General Administration, as revised, shall be in conformance therewith. Additional sections of the Annual Appropriation Ordinance specify use of budgetary code designations for expenditures. The following publication is distributed to District staff to facilitate compliance with these mandates.

Every year, account code changes made in the final Budget are reflected in the District's "Classification of Budgetary Code Accounts" booklet. The latest code listings made for funds, organizations, locations, programs, and commitment items are now presented in this document for your use throughout the current fiscal year.

In a continuing effort to improve budgetary control and reporting, it is imperative that personnel using coding for labor, purchase requisitions, or direct vouchers consult this Classification of Budgetary Code Accounts for 2017.

Procedures have been established which dictate that the budget coding presented on Board Letters reference only the Fund, Fund Center, and Commitment Item (i.e. 101 - 15000 - 612430). For multiple Departments and/or Commitment Items, commas are to be used to separate the codes (i.e. 101, 201 - 50000 - 612650, 645650). The abbreviation "VAR" is generally not to be used in any element of the budget code block in Board Letters. However, when there are more than four departments or commitment items involved, the use of "VAR" is acceptable. Program Number (Functional Area) will not be used on Board Letters. Please note this only applies to presentation in Board Letters. For all other situations the standard detailed Fund, Cost Center, Commitment Item, and Functional Area code block is to be used.

Necessary changes have been made in all categories of budget codes. Employees responsible for their departmental budgets should familiarize themselves with each budget code from the description of the coding to the fund, organization, location, program, and commitment item systems.

The Finance Department's "Chart of Accounts" includes coding for revenues, expenditures, assets, and liabilities used by Finance and Treasury personnel.

Shellie A. Riedle  
Budget Officer

INTRODUCTION

Description of the Budgetary Coding System  
for Use with the Classification of Accounts

<b>Fund</b>	<b>Cost Center</b>	<b>Commitment Item</b>	<b>Functional Area</b>
101	15067155	612010	7251

The budgetary coding used at the District has been developed and updated for the configured Enterprise System. To maximize the value of reporting in the financial system, users must be diligent in their use of the correct budgetary coding.

The budget is checked for available appropriation at the Fund, Fund Center, and Commitment Item level. In the case of the Capital Improvements Bond Fund, this would be at the object of expenditure or summary Commitment Item level.

The terminology used in the Enterprise Financial System is Fund, Cost Center, Commitment Item, and Functional Area. The Cost Centers are treated as a group within a department and are controlled for budget availability at the Funds Center (Department Level).

In the case of a department that has cost centers and budget in different funds, the department number part of the Cost Center number is modified, for example, 52 for the Construction Fund and 54 for the Capital Improvements Bond.

In many cases, it might not be necessary to fully enter the entire budgetary coding for certain transactions. The Enterprise system has been configured to derive or “default” portions of the budgetary coding based on the entry of certain parts of the budget code.

**Funds:**

The first component of the budgetary code uses three digits to specify the fund.

<b>Fund Number</b>	<b>Description</b>
101	Corporate Fund
201	Construction Fund
302 - 398	Debt Service Funds
401	Capital Improvements Bond Fund
501	Stormwater Management Fund
901	Reserve Claim Fund

**Cost Centers: Department + Section + Location**

The second component of the budgetary code uses eight digits to specify the cost center representing department, section, and location. The first two digits specify the department. These digits also correspond to the first two digits of the Fund Center as shown in the table under Fund Center. Digits three to five specify the organizational section or unit and the last three digits specify the location. A complete listing of organizations and locations is shown in Sections II and III of this Code Book. Section VII contains the list of all cost center numbers, names and associated fund centers that are active in the financial system. Please contact the Central Budget Office to initiate additions or modifications to Enterprise System Master Data. A couple of examples

15054151    15 - General Administration  
           054        054 - Administrative Services Section  
           151        151 - Main Office Building

69943284    69 - Maintenance & Operations Department Stickney Service Area  
           943        943 - Building & Grounds Section  
           284        284 - Harlem Avenue Solids Management Area

**Description of the Budgetary Coding System  
for Use with the Classification of Accounts**

**Departments (Fund Centers):**

Departments, referred to as Fund Centers in the Enterprise System, are essentially a summary of **detailed cost centers**, derived from the organizational structure. Fund Center numbers are also listed.

<u>Department Number</u>	<u>Department Name</u>	<u>Fund Center Number</u>
11	Board of Commissioners	11000
15	General Administration	15000
16	Monitoring & Research	16000
20	Procurement & Materials Management	20000
25	Human Resources	25000
27	Information Technology	27000
30	Law	30000
40	Finance	40000
50	Engineering	50000
	<b>Maintenance &amp; Operations:</b>	
66	General Division	66000
67	North Service Area	67000
68	Calumet Service Area	68000
69	Stickney Service Area	69000

**Line Items:**

In each SAP module, the same underlying value or action can be referred to by a different name but the same functionality applies. As an example, for our line item or detailed object of expenditure:

In FM, the Budget module: **Line Item = Commitment Item**

In FI, the Financial accounting and reporting module: **Line Item = General Ledger Account**

In CO, the Management Controlling module: **Line Item = Cost Element** (for reporting)

A few examples:

<b>Commitment Item</b>	<b>Description</b>
612010	Travel
612090	Reprographic Services
612150	Electrical Energy
612160	Natural Gas

I. CLASSIFICATION OF FUNDS

**DEFINITION:** The term “fund” is used to denote sums of money or other resources appropriated for the purpose of performing activities or achieving definite objectives in line with special restrictions, regulations, or limitations and constituting an independent fiscal and accounting entity.

Code No.	Fund and Descriptions	Code No.	Fund and Descriptions
<b>101</b>	<b>Corporate Fund</b> Charges incurred by this fund include normal day-to-day operations of the departments, plants, and other facilities. This fund includes appropriations for the normal and routine costs of maintaining facilities through necessary repair and minor replacements. It also supplies funds for support departments such as the Board of Commissioners, General Administration, Human Resources, Information Technology, Law, Finance, and Procurement & Materials Management.	<b>501</b>	<b>Stormwater Management Fund</b> This fund is established to meet the responsibility for implementing the requirements of Public Act 93-1049 and to account for the revenues, tax levies, appropriations, and expenditures, related to stormwater management activities. These include the development, design, planning and construction, operation, and maintenance of regional and local stormwater facilities provided for in the countywide stormwater management plan and the acquisition of real property in furtherance of its regional and local stormwater management activities.
<b>201</b>	<b>Construction Fund</b> This fund includes appropriations for major replacements, maintenance of long-term assets and capital improvements such as additions to water reclamation plants, pumping stations, sewers and related facilities. The cost of major replacement charges must add significant value, utility, and useful life to the facility. Additions include expenses for acquisition of real estate rights-of-way and permanent easements and all related engineering and legal costs; also included in the costs of the additions and replacements are expenses incurred for engineering, administration, supervision, planning, and design.	<b>700</b>	<b>Working Cash Fund</b> (Finance Department and Treasury Section Use Only) These funds are authorized by State Statute to make temporary loans to the Corporate, Construction, and Stormwater Management Funds in anticipation of the receipt of property taxes.
<b>300</b>	<b>Bond Redemption and Interest Fund</b> Used to accumulate the proceeds from taxes and other revenues, which are set aside to pay the principal and interest on outstanding bonds issued by the District. This Fund is segregated by each bond issue.	<b>701</b>	<b>Corporate Working Cash Sub - Fund</b> (Finance Department and Treasury Section Use Only)
<b>401</b>	<b>Capital Improvements Bond Fund</b> The Board of Commissioners of the Metropolitan Water Reclamation District of Greater Chicago has authorized the issuance and sale of general obligation bonds to provide funds required for the replacing, remodeling, completing, altering, constructing, and enlarging of water reclamation plants or flood control facilities and additions thereto; for the acquisition of air pollution equipment and real, personal, or mixed property necessary for said purpose, pumping stations, tunnels, conduits, intercepting sewers, and outlet sewers, together with the equipment and appurtenances thereto; for the acquisition of the sites and rights-of-way necessary thereto; and for engineering expenses for designing and supervising the construction of such works.	<b>702</b>	<b>Construction Working Cash Fund Sub - Fund</b> (Finance Department and Treasury Section Use Only)
		<b>705</b>	<b>Stormwater Working Cash Fund</b> (Finance Department and Treasury Section Use Only)
		<b>801</b>	<b>Retirement Fund</b> (Finance Department and Treasury Section Use Only) This fund is the retirement plan for District employees accounted for in a trust fund established by State Statute as a legal entity separate and distinct from the District.
		<b>901</b>	<b>Reserve Claim Fund</b> A fund established to maintain a reserve for the payment of claims, awards, losses, judgments, liabilities, settlements or demands and associated attorney’s fees and costs including but not limited to the Worker’s Compensation Act, Workers’ Occupational Diseases Act, any claim in tort, or any claim of deprivation of any constitutional or statutory right or protection, for all expenses, fees, and costs, both direct and in support of the repair or replacement of any property damaged by fire, flood, explosion, vandalism, or any peril, natural or man-made.

II. CLASSIFICATION OF ORGANIZATIONS

DEFINITION: The term “organization” is meant to include all departments and their subunits such as divisions, sections, units, etc.

<u>Code</u>	<u>Organization</u>	<u>Code</u>	<u>Organization</u>
<b>11000</b>	<b>Board of Commissioners</b>	<b>25000</b>	<b>Human Resources</b>

## III. CLASSIFICATION OF LOCATIONS

**DEFINITION:** The word "location" is used to identify an area or specific place, usually owned and/or operated by the District. Each location designates specific operations wherein actual resources are expended in achieving the functions of collecting, treating, processing, and disposing of waste, and controlling floods and pollution.

In determining the location to be used, if it is obvious that a particular location will benefit from the incurred cost, then that location code should be used.

**Example:** A design engineer located in the Main Office, working on a project for Stickney Water Reclamation Plant and reporting time on the Daily Time Report, would use Location 239 (Stickney WRP) and not Location 151 (Main Office Building). Supplies, materials, and equipment used or purchased while on this project would also be charged to Location 239.

**Example:** An administrative assistant preparing purchase orders which are for various locations would not be able to distribute items on the Daily Time Report to all these location numbers. Use the location number where the work is performed, and do not attempt to make any arbitrary allocations of truly indirect and support costs.

<u>Code</u>	<u>Location</u>	<u>Code</u>	<u>Location</u>
<b>100 -</b>	<b>General</b>	<b>300 -</b>	<b>Channels and Rivers</b>
<b>199</b>		<b>399</b>

615	Chicago River Controlling Works Pumping Station		
620	Burnham Agreement PS		
621	Calumet 125th Street PS		
623	Calumet City Agreement PS		
624	Evanston PS		
625	McCook PS		
627	95th Street PS		
628	North Branch PS		
629	Racine Avenue PS		
630	Upper Des Plaines at North Avenue PS		
631	Westchester PS		
632	Western Springs PS		
633	Wilmette PS, including Harbor		
634	Wellington Avenue PS		
635	East Markham PS, including Force Main		
636	Glenwood PS		
637	Willow Springs PS		
638	Bartlett PS		
640	Calumet, East 122nd Street (Burley Avenue) PS		
641	Thornton PS		
642	Walters Road PS		

## CLASSIFICATION OF LOCATIONS BY SERVICE AREA DRAINAGE BASIN

<u>Code</u>	<u>Location</u>	<u>Code</u>	<u>Location</u>
<b>0</b>	<b>North Drainage Basin General</b>		<b>Channels and Rivers</b>
171	Lake Front	176	Waterways Investigations
185	Engineering Soil Mechanical Center (Oakton Street)	340	Chicago River, Main Outlet, and South Branch, including Fork and Aeration Stations
190	Cook County - General	342	Chicago River Controlling Works
	<b>Water Reclamation Plants</b>	350	Main Channel, including Aeration Station Bridges
229	Terrence J. O'Brien WRP	370	Des Plaines River Diversion, including Work North of Riverside
299	Package Treatment Plants (Portable)	371	Riverside Lawn Dike
	<b>Channels, Rivers, Bridges, Parks, and Fountains</b>	372	McCook Levee
345	Chicago River, North Branch, including Aeration Stations/ Bridges		<b>Flood Control Watershed Basin and Reservoirs</b>
346	Chicago River Channel	460	Combined Sewer Areas in Cook County
347	Centennial Park	510	Central Drainage Basin
348	Centennial Fountain	511	Hillside Detention Reservoir and PS
380	North Shore Channel, including Aeration Station Bridges	512	Mayfair Detention Reservoir and PS
382	Devon Avenue Bridge (North Half)	513	Northlake Detention Reservoir - Structure #86
383	Sheridan Road Bridge	514	Melrose Park Detention Reservoir - Structure #9
384	Linden Avenue Bridge	515	Bellwood Detention Reservoir - Structure #94
385	Maple Avenue Bridge	516	Silver Creek Detention Reservoir - Franklin Park Structure #102
387	Church Street Bridge	517	Franklin Park Reservoir Structure #106
388	Main Street Bridge (New)	580	Other Drainage Basins
389	Touhy Avenue Bridge		<b>Pumping Stations</b>
	<b>Flood Control Watershed Basin and Reservoirs</b>	511	Hillside Detention Reservoir and PS
400	North Branch Chicago River Stormwater Watershed	512	Mayfair Detention Reservoir and PS
500	North Side Drainage Basin	615	Chicago River Controlling Works Pumping Station
501	Techny North Detention Reservoir and PS (Techny Road)	625	McCook PS
502	Middle Fork Detention Reservoir and PS	629	Racine Avenue PS
503	Techny Central Detention Reservoir (Willow Road)	630	Upper Des Plaines at North Avenue PS
504	Techny South Detention Reservoir and PS (Glenview)	631	Westchester PS
505	Deerfield Detention Reservoir	632	Western Springs PS
	<b>Pumping Stations</b>	637	Willow Springs PS
501	Techny North Detention Reservoir and PS (Techny Road)	652	Southwest 13A PS
502	Middle Fork Detention Reservoir and PS	699	Package Pumping Stations (Portable)
504	Techny South Detention Reservoir and PS (Glenview)		<b>Sewer Systems</b>
624	Evanston PS	700	Central Drainage Basin Sewer System
628	North Branch PS		<b>2 South Drainage Basin General</b>
633	Wilmette PS, including Harbor	171	Lake Front
634	Wellington Avenue PS	183	Calumet Laboratory
642	Walters Road PS	190	Cook County - General
699	Portable Pumping Stations	582	Clay Pit Lake Drainage Facility
	<b>Sewer Systems</b>		<b>Water Reclamation Plants and Solids Management Area</b>
900	North Side Drainage Basin Sewer System	227	Calumet WRP
	<b>1 Central Drainage Basin General</b>	280	O'Brien Lock Solids Management Area
151	Main Office Building - 100 East Erie Street	290	Calumet East Drying Site
155	Main Office Building Mc Pav - 111 East Erie Street	291	Calumet West Drying Site
171	Lake Front	292	Calumet Lagoon Site
180	Dr. Cecil Lue - Hing Research and Development Complex	299	Package Treatment Plants (Portable)
190	Cook County - General		<b>Channels and Rivers</b>
199	Illinois - General	390	Calumet - Sag Channel, including Aeration Stations
	<b>Water Reclamation Plants and Solids Management Areas</b>	399	Calumet River Improvement Channel
221	West Side WRP		<b>Flood Control Watershed Basin and Reservoirs</b>
230	North Side Sludge Line	420	CalSag Channel Stormwater Watershed
239	Stickney WRP	430	Little Calumet River Stormwater Watershed
258	Hinsdale Agreement STW	470	Lower Des Plaines Tribs Stormwater Watershed
282	Ridgeland Solids Management Area	520	South Drainage Basin
283	Stony Island Solids Management Area	521	Calumet Union Drainage Ditch Detention Reservoir and PS
284	Harlem Avenue Solids Management Area	522	Melvina Ditch Detention Reservoir and PS
285	Lawndale Avenue Solids Management Area	523	Oak Lawn Detention Reservoir
286	Vulcan Drying Site	524	Lynwood Reservoir and PS - Structure #143
287	Marathon Drying Site	525	Thornton - O'Brien Reservoir and PS - Structure #84
288	Lawndale Drying Cells	526	Markham - Harvey Reservoir and PS - Structure #53
289	LASMA Drying Cells	527	Tinley Park Reservoir and PS - Structure #32
299	Package Treatment Plants (Portable)		

<u>Code</u>	<u>Location</u>	<u>Code</u>	<u>Location</u>
528	Stony Creek Detention Reservoir		
529	Hickory Hills Detention Reservoir		
	<b>Pumping Stations</b>		
521	Calumet Union Drainage Ditch Detention Reservoir and PS		
522	Melvina Ditch Detention Reservoir and PS		
524	Lynwood Reservoir and PS - Structure #143		
525	Thornton - O'Brien Reservoir and PS - Structure #84		
526	Markham - Harvey Reservoir and PS - Structure #53		
527	Tinley Park Reservoir and PS - Structure #32		
620	Burnham Agreement PS

654	Prospect Meadows (Rand Road) PS		
699	Portable Pumping Stations		
	<b>Sewer Systems</b>		
940	Upper DesPlaines Drainage Basin Sewer System (Mt Prospect)		
<b>4</b>	<b>Upper Salt Creek Drainage Basin General</b>		
186	John E. Egan Laboratory		
190	Cook County - General		
	<b>Water Reclamation Plants</b>		
271	John E. Egan WRP		
299	Package Treatment Plants (Portable)		
	<b>Flood Control Watershed Basin and Reservoirs</b>		
450	Upper Salt Creek Stormwater Watershed		
540	Upper Salt Creek Drainage Basin		
541	Salt Creek Structure #2 Detention Reservoir		
542	Salt Creek Structure #3 Detention Reservoir		
543	Salt Creek Structure #4 Detention Reservoir and PS		
544	Salt Creek Structure #5 Detention Reservoir and PS (Tom Hamilton)		
545	Salt Creek Structure #6 Detention Reservoir and PS (Margreth Riemer)		
546	Watershed Plan Reach "B"		
547	Upper Salt Creek Basin Reach "F"		
548	Upper Salt Creek Basin Interim Detention Structure #2		
	<b>Pumping Stations</b>		
543	Salt Creek Structure #4 Detention Reservoir and PS		
544	Salt Creek Structure #5 Detention Reservoir and PS (Tom Hamilton)		
545	Salt Creek Structure #6 Detention Reservoir and PS (Margreth Riemer)		
699	Package Pumping Stations (Portable)		
	<b>Sewer Systems</b>		
950	Upper Salt Creek Drainage Basin Sewer System		
<b>5</b>	<b>Upper DuPage River Drainage Basin General</b>		
190	Cook County - General		
	<b>Water Reclamation Plants</b>		
251	Hanover WRP		
299	Package Treatment Plants (Portable)		
	<b>Flood Control Watershed Basin and Reservoirs</b>		
550	Upper DuPage River Basin (Hanover)		
551	Upper DuPage Detention Reservoir and PS		
552	Hanover Park Detention Reservoir Basin A and PS		
	<b>Pumping Stations</b>		
551	Upper DuPage Detention Reservoir and PS		
552	Hanover Park Detention Reservoir Basin A and PS		
638	Bartlett PS		
699	Package Pumping Stations (Portable)		
	<b>Sewer Systems</b>		
960	Upper DuPage River Drainage Basin Sewer System		
<b>6</b>	<b>Poplar Creek Drainage Basin General</b>		
190	Cook County - General		
	<b>Water Reclamation Plants</b>		
274	Fox River WRD		
299	Package Treatment Plant (Portable)		
699	Package Pumping Station (Portable)		
	<b>Flood Control Watershed Basin and Reservoirs</b>		
560	Poplar Creek Basin		
440	Poplar Creek Stormwater Watershed		
561	Oak Hill Park Detention Reservoir		
562	Hillside Park and Dolphin Park Detention Reservoir		
	<b>Sewer Systems</b>		
970	Poplar Creek Drainage Basin Sewer System		
<b>7</b>	<b>Lemont Drainage Basin General</b>		
190	Cook County - General		
	<b>Water Reclamation Plants</b>		
259	Lemont WRP		
299	Portable Treatment Plants		

<u>Code</u>	<u>Location</u>
	<b>Channels and Rivers</b>
350	Main Channel, including Aeration Station Bridges
699	Portable Pumping Stations
	<b>Flood Control Watershed Basin and Reservoirs</b>
570	Lemont Drainage Basin
	<b>Sewer Systems</b>
980	Lemont Drainage Basin Sewer System
981	Lockport
<b>8</b>	<b>Outside Boundary General</b>
136	Pipeline Land Reclamation
171	Lake Front
187	Springfield, Illinois
188	Outside Cook County
189	Fulton County, Illinois
191	Lake County, Illinois
192	Will County, Illinois
193	LaSalle County, Illinois
194	Kane County, Illinois
195	McHenry County, Illinois
196	Lake County, Indiana
197	DuPage County, Illinois
198	University of Illinois - Elwood
199	Illinois - General
	<b>Water Reclamation Plants</b>
299	Portable Treatment Plants
	<b>Channels and Rivers</b>
350	Main Channel, including Aeration Station Bridges
358	Romeo Road Bridge
360	Main Channel Extension Lockport Power House Bridges
367	16th Street Des Plaines River Bridge
368	16th Street (Main Channel) Swing Bridge
369	16th Street Deep Run Bridge
370	Des Plaines River Diversion, including Work North of Riverside
390	Calumet - Sag Channel, including Aeration Stations
399	Calumet River Improvement Channel
699	Portable Pumping Stations
<b>9</b>	<b>Chicagoland Deep Tunnel General</b>
190	Cook County - General
691	Mainstream Tunnel Reservoir PS
692	Calumet - O'Brien Works PS
696	Calumet Tunnel Reservoir PS
697	Calumet Plant Dewatering PS
699	Portable Pumping Stations
	<b>Sewer Systems</b>
990	Rock Tunnel Flood and Pollution Control System
991	Mainstream System
992	Calumet System
993	Des Plaines System (below Weller Creek)
994	Upper Des Plaines System (above Weller Creek - O'Hare)
995	Mainstream System Reservoir
996	Calumet System Reservoir
997	Gloria Alitto Majewski Detention Reservoir

**IV. CLASSIFICATION OF PROGRAMS (FUNCTIONAL AREAS)**

To comply with State Statutes, it is necessary to prepare budget estimates and appropriate funds according to organizational units as well as programs, performance principles, and unit cost data. It is necessary to budget and report expenditures by programs and the cost of performance to achieve the objectives of the District relating to drainage, sewage collection, sewage treatment, flood and pollution control, and solids utilization, including unit costs whenever ascertainable.

Each budgetary coding must be identified with a four digit program code.

The first digit of this part refers to the objectives or functions such as Collection Systems, 1000; Treatment Processes, 2000; Solids Processing, 3000; Flood and Pollution Control, 4000; Solids Drying/Utilization, 5000; General Support, 7000; and General Overhead (M&O), 8000.

The second through fourth digits describe the specific programs. For example, Secondary Treatment would be **2200**.

The exhibit below details the functional areas by sewage collection, treatment, solids processing, flood, and pollution control, solids drying/utilization, general support, M&O General Overhead, and M&R Distributive Services.

**PROGRAM (FUNCTIONAL AREA) STRUCTURE**

1000	Collection Systems	2000	Treatment Processes	3000	Solids Processing	4000	Flood and Pollution Control	5000	Solids Drying/Utilization
1100	Interceptor Sewer Systems	2100	Primary Treatment	3100	Primary Solids			5100	Disposal of Primary Solids
1200	TARP	2200	Secondary Treatment	3200	Secondary Solids	4200	Waterways Control & Detention Reservoirs	5200	Disposal of Secondary Solids
1300	Major Pumping Stations	2300	Tertiary Treatment	3300	Tertiary Solids	4300	Stormwater Management		
		2400	Wetlands			4400	Aeration Facilities		
1500	Local Sewer - Engineering Activity								
						4600	Monitoring		
1700	Design	2700	Design	3700	Design	4700	Design	5700	Design
1800	Construction	2800	Construction	3800	Construction	4800	Construction	5800	Construction
1900	Collection Systems	2900	Treatment Processes	3900	Solids Processing	4900	Flood and Pollution Control	5900	Solids Utilization
7000	General Support (see page 17-18)								
8000	General Overhead (M&O internal use only...see page 18)								

When selecting a program number for a payroll or labor (Commitment Item 601010) activity, consult the Positional Budget in the PBF for the correct program number. For expenditures other than Account 601010, use the PBF Budget Working Report and BF-10 to ascertain the correct program code number to use.

Summary program numbers having detail and subdetail programs are listed and defined by an indented presentation. In these instances, it is instructed that expenditures are to be charged only to detail (or sub-detail) programs. The Enterprise System will summarize detail programs, as well as measure and compare budgeted to actual costs for both detail and summary programs.

**EXAMPLES:**

**Program 5200 - Disposal of Secondary Solids** (Summary Program; do not charge expenditures to this program)

**Detail Program 5211 – Contract Utilization/Disposal of Dried Biosolids** (Detail Program; charge expenditures here)

**Program 1530 - Local Sewer Permit Activity** (Detail Program as Summary Cost Program of Sub-detail Programs; do not charge expenditures here)

**Detail Program 1531 - Review/Issuance of MWRD Sewer Permits** (Sub-detail Program; charge expenditures here)

<u>Code</u>	<u>Function</u>	<u>Code</u>	<u>Function</u>
<b>1000</b>	<b>Collection Systems</b>	1941	Odor Monitoring and Control Activities
1100	Interceptor Sewer Systems	1942	Weather Monitoring Activities
1110	Interceptor Systems	1990	Administrative Overhead
1111	Intercepting Sewer	1991	Human Resources Administration
1112	Intercepting Sewers Control Structures	1992	Budget Administration
1113	Intercepting Sewers Lift Stations	1993	Purchase Orders/Contract Administration
1114	Intercepting Sewers Force Mains	1994	Regulatory Administration

## IV. CLASSIFICATION OF PROGRAMS (FUNCTIONAL AREAS)

## MAJOR PROGRAM (FUNCTIONAL AREA) NUMBERS

**1000 Collection Systems**

All costs in this series pertain to the collection process only, including pumping stations, force mains, sewers, sewer maintenance, and collection facilities.

**2000 Treatment Processes**

All costs applicable to the treatment process of sewage at water reclamation plants.

**3000 Solids Processing**

All detail programs in this series pertain to the processing of primary, secondary, and tertiary solids.

**4000 Flood and Pollution Control**

This program series includes all costs applicable to detail programs that effect Waterways Control, Monitoring & Research, and Engineering for design and construction.

**5000 Solids Drying/Utilization**

This program series includes costs for the disposal of primary, secondary, and tertiary solids.

**7000 General Support**

All detail programs for the 7000 Series are summarized under this program. This series covers indirect costs and activities of support departments such as Human Resources, Information Technology, Law, Finance, and Procurement & Materials Management, and of General Administration, as well as related supervisory expenditures.

**8000 General Overhead Program Numbers**

M&O Budget. For Internal Use Only. These programs are used in the budget preparation and administration process and are redistributed to 1000 - 7000 series programs.

**Note:** The M&O Department utilizes a budgetary program coding structure to identify direct and indirect costs for these programs: Collection (1000 series); Treatment (2000 series); Solids Processing (3000 series); Solids Drying/Utilization (5000 series); General Support (7000 series) and General Overhead (8000 series).

**INDIRECT COST CENTERS**

All costs, which are classified as indirect, are to be charged against one or more indirect cost centers. Indirect costs shall be defined as all costs (labor, contracts, energy, materials, etc.) that do not directly impact operational performance of the sewage collection system, sewage treatment systems, solids processes, or solids drying and disposal operations - such as: buildings; grounds; odor control activities; and also M&O field administrative overhead activities - but which are associated with the various costs of the collection systems, treatment plants, and solids handling areas. These indirect cost programs should not include costs chargeable to other Departments, which should be charged to the 7000 series programs (General Support).

M&O Direct Cost Center and Indirect Cost Center programs will be designated DCC and ICC, respectively, throughout the Budget Code Book Program descriptions.

**1000 Collection Systems****Program 1100 - Interceptor Sewer Systems Summary Program**

This is a summary cost program of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Program 1110 - Interceptor Systems (DCC)**

Summary of the following detail programs pertaining to the operation and maintenance activities of the surface interceptor collection systems.

**Detail Program 1111 - Intercepting Sewers**

All direct O&M costs associated with sewers, manholes and associated items. This program includes activities such as sewer inspections, sewer breaks or collapses, and manhole repairs.

**Detail Program 1112 - Intercepting Sewer Control Structures**

All direct O&M costs associated with the collection system local sewer control structures, sluice gates, tide gates, etc. This program includes control structure inspections, cleaning, lubrication, and repairs.

**Detail Program 1113 - Intercepting Sewer Lift Stations**

All direct O&M costs associated with pump station motors, pumps, piping, screens, instrumentation and controls, and wet/dry well appurtenances at the lift station.

**Detail Program 1114 - Intercepting Sewer Force Mains**

All direct O&M costs associated with force mains on the sewage intercepting system (excludes solids force mains between facilities). This program includes activities such as inspections, breaks or collapses, and manhole repairs.

**Detail Program 1119 - Intercepting Sewers/Interceptor Inspection Rehabilitation Program (IIRP)**

All direct O&M costs associated with the new program of joint M&O/Engineering inspection and repair of the intercepting sewers and access manholes. This includes activities such as sewer service inspections, and resultant Engineering or M&O contracts for repair or replacement of deteriorated sections of the system.

**Program 1200 - TARP System**

This is a summary cost program of the following detail programs. Costs may only be charged to these detail programs or their subdetail program numbers.

**Program 1210 - TARP System (DCC)**

Summary of the following detail programs pertaining to the O&M of the Deep Tunnel System. Includes such costs as storage of excess TARP combined sewage, and for subsequent pump back to treatment facilities - but specifically does not include costs for stormwater detention reservoirs (4000).

**Detail Program 1211 - TARP Tunnels**

All direct O&M costs associated with the TARP access shafts, drop shafts and connecting sewer tunnels or related structures. Includes inspections and repairs.

**Detail Program 1212 - TARP Control Structures**

All direct O&M costs associated with TARP control chambers, sluice gates, instrumentation and controls, etc. Includes items such as electrical power and communications, system monitoring, structure inspections, equipment lubrication, maintenance and repairs.

**Detail Program 1213 - TARP Pump Stations**

All direct O&M costs associated with the TARP Pump Stations - including pumps, motors, instrumentation and controls, and associated wet/dry well appurtenances. Includes items such as electrical power, equipment inspection, lubrication, and maintenance. Specifically does not include screening activities (1215/1217) or odor control activities (1941).

**Detail Program 1214 - TARP CUP (Chicago Underflow Plan) Storage Reservoirs**

All direct O&M costs associated with the TARP CUP storage reservoirs.

**Detail Program 1215 - TARP Coarse Screens**

All direct O&M costs associated with the TARP coarse screen facilities which protect the pumps. Includes items such as the facilities and equipment that protect the pumps and handling of the screenings, but not the subsequent disposal of the screenings (1217).

**Detail Program 1217 - TARP Screenings Disposal**

All direct O&M costs associated with the removal, transportation and ultimate disposal of the screenings removed from the TARP facilities, including contractual and dispatching costs pertaining to the ultimate removal by the scavenger service.

**Detail Program 1218 - TARP Thornton Transitional Reservoir**

All direct O&M costs associated with the operation of the TARP Thornton Transitional Reservoir.

**Program 1300 - Pumping Station Facilities - Summary Program**

This is a summary cost program of the following detail programs. Costs may only be charged to these detail programs or their subdetail program numbers.

**Program 1310 - Major Pump Station Facilities (DCC)**

Summary of the following detail programs pertaining to the raw sewage pumping from major pumping facilities on the interceptor systems. Included are the major pump stations at the treatment plants, plus those facilities on the major interceptors (such as Racine Ave PS, North Branch PS, Evanston PS, Calumet PS, etc.). Includes the costs of energy to operate the pumps, screening to protect the pumps, and piping and miscellaneous services associated with pumping stations.

**Detail Program 1312 - Pump Station Storm Pumps**

All direct O&M costs associated with the storm pumps, motors, instrumentation and controls and associated wet/dry well appurtenances. Includes sampling and equipment inspection and lubrication and maintenance. Specifically excludes the screening facilities (1315/1317).

**Detail Program 1313 - Pump Station Dry Weather Pumps**

All direct O&M costs associated with the pump station and its sewage pumps, motors, instrumentation, controls, and associated wet/dry well appurtenances. Includes sampling and equipment inspection and lubrication and maintenance. Specifically excludes the screening facilities (1315/1317).

**Detail Program 1315 - Pump Station Coarse Screens**

All direct O&M costs associated with the coarse screens, which protect the raw sewage pumps. Specifically does not include the subsequent disposal of the screenings (1317).

**Detail Program 1317 - Pump Station Coarse Screenings Disposal**

All direct O&M costs associated with the removal, transportation and ultimate disposal of the material captured by the coarse screen facilities, including contractual and dispatching costs pertaining to the ultimate removal by the scavenger service.

**Detail Program 1318 - Pump Station Storm Discharge Disinfection**

All direct O&M costs associated with the disinfection of storm water discharges.

**Program 1500 - Local Sewer Engineering Activity (City, Village, Township Sewers)**

This is a summary cost program of the following detail programs. Costs will be charged only to these detail program numbers.

**Program 1530 - Local Sewer Permit Activity**

Summary of the following detail programs. Costs can only be charged to the subdetail programs.

**Detail Program 1531 - Review/Issuance of MWRD Sewer Permits**

All direct costs pertaining to the review/issuance of sewer construction permits as required by the Sewer Permit Ordinance, as well as the microfilming and data entry work for new permits.

**Detail Program 1533 - Review of Other Permits**

(NPDES, NRI's, IEPA, City of Chicago, etc.) All direct costs for the microfilming and data entry work for these permits.

**Detail Program 1535 - Local Sewer Construction Surveillance/Enforcement**

All direct costs pertaining to construction surveillance of permitted/exempted work and enforcement of the Sewer Permit Ordinance, except Article 6 - 5 of the Manual of Procedures (Sewer Rehabilitation/ICAP). Activities may include site inspections, testing, development and close - out of all corrective work, conciliation meetings, Show Cause Hearings, investigations, court actions, close - out of the permit, and review/approval of "as - built" drawings.

**Detail Program 1537 - Permit Revision**

All direct costs associated with revisions requested by permit applicant and correction of errors to ISSUED PERMITS ONLY. Also includes all costs pertaining to the microfilming/storage of MWRD sewer permits issued prior to 1/1/90. (Microfilming/storage of permits issued as of 1/1/90 should be charged to 1531 and 1533 respectively.)

**Program 1560 - Local Sewer Public Service Coordination**

Summary of the following detail programs. Costs can only be charged to these detail programs.

**Detail Program 1561 - Public Service**

All direct costs pertaining to the answering of public inquiries concerning District Ordinances, policies, and procedures, including responses to citizen complaints.

**Detail Program 1563 - Interagency Coordination**

All direct costs pertaining to the coordination of District functions/activities with outside public agencies (USEPA, IEPA, NIPC, City of Chicago, etc.).

**Program 1570 - Local Sewer Rehabilitation**

Summary of the following detail program. Costs can only be charged to this detail program.

**Detail Program 1571 - Local Sewer Rehabilitation Ordinance Enforcement Activity**

All direct costs to ensure compliance with the District Local Sewer Rehabilitation Ordinances, including activities related to consent decrees, reports, field inspections, testing, maintenance, flow monitoring, investigations, show cause hearings, and consulting services.

**Program 1700 - Collection System Design**

All costs pertaining to design activities relative to collection systems such as sewers, force mains, long distance transportation, tunnels and pumping stations.

**Program 1710 - Technical Assistance for Collection Design**

All costs of providing technical assistance for Collection Design to Departments outside the Engineering Department. These include resolution of specific plant operating problems, review of design criteria, plans, and specifications, technical coordination with other agencies, and similar technical activities not specifically chargeable under another program. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 1711 - Collection Design Technical Assistance for M&O Department**

All costs of providing technical assistance for Collection Design to the M&O Department.

**Detail Program 1712 - Collection Design Technical Assistance for Departments other than M&O**

All costs of providing technical assistance for Collection Design to outside Departments other than M&O.

**Program 1800 - Collection System Construction**

All costs pertaining to construction of collection facilities relating to sewers, force mains, pump stations, long distance transportation and tunnels.

**Program 1818 - Collection Claims Prevention and Resolution**

Review of estimates and schedules from design through construction. Investigation of construction claims, and in support of settlements and litigation.

**1900 Collection Systems - Indirect Cost Programs**

This 1900 series of Indirect Programs should be utilized when the indirect cost activity may be specifically associated with collection system activities, such as those at interceptor pumping stations.

**Program 1910 - Buildings - Structural/Architectural (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 1911 - Janitorial Services**

All O&M costs pertaining to the full range of housekeeping and janitorial services provided for the facilities and their employees.

**Detail Program 1912 - Structural/Architectural Systems**

All O&M costs for maintenance and repair of building structures or architectural elements such as roofs, windows, doors, etc.

**Detail Program 1914 - Shop Equipment**

All costs associated with shop equipment, such as lathes, welders, grinders, portable generators and pumps.

**Detail Program 1917 - Trash Disposal**

All O&M costs pertaining to the actual disposal of trash, and maintenance associated with the dumpster facility, including all contractual and dispatching costs pertaining to the ultimate removal of the trash by a scavenger service.

**Detail Program 1919 - General Buildings**

All indirect O&M costs for Buildings in general. Use this general overhead detail program for any building services costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 1920 - Buildings - Electrical/Mechanical (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 1921 - Electrical Systems/Subsystems**

All indirect O&M costs pertaining to electricity, electrical systems and services. Where the electrical system is process - specific (i.e., energy for the storm pumps) the costs should be charged directly to the process. Where the costs are common (i.e. lighting, main breakers, motor control centers, etc.) they should be charged to this indirect program.

**Detail Program 1922 - Communication Services/Subsystems**

All indirect O&M costs pertaining to communication (i.e., phone lines, computer lines, etc.) and instrumentation and control subsystems, such as common service lines, which are not process - specific. TARP telemetry costs would be an example of process - specific communication expenses that should be charged to the specific process.

**Detail Program 1923 - City Water Services**

All O&M costs pertaining to potable water service. Includes all underground and common city water distribution piping, valves, etc., that cannot be associated with a specific process. Includes air gaps, pumps, water towers and other components of the distribution system.

**Detail Program 1924 - Plumbing Systems**

All O&M costs pertaining to sanitary plumbing systems.

**Detail Program 1925 - Process Water Systems**

All indirect O&M costs pertaining to process water systems, which are not process - specific, such as common facilities and including distribution and control systems. Raw sewage pump bearing seal water is an example of a process - specific expenditure, which should be charged to the specific process. Includes the distribution piping network.

**Detail Program 1926 - High Pressure Air Systems**

All indirect O&M costs pertaining to high pressure air systems, which are not process - specific, such as common facilities and including distribution and control systems.

**Detail Program 1928 - Steam Generation/Distribution and HVAC Systems**

All O&M costs pertaining to steam production and service. Includes all underground and common steam distribution and condensate return piping, valves, meters, etc., which cannot be associated with a specific process. Includes boilers, feed water treatment systems, pumps, condensate tanks and other components of the distribution system.

**Detail Program 1929 - Buildings - General, Electrical/Mechanical**

All indirect costs for Buildings - General, Electrical/Mechanical overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 1930 - Grounds (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 1931 - Landscaping**

All O&M costs pertaining to landscaping installation, maintenance and repairs - at the various pump stations, reservoirs, etc.

**Detail Program 1932 - Roads/Parking Lots**

All O&M costs pertaining to installation, maintenance, and repairs to roads and parking lots at the various collection facilities, reservoirs and pumping stations.

**Detail Program 1935 - Vehicles, Mobile Equipment, and Support Systems**

All costs for vehicles (including cars, trucks, trailers, personnel carriers, mobile cranes, wheel loaders, lift racks, engine analyzers, etc.) used for the movement of equipment, staff, and/or other transportation needs, and their support systems.

**Detail Program 1938 - General Real Estate**

All indirect O&M costs for incidental activities associated with District leases, easements or permits, which are not directly related to general collection or pumping activities. Includes inspections, review, and related activities along the District - owned properties bordering the Canal.

**Detail Program 1939 - Grounds General**

All indirect O&M costs for Grounds in general. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 1940 - Emissions Monitoring and Control Activities (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 1941 - Odor Monitoring and Control Activities**

All O&M costs pertaining to odor control activities within the Collection Systems series (1000). Includes all odor control activities associated with the sewer and TARP systems.

**Detail Program 1942 - Weather Monitoring Activities**

All O&M costs pertaining to permit required weather monitoring, emissions testing and control activities.

**Program 1990 - Administrative Overhead (ICC)**

Summary of the following detail programs pertaining to the field offices' administrative activities associated with the Collection Systems series (1000).

**Detail Program 1991 - Human Resources Administration**

All costs pertaining to human resources administrative issues, including work schedules, employee ratings, discipline, counseling, training, etc.

**Detail Program 1992 - Budget Administration**

All costs pertaining to the budgetary process, its development, review and administration.

**Detail Program 1993 - Purchase Orders/Contract Administration**

All costs pertaining to the preparation, review, and administration of purchase orders or contracts.

**Detail Program 1994 - Regulatory Administration**

All costs pertaining to the preparation, review, and administration of IEPA, USEPA and other regulatory permits.

**Detail Program 1995 - Public Affairs**

All costs pertaining to tours, or other public presentations.

**Detail Program 1996 - Process/Facility Planning**

All costs pertaining to process and facility planning.

**Detail Program 1997 - Safety/Security Administration**

All costs pertaining to safety and security administration, including safety equipment such as life safety equipment, portable gas meters, fire and intrusion alarm and prevention systems.

**Detail Program 1998 - Services Provided by Other Governmental Units**

All costs pertaining to the preparation, review, payments, and administration of activities performed by other units of local government. Specifically included here would be the agreement with the City of Elgin to accept wastewater from the Poplar Creek Service Area.

**Detail Program 1999 - General Administrative Overhead**

All indirect costs for General Administrative Overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**2000 Treatment Processes****Program 2010 - Fine Screens (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2015 - Fine Screens**

All direct O&M costs pertaining to the fine screens, following the pumping of raw sewage. Includes all costs for the screens, drives, and chains, etc. (i.e., controls, and equipment inspection, lubrication, maintenance, and repairs). Includes the handling of the screenings, but not the subsequent transportation and disposal (2017).

**Detail Program 2017 - Fine Screen Disposal**

All direct O&M costs associated with the removal, transportation and ultimate disposal of the screenings, including all contractual and dispatching costs pertaining to the ultimate removal of the screenings by a scavenger service.

**Program 2020 - Grit Chambers (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2025 - Grit Chambers**

All direct O&M costs pertaining to the settling and removal of heavy suspended matter (grit) from the sewage flow, prior to primary treatment. Includes all costs for the grit chambers, collectors, conveyors, flights, and pumps (i.e., controls, and equipment inspection, lubrication, maintenance and repairs). Specifically does not include costs for subsequent dewatering and disposal (2026/2027).

**Detail Program 2026 - Grit Dewatering**

All direct O&M costs pertaining to the dewatering of the grit prior to its disposal. Specifically does not include costs for subsequent disposal (2027).

**Detail Program 2027 - Grit Disposal**

All direct O&M costs associated with the removal, transportation and ultimate disposal of the grit material, including all contractual and dispatching costs pertaining to the ultimate removal of the grit by a scavenger service.

**Program 2030 - Storm Flow Equalization (DCC)**

Summary of the following detail program. Costs will be charged only to this program.

**Detail Program 2034 - Storm Flow Equalization Facility**

All direct O&M costs associated with the temporary storage (not including interceptor or TARP storage) of combined sewage associated with excess storm flows (i.e., detention ponds at Hanover Park) for subsequent treatment through the treatment plant. Includes all costs for the operation and maintenance of the facilities (i.e., controls and equipment inspection, lubrication, maintenance, and repairs).

**Program 2100 - Primary Treatment (Physical) - Summary Program**

This is a summary cost program of the following detail programs. Costs may only be charged to these detail program numbers or their subdetail program numbers. Primary treatment, the first stage of the treatment process, is the physical separation of impurities from sewage coming directly from Collection.

**Program 2110 - Primary Settling (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2111 - Primary Tank/Imhoff**

All direct O&M costs pertaining to the settling of primary sewage. Includes maintenance of the tank, tank superstructure, drives and collecting arms, process valves and piping, instrumentation and controls, and solids pumps. Specifically excluded is the scum collection system, and scum dewatering and disposal operations as defined below (2115/2117).

**Detail Program 2115 - Scum Skimming**

All direct O&M costs pertaining to the skimming and the actual removal of floating matter (scum) from the primary tanks. Includes all costs for the scum collection baffles, troughs, piping and ejecting/pumping. Specifically does not include costs for disposal of the scum, or for the further handling or dewatering of the scum beyond the primary tank, such as in separate scum concentration tanks (2131/2137).

**Detail Program 2117 - Scum Disposal**

All costs pertaining to the subsequent collection, and disposal of the scum. Includes all direct O&M costs associated with the subsequent handling, dewatering, removal, and ultimate disposal of the scum, including all contractual and dispatching costs pertaining to the ultimate removal of the scum by a scavenger service. Specifically excludes however, the operating and maintenance costs associated with any separate Scum Handling facilities - when this operation is handled in a separate scum handling facility (separate from the primary clarifiers), then the costs should be captured under the 2130 series.

**Program 2120 - Storm Treatment (DCC)**

Summary of the following detail program. Costs will be charged only to this program.

**Detail Program 2121 - Storm Treatment Facilities (DCC)**

All direct O&M costs pertaining to settling facilities, specifically designed and utilized to partially treat excess storm flows. Includes maintenance of the excess flow facilities e.g. detention ponds, tank, tank superstructure, drives and collecting arms, processing valves and piping, instrumentation and controls.

**Program 2130 - Scum Handling Facilities**

Summary of the following detail programs pertaining to the subsequent dewatering and disposal of scum, when this operation is handled in separate and distinct scum dewatering facilities (i.e., separate from the primary and/or secondary clarifiers). The Terrence J. O'Brien WRP would be an example of a water reclamation plant where scum dewatering costs are chargeable to a separate scum dewatering facility.

**Detail Program 2131 - Scum Dewatering Tanks**

All direct O&M costs associated with the tanks, collecting flights, chain mechanisms and scum pumping. Includes maintenance of the tank, tank superstructure, drives and collecting arms, process valves and piping, instrumentation and controls, and scum baffles, troughs, and pumps. Specifically does not include costs for the disposal of the scum (2137).

**Detail Program 2137 - Scum Disposal**

All direct O&M costs associated with the subsequent removal, transportation and ultimate disposal of the scum, including all contractual and dispatching costs pertaining to the ultimate removal of the scum by a scavenger service.

**Program 2200 - Secondary Treatment (Biological) - Summary Program**

This is a summary cost program of detail programs 2210 and 2220. Costs may be charged only to these detail program numbers. Secondary treatment, the second stage of the treatment process, is the biological separation and removal of impurities from primary - treated effluents. Special microorganisms are cultivated in the aeration batteries to assimilate influent impurities for removal in the clarifiers.

**Program 2210 - Aeration/Clarification (DCC)**

Summary of the following detail programs pertaining to the aeration and clarification associated with the secondary biological treatment process. Includes all costs for the energy utilized in association with the secondary treatment process, blowers and air mains, aeration and settling tanks, waste and return solids pumping, etc. Does not include costs for the subsequent concentration of waste solids (3100 Series).

**Detail Program 2211 - Aeration Basin/Clarifiers**

All direct O&M costs associated with the first stage aeration tanks and clarifiers (but not scum skimming). Includes maintenance of the tanks, tank superstructure, control valves, tank air supply piping and diffuser plates, sludge pumps and flow meters, and clarifier drives, arms and bridges, instrumentation and controls, and associated equipment.

**Detail Program 2212 - Blower and Air Mains**

All direct O&M costs, including electricity, associated with the air blowers and air mains, including the blower motors, air filters, meters, controls and instrumentation, and supports and associated equipment.

**Detail Program 2215 - Scum Skimming**

All direct O&M costs pertaining to the skimming and the actual removal of floating matter (scum) from the secondary clarifier. Includes all costs for the scum collection baffles, troughs, piping and ejecting/pumping. Specifically does not include costs for the further handling or dewatering of the scum beyond the clarifier, such as in separate scum dewatering facilities (2131/2137).

**Detail Program 2217(N) - Scum Disposal**

All costs pertaining to the subsequent collection and disposal of the scum. Includes all direct O&M costs associated with the subsequent handling, dewatering, removal, and ultimate disposal of the scum, including all contractual and dispatching costs pertaining to the ultimate removal of the scum by a scavenger service. Specifically excludes the operating and maintenance costs associated with any separate Scum Handling facilities. When this operation is handled in a separate scum handling facility (separate from the clarifiers), then the costs should be captured under detail programs 2131 and 2137 above.

**Program 2220 - Second-Stage Aeration/Clarification (DCC)**

All costs pertaining to the aeration and clarification of the effluent from the first stage of the biological treatment process. Includes all costs for the second stage aeration and settling tanks, waste and return sludge pumping. Does not include costs for the subsequent concentration of waste sludge (3100 Series). Does not include any costs for the blowers or air mains (2212).

**Detail Program 2221 - Second-Stage Aeration Basin/Clarifiers**

All direct O&M costs associated with the second stage aeration tanks and clarifiers (but not scum skimming). Includes maintenance of the tanks, tank superstructure, control valves, tank air supply piping and diffuser plates, sludge pumps and flow meters, and clarifier drives, arms and bridges, instrumentation and controls, and associated equipment.

**Detail Program 2225 - Second-Stage Scum Skimming**

All direct O&M costs pertaining to the skimming and the actual removal of floating matter (scum) from the final clarifier. Includes all costs for the scum collection baffles, troughs, piping and ejecting/pumping. Specifically does not include costs for the further handling or dewatering of the scum beyond the clarifier, such as in separate scum dewatering facilities (2131/2137).

**Detail Program 2227 - Second-Stage Scum Disposal**

All costs pertaining to the subsequent collection and disposal of the scum. Includes all direct O&M costs associated with the subsequent handling, dewatering, removal, and ultimate disposal of the scum, including all contractual and dispatching costs pertaining to the ultimate removal of the scum by a scavenger service. Specifically excludes however, the operating and maintenance costs associated with any separate Scum Handling facilities - when this operation is handled in a separate scum handling facility (separate from the clarifiers), then the costs should be captured under Detail Programs (2131/2137) above.

**Program 2300 - Tertiary Treatment (Physical/Chemical) - Summary Program**

This is a summary cost program of detail programs 2310, 2320, and 2330. Costs may be charged only to these detail program numbers or their subdetail program numbers. Tertiary treatment, the third stage of the treatment process, is the physical or chemical separation and removal of impurities from secondary treated effluents. Tertiary treatment may be accomplished by one or by a combination of the processes in the detail programs.

**Program 2310 - Tertiary Filtration**

Summary of the following detail program. Costs will be charged only to this program.

**Detail Program 2311 - Tertiary Filtration**

All direct O&M costs associated with the filters and filter media, including chemical addition (if used, but not including disinfection), surface wash and backwash systems, instrumentation and controls, and other equipment. Note that the O&M costs for the process water pumps and distribution system should be captured under the common services indirect detail program 2916.

**Program 2320 - Post Aeration (DCC)**

Detail program summary. Charge costs to the following program only.

**Detail Program 2321 - Post Aeration**

All direct O&M costs pertaining to the aeration of the final effluent before discharge into the waterways - when accomplished with facilities specifically designed for this purpose.

**Program 2330 - Disinfection (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2331 - Chlorination System**

All direct O&M costs pertaining to disinfection of the final effluent. Includes costs for chemicals, chemical tanks, pumps, piping, mixing, contact chambers and associated instrumentation and control systems.

**Detail Program 2332 - Dechlorination System**

All direct O&M costs pertaining to the removal of chlorine residual. Includes costs for chemicals, chemical tanks, pumps, piping, mixing, contact chambers and associated instrumentation and control systems.

**Detail Program 2333 - UV Light Disinfection**

All direct O&M costs pertaining to ultraviolet light disinfection of the final effluent. Includes costs for lamps, lamp holders, ballasts, cleaning chemicals, flow channels, hydraulic controls, power feed equipment and associated instrumentation and control systems.

**Detail Program 2334 - Ozone Disinfection**

All direct O&M costs pertaining to ozone disinfection of the final effluent. Includes costs for ozone generators, ozone destruct units, ozone feed equipment, contact chambers, power feed equipment, safety equipment and alarms, and associated instrumentation and control systems.

**Program 2400 - Wetlands**

This is a summary cost program of the following detail programs. Costs will be charged only to these detail program numbers.

**Program 2410 - Wetlands Activities**

Summary of the following detail programs. Costs can only be charged to the subdetail programs.

**Detail Program 2411 - Wetland Development and Design**

All costs pertaining to activities required in relation to the design of wetlands for supplemental treatment or trading of nutrients, or channel improvement and sediment capping.

**Detail Program 2412 - Wetland Construction**

All costs pertaining to activities required in relation to construction of wetlands for supplemental treatment or trading of nutrients, or channel improvement and sediment capping.

**Program 2700 - Treatment Design**

All costs pertaining to the design of treatment processes such as screening, grit removal, scum removal, settling of solids, aeration, chemical addition and filtration.

**Program 2710 - Technical Assistance for Treatment Design**

All costs of providing technical assistance for Treatment Design to Departments outside the Engineering Department. These include resolution of specific plant operating problems, review of design criteria, plans, and specifications, technical coordination with other agencies, and similar technical activities not specifically chargeable under another program. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2711 - Treatment Design Technical Assistance for M&O Department**

All costs of providing technical assistance for Treatment Design to the M&O Department.

**Detail Program 2712 - Treatment Design Technical Assistance for Departments other than M&O**

All costs of providing technical assistance for Treatment Design to outside Departments other than M&O.

**Program 2800 - Treatment Construction**

All costs pertaining to construction activities relating to building treatment facilities for screening, grit removal, scum removal, settling of solids, aeration, chemical addition and filtration.

**Program 2818 - Treatment Claims Prevention and Resolution**

Review of estimates and schedules from design to construction. Investigation of construction claims, and in support of settlements and litigation.

**2900 Treatment Processes - Indirect Cost Programs**

This 2900 series of Indirect Cost Centers should be utilized when the indirect cost activity may be specifically associated with the various treatment process activities at the treatment plants.

**Program 2910 - Buildings - Structural/Architectural (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2911 - Janitorial Services**

All O&M costs pertaining to the full range of housekeeping and janitorial services provided for the facilities and its employees.

**Detail Program 2912 - Structural/Architectural Systems**

All O&M costs pertaining to maintenance and repair of building structures or architectural elements, such as roofs, windows, doors, etc.

**Detail Program 2914 - Shop Equipment**

All costs associated with shop equipment, such as lathes, welders, grinders, portable generators, and pumps, etc.

**Detail Program 2917 - Trash Disposal**

All O&M costs pertaining to the actual disposal of trash, and maintenance associated with the dumpster facility, including all contractual and dispatching costs pertaining to the ultimate removal of the trash by a scavenger service.

**Detail Program 2919 - General Buildings**

All indirect O&M costs for Buildings in general. Use this general overhead detail program for any building services costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 2920 - Buildings - Electrical/Mechanical (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2921 - Electrical Systems/Subsystems**

All indirect O&M costs pertaining to electricity, electrical services, and systems. Where the electrical system is process - specific (i.e., energy for the blower motors), the costs should be charged directly to the process. Where the electrical distribution system (i.e., lighting, main breakers, motor control centers, etc.) is common, then the system costs should be charged to this indirect program.

**Detail Program 2922 - Communication Services/Subsystems**

All indirect O&M costs pertaining to communication (i.e., phone lines, computer lines, etc.) and instrumentation and control subsystems, such as common service lines, which are not process - specific. Aeration basin DO probes and signal checking costs would be an example of process - specific communication expenses, which should be charged to the specific process (2211).

**Detail Program 2923 - City Water Services**

All O&M costs pertaining to potable water service. Includes all underground and common city water distribution piping, valves, etc., that cannot be associated with a specific process. Includes air gaps, pumps, water towers and other components of the distribution system.

**Detail Program 2924 - Plumbing Systems**

All O&M costs pertaining to sanitary plumbing systems.

**Detail Program 2925 - Process Water Systems**

All indirect O&M costs pertaining to process water systems, which are not process - specific, such as common facilities and including distribution and control systems. Pump seal water is an example of a process - specific expenditure, which should be charged to the specific process. Includes the main process water pumps and distribution piping network.

**Detail Program 2926 - High Pressure Air Systems**

All indirect O&M costs pertaining to high pressure air systems, which are not process - specific, such as common facilities and including distribution and control systems.

**Detail Program 2927 - Turbine Generator**

All O&M costs pertaining to the turbine generator, including its waste heat recovery boiler. Includes the various piping, valves, and electrical systems dedicated to the generator and recovery boiler. Includes all auxiliary support equipment such as the gas compressors, filters, and digester gas storage tanks.

**Detail Program 2928 - Steam Generation/Distribution and HVAC Systems**

All O&M costs pertaining to steam production and service. Includes all underground and common steam distribution and condensate return piping, valves, meters, etc., which cannot be associated with a specific process. Includes boilers, feed water treatment systems, pumps, condensate tanks and other components of the distribution system.

**Detail Program 2929 - Buildings - General, Electrical/Mechanical**

All indirect costs for Buildings in general for Electrical/Mechanical overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 2930 - Grounds (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2931 - Landscaping**

All O&M costs pertaining to landscaping installation, maintenance, and repairs at the various treatment plants.

**Detail Program 2932 - Roads/Parking Lots**

All O&M costs pertaining to installation, maintenance and repairs to roads and parking lots at the various treatment plants.

**Detail Program 2935 - Vehicles, Mobile Equipment and Support Systems**

All costs for vehicles (including cars, trucks, trailers, personnel carriers, mobile cranes, wheel loaders, lift racks, engine analyzers, etc.) used for the movement of equipment, staff, and/or other transportation needs, and their support systems.

**Detail Program 2938 - General Real Estate**

All indirect O&M costs for incidental activities associated with District leases, easements or permits, which are not directly related to specific treatment process activities. Includes inspections, review and related activities on District - owned properties bordering on the treatment plant.

**Detail Program 2939 - Grounds General**

All indirect O&M costs for Grounds in general. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 2940 - Emissions Monitoring and Control Activities (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 2941 - Odor Control Activities**

All O&M costs pertaining to odor control activities within the treatment process series (2000). Would include all odor control activities associated with the preliminary, primary, or secondary treatment processes.

**Detail Program 2942 - Weather Monitoring Activities**

All O&M costs pertaining to permit required weather monitoring, and emissions testing and control activities.

**Program 2990 - Administrative Overhead (ICC)**

Summary of the following detail programs pertaining to the field offices' administrative activities associated with the sewage treatment process programs, (2000 series programs).

**Detail Program 2991 - Human Resources Administration**

All costs pertaining to human resources administrative issues, including work schedules, and employee ratings, discipline, counseling, training, etc.

**Detail Program 2992 - Budget Administration**

All costs pertaining to the budgetary process - its development, review, and administration.

**Detail Program 2993 - Purchase Orders/Contract Administration**

All costs pertaining to the preparation, review, and administration of purchase orders or contracts.

**Detail Program 2994 - Regulatory Administration**

All costs pertaining to the preparation, review, and administration of IEPA, USEPA and other regulatory permits.

**Detail Program 2995 - Public Affairs**

All costs pertaining to ours, or other public presentations.

**Detail Program 2996 - Process/Facility Planning**

All costs pertaining to process and facility planning.

**Detail Program 2997 - Safety/Security Administration**

All costs pertaining to safety and security administration, including safety items such as life safety equipment, portable gas meters, and fire and intrusion alarm and prevention systems.

**Detail Program 2998 - Services Provided by Other Governmental Units**

All costs pertaining to the preparation, review, payments, and administration of other activities and services performed by other units of local government. Specifically included here would be the agreement with the Fox River Water Reclamation District.

**Detail Program 2999 - General Administrative Overhead**

All indirect costs for General Administrative Overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**3000 Solids Processing****Program 3100 - Processing Primary Solids - Summary Program**

This is a summary cost program of detail programs 3110, 3130, 3140 and 3150. Costs may be charged only to these detail program numbers or their subdetail program numbers. Solids are captured and removed during Pre - digestion processing (3100), digestion processing (3200), and post - digestion processing (3300).

**Program 3110 - Gravity Thickening (DCC)**

Summary of the following detail programs pertaining directly to the operation and maintenance activities of the gravity solids concentration tanks.

**Detail Program 3111 - Gravity Thickening**

All direct O&M costs pertaining to the gravity thickeners. Includes maintenance of the tank, drives and collecting arms or flights, instrumentation and controls, process valves, piping, solids pumping, and associated equipment.

**Detail Program 3113 - Force Main/Pumping**

All direct O&M costs associated with pumping solids (from one facility to another facility) to the gravity concentration facilities (such as the force main from the O'Brien WRP to the Stickney WRP). Including all associated force main inspection and maintenance costs.

**Detail Program 3117 - Transportation to Interceptor**

All direct O&M costs associated with the transportation of solids from one facility to another via the interceptor systems. This program would currently apply to Egan WRP solids pumped to the OWRP, or to the trucking of thickened solids from the Lemont WRP to a Calumet WRP interceptor.

**Detail Program 3118 - Screenings Removal**

All direct O&M costs associated with the collection and removal of screenings, when undertaken from the gravity thickening facility (such as at the Calumet/Stickney WRP).

**Detail Program 3119 - Screenings Disposal**

All direct O&M costs associated with the disposal of screenings, when undertaken from the gravity thickening facility (such as at the Calumet/Stickney WRP).

**Program 3130 - Pre - Digestion Centrifuge Thickening (DCC)**

Summary of the following detail program. Costs will be charged only to this program.

**Detail Program 3131 - Pre - Digestion Centrifuge**

All direct O&M costs pertaining to the centrifuge and its operation. Includes the costs for power and chemicals, solids/chemical piping and pumping, control systems, and the removal of the citrate and thickened solids.

**Program 3140 - Gravity Belt Thickeners (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3141 - Gravity Belt Thickening**

All direct O&M costs associated with the operations of the gravity belt thickeners. Includes the costs for power and chemicals, solids/chemical piping and pumping, control systems, and the removal of the citrate and thickened solids.

**Detail Program 3143 - Force Main/Pumping**

All direct O&M costs associated with pumping solids from one facility to another facility to the gravity belt thickeners. Including all associated force main inspection and maintenance costs.

**Program 3150 - Primary Thickening (DCC)**

Summary of the following detail program. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3151 - Primary Thickening**

All direct O&M costs associated with the dedicated use of separate gravity thickening of primary solids (such as at the Calumet WRP).

**Program 3200 - Processing Secondary Solids**

This is a summary cost program of detail programs 3210 and 3220. Costs may be charged only to these detail program numbers or their subdetail program numbers. Secondary solids consist of organic culture fed by the solids in primary effluent. Excess culture not needed for recycle is bled off for processing as waste - activated solids.

**Program 3210 - Unheated Digestion (DCC)**

Summary of the following detail program. Costs will be charged only to this program.

**Detail Program 3211 - Imhoff Digestion**

All direct O&M costs pertaining to the Imhoff solids digestion compartments. Includes costs for cleaning the Imhoff gas vents, and operating the solids ejectors. Specifically does not include costs pertaining to the Imhoff flow through compartments (2111).

**Program 3220 - Heat Digestion (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3221 - Heated Digestion**

All direct O&M costs pertaining to the heated solids digestion process. Includes costs for the tank, including its cover, and such items as natural gas, solids feed/draw piping and pumps, grinding, mixing, meters, temperature and level controls, heat exchanger and boilers, gas recovery system, holding tanks for solids drawoff, and associated safety control systems. Specifically does not include any indirect costs associated with the Control Building (3910/3920).

**Detail Program 3222 - Screenings Removal/Disposal**

All direct O&M costs associated with the removal and ultimate handling and disposal of screenings, when undertaken from the digestion facilities.

**Detail Program 3224 - Loading for Transportation**

All direct O&M costs associated with the loading of solids from a different facility for transport to the digesters. This is a future detail program not presently utilized.

**Detail Program 3225 - Transportation**

All direct O&M costs associated with the trucking of solids from a different facility for transport to the digesters. This is a future detail program not presently utilized.

**Program 3300 - Processing Tertiary Solids**

All costs pertaining to the processing of solids separated and removed during tertiary treatment.

**Program 3310 - Lagoon Dewatering (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3311 - Lagoon Dewatering**

All direct O&M costs pertaining to further solids dewatering and decanting of supernatant from the lagoons, which hold previously digested "liquid" solids. Includes costs for maintaining the lagoon liner and dikes, and operating and maintaining the influent valves, weir boxes, slack lines, etc. Specifically does not include any costs for removal of the lagooned material (5114/5243).

**Detail Program 3313 - Pumping to Lagoons (Force Main)**

All direct O&M costs associated with the pumping of stabilized solids from an anaerobic digester facility to a lagoon for additional dewatering (such as the force main from the Stickney WRP to LASMA). Including all associated force main inspection and maintenance costs.

**Program 3320 - Post - Digestion Centrifuge (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3321 - Post - Digestion Centrifuge**

All direct O&M costs pertaining to the centrifuge and its operation. Includes the costs for power and chemicals, solids/chemical piping and pumping, control systems, and the removal of the citrate and dewatered solids.

**Detail Program 3328 - Centrifuge Conveyor/Hopper**

All direct O&M costs pertaining to the centrifuge facility dewatered solids loading conveyor/hopper systems. This would include costs associated with maintaining the material handling equipment - but not the costs associated with the actual loading operations of the transport vehicles (3334).

**Program 3330 - Cake Aging Lagoons (DCC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3331 - Cake Aging Lagoons**

All direct O&M costs pertaining to further solids dewatering, stabilization and decanting of supernatant from the lagoons, which hold previously digested and partially dewatered centrifuge solids cake. Includes costs for maintaining the lagoon liner and dikes, and operating and maintaining the influent valves, weir boxes, slack lines, etc. Specifically does not include the costs for removal of the aged cake from the lagoon (5124).

**Detail Program 3334 - Loading for Transport to Cake Aging Lagoons**

All direct O&M costs associated with the actual loading of trucks or rail cars with centrifuge cake, for subsequent transport into the aging lagoons. Examples would include loading Egan cake for transport to Calumet, and loading Stickney cake for transport to LASMA. Note that the centrifuge cake material handling equipment (conveyors and hoppers) costs are to be captured above (3328). Costs here would include the railroad car puller maintenance and/or the actual operations associated with the loading of the vehicles.

**Detail Program 3335 - Intrafacility Transport to Cake Aging Lagoons**

All direct O&M costs associated with the actual transportation (truck and/or rail) of centrifuge cake from the centrifuge facility to the aging lagoons.

**Program 3350 - Desilting Basins (DCC)**

Summary of the following detail program. Costs will be charged only to this program.

**Detail Program 3351 - Desilting Basins**

All direct O&M costs associated with the operations of the desilting basins. Includes costs such as maintaining the basin liner and dikes, and operating and maintaining the influent valves, weir boxes, screening/pumping facility, and the periodic removal and handling of accumulated solids.

**Program 3700 - Solids Processing Design**

All costs pertaining to the design of systems and facilities used in the processing (e.g., digestion) of solids, screenings, grit and other residues prior to disposal.

**Program 3710 - Technical Assistance for Solids Processing Design**

All costs of providing technical assistance for Solids Processing Design to Departments outside the Engineering Department. These include resolution of specific plant operating problems, review of design criteria, plans, and specifications, technical coordination with other agencies, and similar technical activities not specifically chargeable under another program. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3711 - Solids Processing Design Technical Assistance for M&O Department**

All costs of providing technical assistance for Solids Processing Design to the M&O Department.

**Detail Program 3712 - Solids Processing Design Technical Assistance for Departments other than M&O**

All costs of providing technical assistance for Solids Processing Design to outside Departments other than M&O.

**Detail Program 3713 - Biogas Utilization Design and Planning**

All costs pertaining to the engineering, planning, and design of processes, systems, facilities, and controls for the beneficial utilization of digester gas. These processes include steam production, electricity production, gas cleaning, gas compression, vehicle fuel, pipeline gas, and digester gas storage. Including all associated costs such as facility siting, contracting, internal design, and management of outside vendors. It specifically does not include costs for construction, operations, and maintenance of such facilities.

**Program 3800 - Solids Processing Construction**

All costs pertaining to the construction of systems and facilities used in the processing (e.g., digestion) of solids, screenings, grit and other residues prior to disposal.

**Program 3813 - Biogas Utilization Facilities Construction**

All costs pertaining to construction activities relating to building and installing processes, systems, facilities, and controls for the beneficial utilization of digester gas. These processes include steam production, electricity production, gas cleaning, gas compression, vehicle fuel, pipeline gas, and digester gas storage. Including all associated costs such as construction management, post-award engineering support, contract administration and facility start-up. It specifically does not include costs for operations and maintenance of such facilities.

**Program 3818 - Solids Claims Prevention and Resolution**

Review of estimates and schedules from design through construction. Investigation of construction claims, and in support of settlements and litigation.

**3900 Solids Processing - Indirect Cost Programs**

This 3900 series of Indirect Cost Centers should be utilized when the indirect cost activity may be specifically associated with the various solids processing activities at the treatment plants.

**Program 3910 - Buildings - Structural/Architectural (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3911 - Janitorial Services**

All O&M costs pertaining to the full range of housekeeping and janitorial services provided for the facilities and their employees.

**Detail Program 3912 - Structural/Architectural Systems**

All O&M costs pertaining to maintenance and repair of building structures or architectural elements, such as roofs, windows, doors, etc.

**Detail Program 3914 - Shop Equipment**

All costs associated with shop equipment, such as lathes, welders, grinders, portable generators and pumps, etc.

**Detail Program 3917 - Trash Disposal**

All O&M costs pertaining to the actual disposal of trash, and maintenance associated with the dumpster facility, including all contractual and dispatching costs pertaining to the ultimate removal of the trash by a scavenger service.

**Detail Program 3919 - General Buildings**

All indirect O&M costs for Buildings in general. Use this general overhead detail program for any building services costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 3920 - Buildings - Electrical/Mechanical (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3921 - Electrical Systems/Subsystems**

All indirect O&M costs pertaining to electricity, electrical services, and systems. Where the electrical system is process - specific (i.e., energy for the centrifuges), the costs should be charged directly to the process. Where the electrical distribution system (i.e., lighting, main breakers, motor control centers, etc.) is common, then the system costs should be charged to this indirect program.

**Detail Program 3922 - Communication Services/Subsystems**

All indirect O&M costs pertaining to communication (i.e., phone lines, computer lines, etc.) and instrumentation and control subsystems, such as common service lines, which are not process - specific. A centrifuge PLC and signal transmission costs would be examples of process - specific items, which should be charged against the direct cost program (3131/3321).

**Detail Program 3923 - City Water Services**

All O&M costs pertaining to potable water service. Includes all underground and common city water distribution piping, valves, etc., which cannot be associated with a specific process. Includes air gaps, pumps, water towers and other components of the distribution system.

**Detail Program 3924 - Plumbing Systems**

All O&M costs pertaining to sanitary plumbing systems.

**Detail Program 3925 - Process Water Systems**

All indirect O&M costs pertaining to process water systems, which are not process - specific, such as common facilities and including distribution and control systems. Pump seal water is an example of a process - specific expenditure, which should be charged to the specific process. Also includes the distribution piping network.

**Detail Program 3926 - High Pressure Air Systems**

All indirect O&M costs pertaining to high pressure air systems, which are not process - specific, such as common facilities and including distribution and control systems.

**Detail Program 3927 - Turbine Generator**

All O&M costs pertaining to the turbine generator, including its waste heat recovery boiler. Includes the various piping, valves, and electrical systems dedicated to the generator and recovery boiler. Includes all auxiliary support equipment such as the gas compressors, filters, and digester gas storage tanks.

**Detail Program 3928 - Steam Generation/Distribution and HVAC Systems**

All O&M costs pertaining to steam production and service. Includes all underground and common steam distribution and condensate return piping, valves, meters, etc., which cannot be associated with a specific process. Includes boilers, feed water treatment systems, pumps, condensate tanks and other components of the distribution system.

**Detail Program 3929 - Buildings - General, Electrical/Mechanical**

All indirect costs for Buildings - General, Electrical/Mechanical overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 3930 - Grounds (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 3931 - Landscaping**

All O&M costs pertaining to landscaping installation, maintenance and repairs at the various solids processing facilities.

**Detail Program 3932 - Roads/Parking Lots**

All O&M costs pertaining to installation, maintenance and repairs to roads and parking lots at the various solids processing facilities.

**Detail Program 3933 - Railroads**

All costs pertaining to installation, inspection, maintenance, and repairs to railroad right - of - way, track bed, crossings, ties, switches, and tracks, etc.

**Detail Program 3935 - Vehicles, Mobile Equipment and Support Systems**

All costs for vehicles (including cars, trucks, trailers, personnel carriers, mobile cranes, wheel loaders, lift racks, engine analyzers, etc.) used for the movement of equipment, staff, and/or other transportation needs, and their support systems.

**Detail Program 3938 - General Real Estate**

All indirect O&M costs for incidental activities associated with District leases, easements or permits, which are not directly related to specific solids processing activities. Includes inspections, review and related activities on District - owned properties bordering on the solids processing facility.

**Detail Program 3939 - Grounds General**

All indirect O&M costs for Grounds in general. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 3940 - Emissions Monitoring and Control Activities (ICC)**

Summary of the following detail programs. Costs will be charged only to these detail program numbers.

**Detail Program 3941 - Odor Control Activities**

All O&M costs pertaining to odor control activities within the solids processing series (3000). Includes all odor control activities associated with the solids processing systems.

**Detail Program 3942 - Weather Monitoring Activities**

All O&M costs pertaining to permit required weather monitoring, and emissions testing and control activities.

**Program 3990 - Administrative Overhead (ICC)**

Summary of the following detail programs pertaining to the field offices' administrative activities assignable to solids processing programs (3000 series).

**Detail Program 3991 - Human Resources Administration**

All costs pertaining to human resources administrative issues, including work schedules, and employee ratings, discipline, counseling, training, etc.

**Detail Program 3992 - Budget Administration**

All costs pertaining to the budgetary process, its development, review, and administration.

**Detail Program 3993 - Purchase Orders/Contract Administration**

All costs pertaining to the preparation, review, and administration of purchase orders or contracts.

**Detail Program 3994 - Regulatory Administration**

All costs pertaining to the preparation, review and administration of IEPA, USEPA, and other regulatory permits.

**Detail Program 3995 - Public Affairs**

All costs pertaining to tours, or other public presentations.

**Detail Program 3996 - Process/Facility Planning**

All costs pertaining to process and facility planning.

**Detail Program 3997 - Safety/Security Administration**

All costs pertaining to safety and security administration, including safety items such as life safety equipment, portable gas meters, fire and intrusion alarm and prevention systems.

**Detail Program 3998 - Services Provided by Other Governmental Units**

All costs pertaining to the preparation, review, payments, and administration of other activities and services performed by other units of local government. Specifically included here would be the agreement with the Fox River Water Reclamation District to process the recovered wastewater solids from the Poplar Creek Service Area.

**Detail Program 3999 - General Administrative Overhead**

All indirect costs for General Administrative Overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**4000 Flood and Pollution Control****Program 4200 - Waterways Control and Stormwater Detention Reservoirs (DCC)**

Summary of the following detail programs. Costs may be charged only to these detail program numbers.

**Detail Program 4202 - Power Generation at Lockport**

All costs attributable to the generation of electrical power at the Lockport Powerhouse.

**Detail Program 4203 - Stormwater Detention Reservoir Activity**

All costs pertaining to the operation of storm water detention reservoirs.

**Detail Program 4205 - Diversion Operations and Accounting**

All costs pertaining to data acquisition, processing and preparing the Lake Michigan diversion account and operations to divert water from Lake Michigan.

**Detail Program 4206 - Water Quality Monitoring System M&O**

The cost of operating and maintaining the Water Quality Monitoring System.

**Detail Program 4207 - Centennial Fountain**

All costs pertaining to operation and maintenance of Centennial Fountain.

**Detail Program 4209 - Waterways Control - All Other - General**

All other Waterways Control operating expenditures not specifically charged to programs 4202 through 4206.

**Program 4210 - Maintenance of Waterways (DCC)**

Summary of the following detail programs. Expenditures will be charged only to these detail program numbers.

**Detail Program 4211 - Waterways Debris Removal**

All costs pertaining to clearance and disposal of debris from navigable waterways. Includes debris boat and air barrier maintenance and operations costs.

**Detail Program 4212 - Small Stream Maintenance**

All costs pertaining to clearance and disposal of debris and vegetation from non - navigable waterways.

**Detail Program 4213 - Pollutant Recovery (Navigable)**

All costs pertaining to recovery and removal of pollutants and hazardous materials from navigable waterways.

**Detail Program 4214 - Pollutant Recovery (Non - navigable)**

All costs pertaining to recovery and removal of pollutants and hazardous materials from non - navigable waterways.

**Detail Program 4215 - Rodent and Insect Control**

All costs pertaining to rodent and insect control and associated activities in and adjacent to the waterways within the District. This includes insecticides, larvicides, and rat control chemicals.

**Detail Program 4216 - Bridge and Road Maintenance**

All costs pertaining to the maintenance of public roadways and bridges outside of District facilities.

**Detail Program 4217 - Canal Bank Maintenance**

All costs for maintaining canal bank roads, gates and embankments along navigable waterways.

**Detail Program 4219 - Maintenance of Waterways - All Other (General)**

All costs pertaining to maintenance of waterways not specifically charged to programs 4211 through 4217.

**Program 4300 - Stormwater Management**

This is a summary cost program of detail programs 4310, 4320, 4330, 4340 and 4350. Costs may be charged only to the detail program numbers of these five program numbers.

**Program 4310 - Stormwater Management Planning**

Summary of the following detail programs pertaining to planning activities for Stormwater Management. Included are costs related to the initiation of the countywide stormwater management program as well as the ongoing planning efforts of information gathering, problem identification, solution development, and progress reporting.

**Detail Program 4311 - Watershed Councils**

All costs pertaining to activities of the Watershed Planning Councils established for the purpose of advising the District on areas of concern as well as proposed rules and regulations related to stormwater management within their watersheds. Includes costs of District participation and coordination, as well as direct payments for materials and services provided to the councils.

**Detail Program 4312 - Mapping, Surveys, and Soil Testing**

All costs pertaining to information gathering activities such as site surveying, facility inventories, soil borings and sampling/testing, map development, and hydraulic/hydrologic computer modeling.

**Detail Program 4313 - Watershed Plan Development**

All costs related to creation of detailed watershed plans. Included are costs pertaining to identification of areas of concern in the watershed, developing, and evaluating alternative remedial measures, and determining action plans.

**Detail Program 4314 - Publications and Public Information**

All costs related to producing reports on activities of the Stormwater Management Program, including reports, brochures, and maps, as well as publication of the Cook County Stormwater Management Ordinance. Includes costs of producing printed materials for distribution as well as developing information to be distributed electronically or made available on the District's web site.

**Detail Program 4315 - GIS System**

All costs related to the development, implementation, maintenance, operation, and upgrade of a Geographic Information System (GIS) for Stormwater Management functions.

**Program 4320 - Stormwater Management Regulation**

Summary of the following detail programs pertaining to the development and enforcement of the Cook County Stormwater Management Ordinance and the rules and regulations that it promulgates.

**Detail Program 4321 - Permits**

All costs pertaining to the review/issuance of stormwater permits as required by the Cook County Stormwater Management Ordinance.

**Detail Program 4322 - Storm and Flood Ordinance Development**

All costs pertaining to developing and amending, as necessary, the Cook County Stormwater Management Ordinance.

**Detail Program 4323 - Inspections**

All costs pertaining to construction surveillance of permitted work and enforcement of the rules and regulations contained in the Cook County Stormwater Management Ordinance.

**Detail Program 4324 - Zoning**

All costs pertaining to the zoning of areas impacted by stormwater permits as required by the Cook County Stormwater Management Ordinance.

**Program 4330 - Operations and Maintenance**

Summary of the following detail programs pertaining to the operation and maintenance of facilities for the purpose of stormwater management (501 only).

**Detail Program 4331 - Stormwater Detention Reservoir Activity**

All costs pertaining to the operation and maintenance of stormwater detention reservoirs.

**Detail Program 4332 - Small Streams Maintenance**

All costs pertaining to clearance and removal of debris, vegetation, pollutants and hazardous materials from non-navigable waterways for the purpose of maintaining and/or increasing stream conveyance capacity.

**Detail Program 4334 - Operations and Maintenance Contracted with Other Governments**

All costs associated with operation and maintenance of stormwater facilities performed by outside agencies under an agreement with the District. Includes costs of agreement preparation, enforcement, and inspection as well as any and all fees paid to the outside agency for services.

**Detail Program 4335 - Waterways Debris Removal**

All costs pertaining to clearance and disposal of debris from navigable waterways. Includes debris boat and air barrier maintenance and operations costs.

**Program 4340 - Flood Mitigation Projects**

Summary of the following detail programs pertaining to the planning, design, and construction of flood mitigation projects by the District or outside agencies under agreement.

**Detail Program 4341 - Planning/Design**

All costs pertaining to the planning and design of structural and non-structural flood mitigation projects such as flood water storage reservoirs, channel modifications, berms and levees, and floodproofing.

**Detail Program 4342 - Contract Administration**

All costs pertaining to the selection, retention, and oversight of outside providers of services related to the planning, design or construction of flood mitigation projects. Includes costs of activities such as contract negotiation and preparation, work review and oversight, and payment processing.

**Detail Program 4343 - Construction**

All costs pertaining to construction activities for the control of flood waters, including storage reservoirs, berms, levees, and improving natural or manmade drainage channels.

**Detail Program 4344 - Flood Mitigation Projects Contracted with Other Governments**

All costs associated with the planning, design, and construction of flood mitigation facilities performed by outside agencies under an agreement with the District. Includes fees paid to the outside agency for the aforementioned services as well as all costs of agreement preparation, enforcement, and inspection.

**Detail Program 4345 - Land and Easements**

Purchase cost of land and all costs pertaining to labor and related expenses attributable to the purchase of land, obtaining easements, leases, and permits for the purpose of implementing flood mitigation projects, including land buyouts.

**Program 4350 - Administrative Overhead**

Summary of the following detail programs pertaining to Stormwater Management administrative activities which cannot be readily associated with the process - specific program series (i.e., 4310/4320/4330/4340).

**Detail Program 4351 - Human Resources Administration**

All costs pertaining to human resources administration, such as employee ratings, discipline, counseling, training, etc.

**Detail Program 4352 - Budget Administration**

All costs pertaining to the budgetary process development, review, and administration.

**Detail Program 4354 - Administrative Overhead Contracted with Other Governments**

All costs pertaining to the preparation, review, payment, and administration of other activities and services performed for the District by other agencies.

**Detail Program 4358 - Service to Other Government Agencies**

All costs pertaining to the District's provision of administrative services and other activities to units of local government, state, or federal agencies.

**Detail Program 4359 - General Administrative Overhead**

All indirect costs for General Administrative Overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 4400 - Aeration Facilities**

Summary of the following detail programs pertaining to aeration facilities. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 4410 - Instream Aeration Facilities**

All O&M costs associated with the operation of the instream aeration facilities. Includes maintenance of any related superstructures, electricity, blowers, pumps, motors, controls, air filters, and air piping.

**Detail Program 4420 - Sidestream Aeration Facilities**

All O&M costs associated with the operation of the sidestream aeration facilities (SEPA). Includes maintenance of any related superstructures, electricity, blowers, pumps, motors, controls, air filters, and air piping.

**Program 4600 - Monitoring**

This is a summary cost program of the following detail programs. Costs may only be charged to these detail programs or their subdetail program numbers.

**Program 4650 - Operations Monitoring**

Summary of the following detail programs. Costs associated with the monitoring and control of District operations will be charged only to these detail program numbers.

**Detail Program 4652 - Liquid Monitoring**

All costs associated with sampling, analysis, monitoring, and control of liquid phases of the District's operations.

**Detail Program 4653 - Solids Monitoring**

All costs associated with sampling, analysis, monitoring, and control of solid phases of the District's operations.

**Detail Program 4654 - Air Quality Monitoring**

All costs associated with air quality monitoring at the District's WRPs and solids management areas. The activities include surveillance of odor detection and measurements. Some monitoring is required by USEPA regulations.

**Program 4660 - Waste Monitoring**

Summary of the following detail programs associated with the monitoring and control of wastes discharged to the District's sewage collection system. Costs may only be charged to these detail program numbers.

**Detail Program 4661 - User Charge Ordinance - Residential and Small Nonresidential Commercial - Industrial Users**

All costs associated with sampling, analysis, enforcement, and administration of Residential and Small Nonresidential Commercial - Industrial Users, as provided for under the User Charge Ordinance.

**Detail Program 4662 - User Charge Ordinance - Tax Exempt Users**

All costs associated with sampling, analysis, enforcement, and administration of Tax Exempt Users, as provided for under the User Charge Ordinance.

**Detail Program 4663 - User Charge Ordinance - Large Commercial - Industrial Users**

All costs associated with sampling, analysis, enforcement, and administration of Large Commercial - Industrial Users, as provided for under the User Charge Ordinance.

**Detail Program 4664 - Environmental Remediation Wastewater Ordinance**

All costs related to administration of the Environmental Remediation Wastewater Ordinance.

**Detail Program 4665 - Chemical Toilet Wastes Disposal Ordinance**

All costs related to sampling, analysis, inspection and administration of the Septic Tank and Chemical Toilet Waste Hauler Ordinance.

**Detail Program 4666 - Sewage and Waste Control Ordinance - Significant Industrial Users (SIUs) Minimum Regulatory Requirement Activities**

All costs associated with sampling, analysis, enforcement, and administration of SIUs so classified, as provided under the Sewage and Waste Control Ordinance, for the minimum regulatory requirement activities defined, required under the Pretreatment Program.

**Detail Program 4667 - Sewage and Waste Control Ordinance - Significant Industrial Users (SIUs)**

All costs associated with sampling, analysis, enforcement, and administration of SIUs so classified, as provided under the Sewage and Waste Control Ordinance.

**Detail Program 4668 - Sewage and Waste Control Ordinance - Other Industrial Users**

All costs associated with sampling, analysis, enforcement, and administration of the other industrial users as provided under the Sewage and Waste Control Ordinance, which are not specifically chargeable to Programs 4666 and 4667.

**Program 4670 - Environmental Monitoring**

Summary of the following detail programs associated with the monitoring of Lake Michigan and the waterways system, including point discharges, spills and general water quality. Costs may only be charged to these detail program numbers.

**Detail Program 4671 - Lake Michigan Monitoring**

All costs associated with sampling of Lake Michigan waters, analyses of the samples and preparation of related reports.

**Detail Program 4672 - Waterways Monitoring**

All costs associated with sampling of the inland waterways, including the Illinois River, analysis of these samples and the preparation of related reports.

**Detail Program 4673 - Inspection Events**

All costs associated with surveillance activities, such as boat patrol, helicopter flights, festivals, etc., and response activities such as citizens' complaints and requests from fire and police departments, municipal agencies, USEPA, IEPA, United States Coast Guard, etc. Includes costs related to enforcement of the Sewage and Waste Control Ordinance for direct discharges to waterways.

**Detail Program 4674 - Groundwater Monitoring**

All costs associated with monitoring wells and lysimeters around TARP tunnels and reservoirs, solids management areas, Hanover Park, Fischer Farm, and the Fulton County land reclamation site for environmental impacts and permit compliance.

**Program 4680 - Technical Assistance to Organizations outside the Monitoring and Research Department**

Summary of the following detail programs for providing, upon specific request, technical assistance to organizations outside the M&R Department. Costs may only be charged to these detail program numbers.

**Detail Program 4681 - Assistance to M&O Department**

All costs of providing technical assistance to the Maintenance & Operations Department including testing of contractor provided materials such as sodium hypochlorite, sodium bisulfite, and ferric chloride, as well as the preparation of related reports.

**Detail Program 4682 - Technical Assistance - All Other (General)**

All costs of providing, upon specific request, technical assistance to organizations outside the M&R Department. This includes resolution of specific plant operating problems, technical coordination with other agencies, and similar technical activities not specifically chargeable under another program.

**Detail Program 4683 - Regulatory Review and Response**

All costs associated with the review and response to proposed regulations issued by federal, state, and local governments, as well as proposed regulations issued by the District, except the Sewage and Waste Control Ordinance.

**Detail Program 4684 - Engineering Process Design Support**

All costs associated with providing technical support to the Engineering Department in designing capital improvements to process facilities. This includes work related to information generation, new technology evaluation, plant capacity analysis, and review of design criteria documents, plans, and specifications.

**Detail Program 4685 - Regulatory Compliance Reporting**

All costs associated with regulatory compliance reporting, including preparation of monitoring reports, requests for changes to statutory environmental monitoring requirements, projects related to evaluating the scope and effectiveness of environmental monitoring programs as applied to impacting regulatory monitoring requirements.

**Detail Program 4686 - Facility Capital Planning and Capital/Maintenance Project Evaluations**

All costs associated with long term facility planning (including master planning and plant modeling) and capital/maintenance project evaluations.

**Program 4690 - Operations and Applied Research**

All costs associated with basic, applied, primary, supplemental or long - term research necessary for the development of new or improved waste treatment and solids handling processes or operations.

**Program 4700 - Flood and Pollution Control Design**

All costs pertaining to the design activities for the control of combined sewer overflows, including tunnels and storage reservoirs (TARP); control of stormwater runoff, including detention basins and flood control reservoirs; design activities relating to river controlling works, relocating streams and improving natural drainage facilities.

**Program 4710 - Technical Assistance for Flood and Pollution Control Design**

All costs of providing technical assistance for Flood and Pollution Control Design to Departments outside the Engineering Department. These include resolution of specific plant operating problems, review of design criteria, plans, and specifications, technical coordination with other agencies, and similar technical activities not specifically chargeable under another program. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 4711 - Flood and Pollution Control Design Technical Assistance for M&O Department**

All costs of providing technical assistance for Flood and Pollution Control Design to the M&O Department.

**Detail Program 4712 - Flood and Pollution Control Design Technical Assistance for Departments other than M&O**

All costs of providing technical assistance for Flood and Pollution Control Design to outside Departments other than M&O.

**Program 4800 - Flood and Pollution Control Construction**

All costs pertaining to construction activities for the control of combined sewer overflows, including tunnels and storage reservoirs (TARP); control of stormwater runoff, including detention basins and flood control reservoirs; construction activities relating to river controlling works, relocating streams and improving natural drainage facilities.

**Program 4818 - Flood and Pollution Control Claims Prevention and Resolution**

All costs pertaining to review of estimates and schedules from design through construction. Investigation of construction claims, and in support of settlements and litigation.

**Program 4900 - Flood and Pollution Control - Indirect Cost Program Summary**

Summary of the following detail programs Costs associated with this activity will be charged only to these detail program numbers.

**Detail Program 4919 - Building Structures**

All indirect costs pertaining to structures (roofs, windows, doors, etc.), janitorial services, shop equipment within the structures, trash disposal, etc.

**Detail Program 4929 - Electrical and Mechanical Systems Within Buildings**

All indirect costs associated with systems within structures such as electrical, mechanical, communication, water, etc.

**Detail Program 4939 - Grounds**

All indirect costs associated with landscaping, roads, parking lots, vehicles, mobile equipment, and general real estate not directly related to other 4000 series programs.

**Detail Program 4999 - General Administrative Overhead**

All indirect costs for general administrative overhead that cannot be readily charged to one of the other detail programs.

**5000 Solids Drying/Utilization****Program 5100 - Disposal of Primary Solids**

This is a summary cost program of detail programs 5110 and 5120. Costs may only be charged to these detail program numbers or their subdetail numbers. Disposal of primary solids is the ultimate removal of primary solids separated (Program 2100) and processed (Program 3100).

**Program 5110 - Lo - Solids Agitation/Drying (DCC)**

Summary of the following detail programs pertaining directly to the operation and maintenance activities of the lo - solids drying areas.

**Detail Program 5111 - Drying Site O&M, for Lo - Solids**

All direct O&M costs pertaining to the drying site activities. Includes costs for drying site agitation, surface maintenance and drainage activities, heavy equipment O&M, and other site related activities. Specifically does not include costs for removal of the air dried material from the drying site (5200 Series).

**Detail Program 5112 - Material Preparation of Lo - Solids for Ultimate Use**

All direct O&M costs associated with the actual screening, sizing, and aeration of dried lagoon biosolids. Examples would include the screening of material to remove rocks and debris and the aerating of material to minimize odors.

**Detail Program 5114 - Loading Lagoon Lo - Solids for Transport to Drying Site**

All direct O&M costs associated with the actual loading of trucks or rail cars with "liquid" lo - solids, for subsequent transport into the drying site. Examples include loading Calumet previously aged "liquid" lo - solids for subsequent transport to Calumet Drying Area, and loading aged "liquid" lo - solids from the LASMA lagoons.

**Detail Program 5115 - Intrafacility Transport of Lagooned and Pre - Dried Lo - Solids to Drying Site**

All direct O&M costs associated with the actual transportation (truck and/or rail) of lagooned material into the drying site. Examples would include transporting Calumet "liquid" lagoon material into the Calumet Drying Areas, and transporting "liquid" lo - solids from the LASMA lagoons to the drying sites.

**Program 5120 - Cake Agitation/Drying (DCC)**

Summary of the following detail programs pertaining directly to the operation and maintenance activities of the aged centrifuge cake solids drying areas.

**Detail Program 5121 - Drying Site O&M for Cake**

All direct O&M costs pertaining to the drying site activities. Includes costs for drying site agitation, surface maintenance and drainage activities, heavy equipment operations and maintenance, and other site related activities. Specifically does not include costs for removal of the air dried material off of the drying site (5200 Series).

**Detail Program 5122 - Material Preparation of Cake for Ultimate Use**

All direct O&M costs associated with the actual screening, sizing, and aeration of dried aged cake. Examples would include the screening of material to remove rocks and debris and the aerating of material to minimize odors.

**Detail Program 5124 - Loading of Lagoon Cake for Transport to Drying Site**

All direct O&M costs associated with the actual loading of trucks or rail cars with aged centrifuge cake, for subsequent transport into the drying site. Examples would include loading Calumet aged centrifuge cake for subsequent transport to Calumet Drying Area, and loading aged centrifuge cake from the LASMA lagoons to drying site.

**Detail Program 5125 - Intrafacility Transport of Lagoon Cake to Drying Site**

All direct O&M costs associated with the actual transportation (truck and/or rail) of aged centrifuge cake into the drying site. Examples would include transporting Calumet aged centrifuge cake lagoon material into the Calumet Drying Areas, and transporting aged centrifuge cake from the LASMA lagoons to drying sites.

**Detail Program 5126 - Intrafacility Transport of Un-aged Cake to Drying Site**

All direct O&M costs associated with the actual transportation (truck) of unaged centrifuge cake from centrifuge facility to the drying site. An example would be "direct haul" of centrifuge cake from Stickney centrifuge building to Stoney drying site for ultimate drying.

**Program 5200 - Disposal of Secondary Solids**

This is a summary cost program of detail programs 5210, 5220, 5230, and 5240. Costs may only be charged to these detail program numbers or their subdetail program numbers. Disposal of secondary solids is the ultimate removal of secondary solids separated (Program 2200) and processed (Program 3200).

**Program 5210 - Contract Utilization/Disposal (DCC)**

Summary of the following detail programs pertaining to the operations of contracted solids utilization or disposal, to a non - District site.

**Detail Program 5211 - Contract Utilization/Disposal of Dried Biosolids**

All direct O&M costs pertaining to the ultimate utilization/disposal of the dried final product, at a non - District site. Included would be any contracted disposal cost, or any site responsibilities (i.e., unloading activities and heavy equipment for storage or incorporation).

**Detail Program 5214 - Loading of Dried Bio - Solids for Transportation to Utilization/Disposal Site**

All direct O&M costs associated with the actual loading of the final dried product from the drying cells into transport vehicles, for subsequent transportation to a non - District site.

**Detail Program 5215 - Transportation of Dried Bio - Solids to Utilization/Disposal Site**

All direct O&M costs associated with the actual transportation (truck, barge and/or rail) of the final product from the drying cells to the ultimate utilization or disposal site.

**Program 5220 - Local Distribution (DCC)**

Summary of the following detail programs pertaining to the activities of the local distribution and utilization program on non - District sites.

**Detail Program 5221 - Local Distribution O&M**

All direct O&M costs pertaining to the management of the local distribution program, for solids distribution and utilization on non - District sites.

**Detail Program 5224 - Loading of Dried Bio - Solids for Transportation to Utilization Site**

All direct O&M costs associated with the actual loading of the final product from the drying cells into transport vehicles, for ultimate utilization via the local distribution program.

**Detail Program 5225 - Transportation of Dried Bio - Solids to Local Distribution Utilization Site**

All direct O&M costs associated with the actual transportation of the dried final product from the drying cells, for ultimate utilization via the local distribution program.

**Program 5230 - Fulton County Land Reclamation (DCC)**

Summary of the following detail programs pertaining to the operations of the Fulton County Land Reclamation Project.

**Detail Program 5231 - Fulton County Land Reclamation**

All direct O&M costs pertaining to the solids application fields, field drainage, and field equipment at the Fulton County site.

**Detail Program 5232 - Fulton County Site Maintenance**

All direct O&M costs pertaining to the maintenance of field terraces, berms, siltation basins and detention basins. Also such operations as rock picking, filling and grading settlement areas, site drainage maintenance and field road maintenance.

**Detail Program 5233 - Pumping and Application of Supernatant**

All direct O&M costs pertaining to the pumping and application of bio - solids supernatant.

**Detail Program 5234 - Loading for Transportation to Fulton County**

All direct O&M costs associated with the actual loading of the final product from the drying cells into transport vehicles (barges, railroad cars, or trucks), for ultimate utilization in Fulton County. Specifically does not include the costs of loading solids from on - site interim storage facilities (5236).

**Detail Program 5235 - Transportation to Fulton County**

All direct O&M costs associated with the actual transportation of the final product from the drying cells, for ultimate utilization in Fulton County. Specifically does not include the costs of transporting solids from on - site interim storage facilities in Fulton County (5237).

**Detail Program 5236 - Loading for Transportation In Fulton County**

All direct O&M costs associated with any reloading/rehandling activities in Fulton County, for transportation to either temporary storage, or application fields in Fulton County.

**Detail Program 5237 - Intrafacility Transportation In Fulton County**

All direct O&M costs associated with the actual transportation of the final product within Fulton County, for example, from the holding basins or the temporary storage areas to the application fields.

**Detail Program 5238 - Farming In Fulton County**

All direct O&M costs pertaining to farm field preparation, cultivating, and harvesting.

**Detail Program 5239 - Reclamation Of Mine Sites**

All direct O&M costs pertaining to the ultimate reclamation of mine sites within Fulton County.

**Program 5240 - Local District Utilization (DCC)**

Summary of the following detail programs pertaining to the operations of local utilization operations on District property.

**Detail Program 5241 - Local Utilization Site Activities**

All direct O&M costs associated with site preparation, field drainage, bio - solids application, supernatant application, and site maintenance. Specifically excludes transportation costs.

**Detail Program 5243 - Transport to District Farm Site**

All direct O&M costs pertaining to the loading and transportation of biosolids to the site. An example would be the dredging, loading, and transport of stabilized lagoon biosolids to the Hanover Park WRP Fischer farm.

**Detail Program 5244 - Loading for Transportation to District Site**

All direct O&M costs associated with the actual loading of the final product from the drying cells into transport vehicles, for ultimate utilization on a local District utilization site.

**Detail Program 5245 - Transportation to District Utilization Site**

All direct O&M costs associated with the actual transportation of the final product from the drying cells, for ultimate utilization on a local District utilization site.

**Program 5250 - Farm Utilization of Cake**

Summary of the following detail programs pertaining to the operations of farm utilization to a non - District site.

**Detail Program 5251 - Farm Utilization of Wet Cake**

All direct M&O costs pertaining to the ultimate farm utilization of the solids product, at a non - District site. Included would be any contracted disposal cost, or any site responsibilities (i.e. unloading activities and heavy equipment for storage or incorporation).

**Detail Program 5252 - Wet Cake Holding Area**

All direct O&M costs pertaining to the cake holding area activities. Includes costs for surface maintenance and draining activities, heavy equipment O&M, trucking within a cake holding area, and other related activities. Specifically does not include costs for removal of the material from the cake holding area.

**Detail Program 5254 - Loading for Transportation to Wet Cake Holding Area**

All direct O&M costs associated with the actual loading of trucks or rail cars with centrifuge cake, for subsequent transport into the cake holding area. An example would be loading Stickney cake for transport to LASMA or HASMA. Note that the centrifuge cake material handling equipment (conveyors and hoppers) costs are to be captured above (3328). Costs here would include the railroad car puller maintenance and/or the actual operations associated with the loading of the vehicles.

**Detail Program 5255 - Intrafacility Transport to Wet Cake Holding Area**

All direct O&M costs associated with the actual transportation (truck and/or rail) of centrifuge cake from the SWRP or EWRP centrifuge facility into the cake holding area.

**Detail Program 5256 - Loading Wet Cake from Holding Area for Transportation to Farm Utilization Site**

All direct O&M costs associated with the actual loading of wetcake from the holding area into transport vehicles to the ultimate farm utilization site.

**Program 5260 - Farm Utilization of Dried Biosolids**

Summary of the following detail programs pertaining to the operations of farm utilization of dried biosolids at a non - District site.

**Detail Program 5261 - Farm Utilization of Dried Biosolids**

All direct O&M costs pertaining to the ultimate farm utilization of the dried final product, at a non - District site. Included would be any contracted disposal cost, or any site responsibilities (i.e. unloading activities and heavy equipment for storage or incorporation).

**Detail Program 5264 - Loading Dry Biosolids for Transportation to Farm Utilization Site**

All direct O&M costs associated with the actual loading of the final product from the drying cells into transport vehicles to the ultimate farm utilization site.

**Detail Program 5265 - Transportation of Dried Biosolids to Farm Utilization Site**

All direct O&M costs associated with the actual transportation (truck, barge, and/or rail) of the final product from the drying cells into transport vehicles to the ultimate farm utilization site.

**Program 5270 - Contractual Secondary Solids Disposal**

Summary of the following detail program pertaining to the pelletizer operations.

**Detail Program 5271 - Pelletizer Operations**

All direct costs associated with the contractual operations and maintenance of the pelletizer plant.

**Program 5700 - Solids Disposal Design**

All costs pertaining to the design of systems and facilities used in the ultimate disposal of solids, screenings, grit, and other residues.

**Program 5710 - Technical Assistance for Solids Disposal Design**

All costs of providing technical assistance for Solids Disposal Design to Departments outside the Engineering Department. These include resolution of specific plant operating problems, review of design criteria, plans, and specifications, technical coordination with other agencies, and similar technical activities not specifically chargeable under another program. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 5711 - Solids Disposal Design Technical Assistance for M&O Department**

All costs of providing technical assistance for Solids Disposal Design to the M&O Department.

**Detail Program 5712 - Solids Disposal Design Technical Assistance for Departments other than M&O**

All costs of providing technical assistance for Solids Disposal Design to outside Departments other than M&O.

**Program 5800 - Solids Disposal Construction**

All costs pertaining to the construction of systems and facilities used in the ultimate disposal of solids, screenings, grit and other residues.

**Detail Program 5818 - Solids Disposal Claims Prevention and Resolution**

Review of estimates and schedules from design through construction, investigation of construction claims, in support of settlements and litigation.

**5900 Solids Utilization - Indirect Cost Programs**

This 5900 series of Indirect Cost Programs should be utilized when the indirect cost activity may be specifically associated with the various solids drying or utilization activities, such as at Fulton County.

**Program 5910 - Buildings - Structural/Architectural (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 5911 - Janitorial Services**

All O&M costs pertaining to the full range of housekeeping and janitorial services provided for the facilities and their employees.

**Detail Program 5912 - Structural/Architectural Systems**

All O&M costs pertaining to maintenance and repair of building structures or architectural elements - such as roofs, windows, doors, etc.

**Detail Program 5914 - Shop Equipment**

All costs associated with shop equipment, such as lathes, welders, grinders, portable generators and pumps, etc.

**Detail Program 5917 - Trash Disposal**

All O&M costs pertaining to the actual disposal of trash, and maintenance associated with the dumpster facility, including all contractual and dispatching costs pertaining to the ultimate removal of the trash by a scavenger service.

**Detail Program 5919 - General Buildings**

All indirect O&M costs for buildings in general. Use this general overhead detail program for any building services costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 5920 - Buildings - Electrical/Mechanical (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 5921 - Electrical Systems/Subsystems**

All indirect O&M costs pertaining to electricity, electrical services, and systems. Where the electrical system is process - specific (i.e., energy for holding basin supernatant dewatering pumps), the costs should be charged directly to the process. Where the electrical distribution system (i.e., lighting, main breakers, motor control centers, etc.) is common, then the system costs should be charged to this indirect program.

**Detail Program 5922 - Communication Services/Subsystems**

All indirect O&M costs pertaining to communication (i.e., phone lines, computer lines, etc.) and instrumentation and control subsystems, such as common service lines, which are not process - specific.

**Detail Program 5923 - City Water Services**

All O&M costs pertaining to potable water service. Includes all underground and common city water distribution piping, valves, etc., which cannot be associated with a specific process. Includes air gaps, pumps, water towers and other components of the distribution system.

**Detail Program 5924 - Plumbing Systems**

All O&M costs pertaining to sanitary plumbing systems.

**Detail Program 5925 - Process Water Systems**

All indirect O&M costs pertaining to process water systems, which are not process - specific, such as common facilities, and including distribution and control systems. Pump seal water is an example of a process - specific expenditure, which should be charged to the specific process. Includes the main process water pumps and distribution piping network.

**Detail Program 5926 - High Pressure Air Systems**

All indirect O&M costs pertaining to high pressure air systems, which are not process - specific, such as common facilities and including distribution and control systems.

**Detail Program 5928 - Steam Generation/Distribution and HVAC Systems**

All O&M costs pertaining to steam production and service. Includes all underground and common steam distribution and condensate return piping, valves, meters, etc., which cannot be associated with a specific process. Includes boilers, feed water treatment systems, pumps, condensate tanks and other components of the distribution system.

**Detail Program 5929 - Buildings - General, Electrical/Mechanical**

All indirect costs for Electrical/Mechanical overhead of Buildings in general. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 5930 - Grounds (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 5931 - Landscaping**

All O&M costs pertaining to landscaping installation, maintenance, and repairs at the various solids drying and disposal areas.

**Detail Program 5932 - Roads/Parking Lots**

All O&M costs pertaining to installation, maintenance, and repairs to roads and parking lots at the various solids drying and disposal areas.

**Detail Program 5933 - Railroad**

All costs pertaining to installation, inspection, maintenance, and repairs to railroad right - of - way, track bed, crossings, ties, switches, and tracks, etc.

**Detail Program 5935 - Vehicles, Mobile Equipment, and Support Systems**

All costs for vehicles (including cars, trucks, trailers, personnel carriers, mobile cranes, wheel loaders, lift racks, engine analyzers, etc.) used for the movement of equipment, staff, and/or other transportation needs, and their support systems.

**Detail Program 5938 - General Real Estate**

All indirect O&M costs for incidental activities associated with District leases, easements, or permits, which are not directly related to specific solids drying or disposal activities. Includes inspections, review, and related activities on District - owned properties bordering on the solids drying or disposal facility.

**Detail Program 5939 - Grounds General**

All indirect O&M costs for grounds general. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 5940 - Emissions Monitoring and Control Activities (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 5941 - Odor Control Activities**

All O&M costs pertaining to odor control activities within the solids drying and utilization series (5000). Includes all odor control activities associated with the solids drying and utilization systems.

**Detail Program 5942 - Weather Monitoring Activities**

All O&M costs pertaining to permit required weather monitoring, and emissions testing and control activities.

**Program 5990 - Administrative Overhead (ICC)**

Summary of the following detail programs pertaining to the field offices administrative activities assignable to solids drying and disposal programs (5000 series).

**Detail Program 5991 - Human Resources Administration**

All costs pertaining to human resources administrative issues, including work schedules, and employee ratings, discipline, counseling, training, etc.

**Detail Program 5992 - Budget Administration**

All costs pertaining to the budgetary process, its development, review, and administration.

**Detail Program 5993 - Purchase Orders/Contract Administration**

All costs pertaining to the preparation, review, and administration of purchase orders or contracts.

**Detail Program 5994 - Regulatory Administration**

All costs pertaining to the preparation, review, and administration of IEPA, USEPA, and other regulatory permits.

**Detail Program 5995 - Public Affairs**

All costs pertaining to tours, or other public presentations.

**Detail Program 5996 - Process/Facility Planning**

All costs pertaining to process and facility planning.

**Detail Program 5997 - Safety/Security Administration**

All costs pertaining to safety and security administration, including safety items such as life safety equipment, portable gas meters, fire and intrusion alarms, and prevention systems.

**Detail Program 5998 - Services Provided by Other Governmental Units**

All costs pertaining to the preparation, review, payment, and administration of other activities and services performed by other units of local government. Specifically included here would be the agreement with the City of Elgin to ultimately dispose of or utilize the recovered wastewater solids from the Poplar Creek Service Area.

**Detail Program 5999 - General Administrative Overhead**

All indirect costs for general administrative overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**7000 General Support****Program 7100 - Executive Director Direction**

All costs pertaining to the office of the Executive Director.

**Program 7110 - Legislative**

All costs pertaining to any legislative process, enactment of laws or any other cooperative effort with local, state or federal agencies.

**Program 7130 - Administrative Activities**

All costs incurred in aiding the Board of Commissioners in managing District affairs.

**Program 7150 - Civil Service Board Procedures**

All costs pertaining to duties related to the Civil Service Board in advancing public interest in improvement of personnel administration. Included also are activities of the Board in hearing complaints and protests, charges against employees, and approval of leaves of absence.

**Program 7210 - Treasury Activities**

All costs pertaining to investment and debt management, cashing and miscellaneous Treasury.

**Program 7220 - Reprographic Services**

Summary of the following detail programs. Expenditures will be charged to only these detail program numbers.

**Detail Program 7221 - Duplication Services**

All costs of labor and expenditures pertaining to the reproduction (printing) of copy for internal and external communication.

**Detail Program 7224 - Graphic Design Services**

All costs of labor and expenditures pertaining to the graphic design of copy for internal and external communication.

**Program 7240 - Public Affairs**

Summary of the following detail programs. Expenditures will be charged to only these detail program numbers.

**Detail Program 7245 - Capital Improvements Public Affairs**

All costs pertaining to dedications, events, tours and publications that primarily provide information to the public about capital improvements.

**Detail Program 7247 - Internal Public Affairs**

All costs pertaining to the annual report, employee newsletters, tours and similar programs provided to District employees.

**Detail Program 7248 - External Public Affairs**

All costs pertaining to press releases, photography, communications with public, civic, social and school groups, response to public inquiries, freedom of information requests, public tours and similar activities.

**Detail Program 7249 - Library Services**

All costs pertaining to the acquisition and processing of library materials, maintenance of records, circulation, memberships in organizations and subscriptions of all kinds.

**Program 7250 - Budget Preparation and Management Studies**

Summary of the following detail programs. Expenditures will be charged to only these detail program numbers.

**Detail Program 7251 - Corporate Budget Preparation, Monitoring and Administration**

All costs pertaining to the preparation, implementation and monitoring of the Annual Appropriation Ordinance (Budget).

**Detail Program 7252 - Management and Organization Studies**

All costs related to the performance of strategic planning and management research studies of District operations.

**Detail Program 7253 - Support Department Budget Preparation, Monitoring, and Administration**

All costs pertaining to the preparation, implementation and monitoring of a Support Department's Budget.

**Detail Program 7254 - Enterprise Systems**

All costs pertaining to the implementation and administration of the Enterprise Administrative Systems.

**Detail Program 7255 - Operating Department Budget Preparation, Monitoring, and Administration**

All costs pertaining to the preparation, implementation and monitoring of an Operating Department's Budget.

**Program 7260 - Buying Procedures**

Summary of the following detail programs pertaining to the purchase of all labor, materials, services, and equipment through formal and informal bidding. Expenditures will be charged to only these detail program numbers.

**Detail Program 7261 - Purchase Orders Processed**

Issue purchase orders to appropriate suppliers.

**Detail Program 7262 - Requisition Items Processed**

Process requisition requirements into inquiries for competitive purchases.

**Detail Program 7263 - Contracts Processed**

Purchase all labor, materials, services and equipment through formal contracts.

**Detail Program 7264 - Quotes Processed**

Prepare, receive and evaluate quotations from various suppliers.

**Detail Program 7265 - Crop and Surplus Sales**

Advertise, evaluate bids and award the sale of crops, scrap and surplus materials.

**Detail Program 7269 - Buying Procedures - All Other (General)**

This program will be used when expenses cannot specifically be charged to the above detail programs.

**Program 7270 - Inventory and Cataloging**

Summary of the following detail programs pertaining to planning, budgeting, monitoring, analyzing, controlling, and cataloging of inventory to support the material and supply requirements of the District. Expenditures will be charged to only these detail program numbers.

**Detail Program 7271 - Centralized Cataloging**

Identify, classify, code and maintain stores catalog for equipment, materials and supplies in District storerooms from a central location.

**Detail Program 7272 - Cycle Counting/Inventory Control**

Cycle counting and transaction and file maintenance to insure record accuracy and accountability of District stock.

**Detail Program 7273 - Centralized Planning and Control**

Requirement planning, budgeting, controlling, monitoring and analyzing commodity - index - coded items from a central location in an optimum and economic manner.

**Detail Program 7279 - Cataloging and Inventory - All Other (General)**

This program will be used when expenses cannot specifically be charged to the above detail programs.

**Program 7280 - Stores Operation and Issue**

Summary of the following detail programs pertaining to operation and maintenance of an effective and economical storeroom operation to service the user departments' material requirements. Expenditures will be charged to only these detail program numbers.

**Detail Program 7282 - Storeroom Ordering**

Initiate and prepare requisitions in accordance with established policies and rules.

**Detail Program 7283 - Receiving**

Provide the receiving, inspecting and moving of purchased materials, both stock and non - stock items, to insure compliance with quantity, quality and specifications of purchase orders.

**Detail Program 7284 - Storing**

Provide the proper storage facilities, people and equipment to effectively store materials and supplies. To protect against damage, malfunction or loss and to move materials in a safe and economical manner.

**Detail Program 7285 - Issuing**

Provide controlled disbursement of stored materials and supplies to requesting departments.

**Detail Program 7286 - Stores Operation and Issue - All Other Goods (General)**

This program is to be used when expenses cannot be specifically charged to the above detail.

**Detail Program 7289 - Inventory Purchases - Only**

This program is to be only used for automated postings in the acquisition of inventory.

**Program 7290 - Examinations and Employment Activities**

All costs pertaining to work incident to the recruitment, screening, and testing of Civil Service Candidates, which includes the development and maintenance of a targeted recruitment program and a database of recruitment resources, preparation and distribution of test announcements, review and approval of candidates' test applications, preparation of tests, scoring of papers, and posting and certification of eligible lists. All costs for the review of unsolicited resumes and requests for notification of upcoming exams are also charged to this program.

**Program 7295 - Equal Employment Opportunity Activities**

All costs associated with counseling, complaint investigation and implementation of Affirmative Action Plan objectives for those employees in statutorily designated groups, and advocacy for such employees or candidates.

**Program 7296 - Recruitment and Marketing Activities**

Costs associated in the development and maintenance of a targeted advertising program and a database of recruitment resources including college recruitment and other outreach activities.

**Program 7300 - Compensation and Classification Activities**

All costs pertaining to establishing and maintaining a classification plan based on a job evaluation system and the creation and maintenance of job descriptions, plus recommending establishment of wage and salary programs for all employees.

**Program 7310 - Training and Development Activities**

All costs pertaining to activities related to the development and administration of training programs, such as in - house training, Apprenticeship Program, and Tuition Reimbursement, including various seminars and conferences.

**Program 7311 - Employee Performance Management**

All costs pertaining to administration of employee performance appraisals and probationary status reports.

**Program 7315 - Retiree Benefits**

All costs pertaining to the health benefit plans for retirees.

**Program 7316 - OPEB Trust Management and Report Preparation**

All costs pertaining to the Other Postemployment Benefits (OPEB) trust.

**Program 7320 - Employee Benefits**

All costs pertaining to activities related to administration of employee benefit programs, including health, life, and dental insurance; Wellness Programs; Deferred Compensation; and Employee Assistance Program.

**Program 7325 - Labor and Employee Relations**

All costs pertaining to the establishment and maintenance of labor contracts. Included in this program are analyses and recommendation of personnel rules, ED Directives, administrative procedures and the collective bargaining agreements; general counseling of supervisors and managers regarding these rules and grievance and discipline issues; and the administration of union dues and fair - share deductions. All costs pertaining to the administration of the Employee Relations Program, including conducting investigations in accordance with Personnel Rule 12.01, Non - Represented Employee Complaints, and performance appraisal reviews, and unemployment compensation.

**Program 7330 - Human Resources Administration**

All costs pertaining to work involved in the preparation of personnel action forms, which include all personnel functions, such as hiring, transfers, and promotions of new, existing, and seasonal employees. All costs pertaining to preparation and administration of the Human Resources Department budget including contracts related to the pre - employment physical examinations and drug screens. All costs pertaining to the duties of the Civil Service Board in advancing public interest in improvement of personnel administration.

**Program 7340 - Security of Plants and Properties**

All costs pertaining to work incident to the guarding of the gates of entry to District plants and offices; also the patrolling of various District properties, as well as investigations related to security.

**Program 7350 - General Legal Matters**

Summary of the following detail programs. Expenditures will be charged only to these detail program numbers.

**Detail Program 7351 - Legislative**

All costs pertaining to the legislative program. Includes costs associated with legislative digests and bills as well as associated travel expenses.

**Detail Program 7352 - Financial Matters**

All costs associated with the legal aspects of the issuance of bonds, preparation of motions, ordinances, and other filings connected with the budget documents of the District and rendering of legal advice concerning financial matters.

**Detail Program 7353 - Environmental and Regulatory Matters**

All costs pertaining to general environmental matters, including activities associated with Stormwater Management, Infiltration and Inflow, administration of MWRD permits such as NPDES, Clean Air Act Permit Program (CAAPP), Watershed Management Ordinance (not sewer) and Lake Diversion allocation, interpretation and monitoring of environmental regulations, resource recovery, and biosolids.

**Detail Program 7354 - Contract Administration**

All costs pertaining to matters involving contract administration, including review of proposed contracts, signing of awarded contracts, review of surety and insurance matters, negotiation and review of claims, handling liens, arbitration of property damage claims.

**Detail Program 7355 - Litigation**

All costs associated with the preparations for trials and associated legal documents.

**Detail Program 7356 - Employment Matters**

All costs pertaining to civil service matters, employment discrimination law, labor relations and labor arbitration.

**Detail Program 7359 - Legal Services - General**

All costs related to general litigation, which cannot specifically be charged to the above detail programs.

**Program 7360 - Real Estate Operations**

Summary of the following detail programs. Expenditures will be charged only to these detail programs.

**Detail Program 7361 - Leases (including subleases)**

All costs pertaining to the administration of leases (and subleases) including the granting of new leases.

**Detail Program 7362 - Easements**

All costs pertaining to the administration of easements including the granting of new easements.

**Detail Program 7363 - Permits**

All costs pertaining to the administration of permits including the issuance of new permits.

**Detail Program 7364 - Rights - of - Entry Pending Easements**

All costs pertaining to the administration of right - of - entry including both rights - of - entry pending the grant of a subsequent easement and those rights - of - entry tantamount to licenses.

**Detail Program 7365 - Land Record Program**

All costs pertaining to initiating and maintaining a permanent record system showing a chronological history of all lands presently owned and to be acquired by the District.

**Detail Program 7366 - Waterways Land Management**

All expenditures applicable to the management program of Waterways Lands.

**Detail Program 7367 - Real Estate Asset Management**

All expenditures pertaining to the development and implementation of an expedited real estate asset management program to increase revenue by lease and or sale of current real estate holdings.

**Detail Program 7368 - Real Estate Environmental Assessment**

All expenditures pertaining to environmental assessment and remediation of District - owned real estate.

**Detail Program 7369 - Real Estate Operations - All Other (General)**

All other real estate operation expenses not specifically charged to detail programs 7361 through 7366 will be charged to this program.

**Program 7370 - Claims Processing and Investigations**

Summary of the following detail programs. Expenditures will be charged only to these detail programs.

**Detail Program 7371 - Employee Injury Claims Processed**

All costs pertaining to employee job - oriented injuries.

**Detail Program 7379 - Investigations - All Other (General)**

All investigation expenses relative to claims processed that are not specifically charged to 7371 are charged to this program.

**Program 7380 - Information Technology and Telecommunications**

Summary of the following detail programs. Expenditures will be charged only to these detail items.

**Detail Program 7381 - Systems Analysis and Programming**

All costs incurred by the Information Technology Department pertaining to the acquisition, development and/or maintenance of computer programs and systems for the District.

**Detail Program 7382 - Desktop Applications Support**

All costs incurred by the Information Technology Department pertaining to the technical support given to desktop computer users.

**Detail Program 7383 - Voice, Data, and Video Communications Support**

All costs incurred to the Information Technology Department pertaining to the support and operation of voice, data, and video communications in all District buildings and the support and operations of data, voice, and video communications for the entire District.

**Detail Program 7384 - Central Computer Hardware and Proprietary Software Support**

All costs incurred by the Information Technology Department pertaining to the systems support of the central computer hardware and proprietary software in use throughout the District.

**Detail Program 7385 - Computer Operations, Maintenance, and Support**

Costs incurred for District - wide maintenance and operations of central computers, desktop computer maintenance, and site - wide software maintenance of central computers.

**Detail Program 7386 - Disaster Recovery**

All costs pertaining to development and maintenance of a District - wide disaster recovery system for business, technical and communication systems vital to District functions.

**Detail Program 7387 - Computer Security**

All costs pertaining to the implementation and operation of a District - wide program of computer security and disaster recovery.

**Detail Program 7388 - Information Systems Planning**

All costs pertaining to development and maintenance of District information technology and voice, data, and video communications strategies, plans, and procedures.

**Detail Program 7389 - Information Systems Coordination**

All costs pertaining to the review and coordination of District information technology and telecommunications hardware and software acquisition and implementation.

**Program 7390 - Accounting and Auditing**

Summary of the following detail programs. Expenditures will be charged only to these detail programs.

**Detail Program 7391 - Accounts Payable**

All costs pertaining to processing requisitions, purchase orders vendor invoices, voucher checks and their respective accounting costs.

**Detail Program 7392 - Payroll and Employee Expense**

All costs pertaining to processing payrolls, timesheets and expense checks and their respective accounting costs.

**Detail Program 7393 - Billing and Collections**

All billing and collection costs pertaining to user charges, real estate leases, grants, state revolving loans, and miscellaneous receipts.

**Detail Program 7394 - Transaction Processing**

All costs pertaining to transaction processing payroll, employee expenses, vendor invoices, user charges, real estate leases, grants, state revolving fund loans and respective accounting costs.

**Detail Program 7395 - Internal Auditing**

All costs pertaining to the internal review and appraisal of District functions performed at the direction of the Executive Director. Included in this program are financial audits and audits of compliance with legal and contractual provisions.

**Detail Program 7396 - Reporting**

All costs pertaining to internal audits for compliance with legal and contractual provisions, accounting and financial reporting, and enhancements of financial systems.

**Detail Program 7398 - Legislative/Executive**

All costs pertaining to the duties of the Clerk's Office, including Board proceedings, agenda and legislative actions, and executive functions of the Departments

**Detail Program 7399 - Accounting and Financial Reporting**

All costs associated with accounting and financial reporting including general ledger maintenance, capital asset accounting, reconciliations, cost accounting and preparation of financial reports.

**Detail Program 7405 - Financial System Development**

All costs pertaining to the development or enhancement of financial systems.

**Program 7460 - Main Office Complex Building Services**

Summary of the following detail programs. Expenditures will be charged only to these detail programs.

**Detail Program 7461 - Main Office Building Complex Operations**

All costs pertaining to the maintenance and operations of the Main Office Building and McMillan Pavilion.

**Detail Program 7462 - Main Office Building Complex Construction**

All costs pertaining to the construction or major alterations of the Main Office Building and McMillan Pavilion.

**Detail Program 7463 - Mailroom Services**

All costs applicable to maintaining mailroom services are charged to this program.

**Detail Program 7464 - Telephone Switchboard Operations at MOBC**

All costs required to provide for telephone switchboard operations for the Main Office Building Complex (MOBC).

**Program 7470 - Contract Diversity**

Summary of the following detail programs pertaining to the implementation and enforcement of a contract diversity program for all District processes. Expenditures will be charged only to these detail programs.

**Detail Program 7471 - Contract Compliance**

All costs of activities necessary to assure compliance with contract procedures pertaining to Contract Diversity.

**Detail Program 7472 - Community Activity**

All costs related to conferences, preparation and distribution of information, and response to public inquiries about Contract Diversity activities.

**Detail Program 7473 - Contract Diversity Support**

All costs related to Contract Diversity, which cannot be specifically charged to detail programs 7471 or 7472.

**Program 7480 - Safety Program**

All costs pertaining to safety administration, including safety training and safety program equipment. This program also includes industrial and construction inspections, maintenance and re-certification of safety systems and equipment, plus the review of Engineering specifications.

**Program 7490 - Automotive Fleet Operations**

Summary of the following detail programs. Expenditures will be charged to only these detail programs.

**Detail Program 7491 - Automotive Fleet Procurement**

All costs pertaining to the scheduling, procurement, and subsequent replacement of District fleet vehicles.

**Detail Program 7496 - Automotive Fleet Disposal**

All costs pertaining to the disposal of used District fleet vehicles.

**Detail Program 7499 - Automotive Fleet Operations**

All administrative activities and costs pertaining to the operation, maintenance, and repair of District-owned, state-licensed, "over-the-road" self-propelled motor vehicles under 10,001 pounds Gross Vehicle Weight.

**Program 7500 - Risk Management Operations**

All costs pertaining to establishing and maintaining a risk management program, including insurance coverage and premiums for other than employee benefits, administration of risk management information systems, development of emergency response and business continuity plans, and fees for other risk-related services such as insurance brokers, asset appraisals, and risk assessments.

**Detail Program 7501 - Risk Management Administration**

All costs pertaining to the establishment and administration of an enterprise wide risk management program, including insurance coverage (but not including employee benefit programs), administration of the risk management information system (RMIS), review of insurance wording in contracts, development of an emergency response plan, and a business continuity plan.

**Detail Program 7502 - Insurance Premiums, Broker Fees, and Other Services**

Premiums paid to insurance companies, fees paid to insurance brokers, and fees for other risk related services such as asset appraisals, loss development, funding and actuarial reviews, and risk assessments.

**Program 7601 - Capital Financing Program and Other Related Costs**

Repayment of principal and interest on District issued bonds.

**Program 7604 - Social Security and Medicare Contributions**

All costs for required Medicare and Social Security matching contributions.

**Program 7700 - Grants, Loans, Permits and Government Operations**

Summary of the following detail programs. Costs will be charged only to these detail programs.

**Detail Program 7701 - Grant/Loan Applications**

All costs pertaining to preparation of federal and state grant applications and all work in connection with the applications.

**Detail Program 7702 - Permit Applications**

All costs pertaining to District applications for IEPA and USEPA permits, plus correspondence related thereto.

**Detail Program 7703 - Grant/Loan Processing**

All costs pertaining to post grant award administering of existing grants, including but not limited to, processing change orders, grant budget period extensions, M&O manual submittals, audit inquiries and monitoring of the above.

**Detail Program 7704 - General Government Operations**

All costs pertaining to general governmental operations such as the annual contribution to the Northern Illinois Planning Commission.

**Program 7705 - Interaction with Private Environmental Interests**

All costs necessary to respond to and interact with intergovernmental and nonprofit organizations on issues dealing with District interests.

**Program 7710 - Technical Assistance for Grants, Loans, Permits and Government Operations**

Summary of the following detail programs pertaining to providing technical assistance for Grants, Loans, Permits and Government Operations to Departments outside the Engineering Department. These include resolution of specific plant operating problems, review of design criteria, plans, and specifications, technical coordination with other agencies, and similar technical activities not specifically chargeable under another program. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 7711 - Grants, Loans, Permits and Government Operations Technical Assistance for M&O Department**

All costs of providing technical assistance for Grants, Loans, Permits and Government Operations to the M&O Department.

**Detail Program 7712 - Grants, Loans, Permits and Government Operations Technical Assistance for Departments other than M&O**

All costs of providing technical assistance for Grants, Loans, Permits and Government Operations to outside Departments other than M&O.

**Program 7740 - Land and Easements**

Purchase cost of land and all costs pertaining to labor and related expenses attributable to the purchase of land, obtaining easements, leases, permits and the time spent on transmittals, etc. Included in this program are analysis and review of District facilities and ordinances with other local agencies and state legislature, coordinating construction plans, and attending hearings and meetings.

**Program 7741 - Survey Support**

All costs pertaining to survey support associated with projects in the design and construction phases, for management of District property, and performed for various departments.

**Program 7745 - Utility Review**

All costs pertaining to reviewing and responding to requests from the Office of Underground Coordination (OUC); Joint Utility Locating Information for Excavators (JULIE); and the Illinois Department of Transportation (IDOT).

**Program 7760 - Environmental Planning**

Summary of the following detail programs. Expenditures will be charged only to these detail program numbers.

**Detail Program 7761 - Master Planning**

All costs pertaining to the development of comprehensive site plans for various District facilities.

**Detail Program 7762 - Space Planning**

All costs related to non-construction contract revisions to offices/workstations.

**Detail Program 7763 - Land Planning**

All costs pertaining to the design, selection and installation of non - construction contract landscaping at various District Facilities.

**7800 Information Technology Services**

These programs are intended to be utilized by Information Technology personnel in those instances when costs are chargeable to other Departments and their programs.

**Program 7800 - Information Technology Support Services**

Summary of the following detail programs pertaining to Information Technology services performed for other Departments. Costs will be charged only to these detail programs.

**Detail Program 7801 - Information Technology Services - General Administration**

All costs of Information Technology personnel that are chargeable to General Administration and its programs.

**Detail Program 7802 - Information Technology Services - M&R**

All costs of Information Technology personnel that are chargeable to the Monitoring & Research Department and its programs.

**Detail Program 7803 - Information Technology Services - Procurement & Materials Mgmt**

All costs of Information Technology personnel that are chargeable to the Procurement & Materials Management Department and its programs.

**Detail Program 7804 - Information Technology Services - Human Resources**

All costs of Information Technology personnel that are chargeable to the Human Resources Department and its programs.

**Detail Program 7805 - Information Technology Services - Finance**

All costs of Information Technology personnel that are chargeable to the Finance Department and its programs.

**Detail Program 7806 - Information Technology Services - Engineering**

All costs of Information Technology personnel that are chargeable to the Engineering Department and its programs.

**Detail Program 7807 - Information Technology Services - M&O**

All costs of Information Technology personnel that are chargeable to the Maintenance & Operations Department and its programs.

**Detail Program 7808 - Information Technology Services - Stormwater Management**

All costs of Information Technology personnel that are chargeable to the Stormwater Management program.

**Detail Program 7809 - Information Technology Services - All Other Departments**

All costs of Information Technology personnel that are chargeable to all other departments and their programs.

**7900 General Support**

These programs are intended to be utilized by main office and field personnel in those instances where costs are chargeable to other Departments, for general support services provided by the M&O Department - examples would include: main office building upgrade and remodeling expenditures for General Administration; laboratory and storeroom support costs, including janitorial services, facility maintenance, and repairs, etc; personnel examinations support costs when assisting in the conduct of examinations; real estate support costs when assisting Law Department with leasehold activities review, etc.

**Program 7900 - M&O General Support Services (ICC)**

Summary of the following detail programs pertaining to general support services M&O performs for other Departments.

**Detail Program 7901 - M&O Services - Board of Commissioners**

M&O services performed for the Board of Commissioners.

**Detail Program 7902 - M&O Services - General Administration**

M&O services performed for General Administration.

**Detail Program 7903 - M&O Services - M&R**

M&O services performed for the Monitoring & Research Department.

**Detail Program 7904 - M&O Services - Procurement & Materials Mgmt**

M&O services performed for the Procurement & Materials Management Department.

**Detail Program 7905 - M&O Services - Human Resources**

M&O services performed for the Human Resources Department.

**Detail Program 7906 - M&O Services - Information Technology**

M&O services performed for the Information Technology Department.

**Detail Program 7907 - M&O Services - Law**

M&O services performed for the Law Department.

**Detail Program 7908 - M&O Services - Finance**

M&O services performed for the Finance Department.

**Detail Program 7909 - M&O Services - Engineering**

M&O services performed for the Engineering Department.

**Detail Program 7999 - M&O Services - Various**

M&O Services performed for various departments.

**Program 8000 - General Overhead M&O Internal Use Only****Program 8110 - M&O Inventory Purchases**

This program is used to distribute inventory stock purchases that would be charged to a non - P&MM department expenditure.

**Detail Program 8111 - Returns to Inventory**

Return distributed stock purchases to inventory.

**8900 General Overhead**

These programs are used in the budget preparation and administration process and are redistributed to 1000 - 7000 series programs.

As a general preface, note that it is intended that all process - specific operating and maintenance costs, that is, all costs (labor, contracts, energy, materials, etc.) that directly impact the operational performance of the various sewage collection, treatment, solids processing, or solids utilization activities, be charged against one of the direct (1000/2000/3000/5000) cost centers.

These overhead and indirect cost programs are intended to be utilized by main office personnel, and should only be utilized by field personnel in those cases where it is not readily feasible to make the proper process - specific distinction at the time of coding. Note also, that you should not include costs chargeable to other Departments, which should be charged to 7000 series programs (General Support).

**Program 8910 - Buildings - Structural/Architectural (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 8911 - Janitorial Services**

All O&M costs pertaining to the full range of housekeeping and janitorial services provided for the facilities and its employees.

**Detail Program 8912 - Structural/Architectural Systems**

All O&M costs pertaining to maintenance and repair of building structures or architectural elements, such as roofs, windows, doors, etc.

**Detail Program 8914 - Shop Equipment**

All costs associated with shop equipment, such as lathes, welders, grinders, portable generators and pumps, etc.

**Detail Program 8917 - Trash Disposal**

All O&M costs pertaining to the actual disposal of trash, and maintenance associated with the dumpster facility, including all contractual and dispatching costs pertaining to the ultimate removal of the trash by a scavenger service.

**Detail Program 8919 - General Buildings**

All indirect O&M costs for general buildings. Use this general overhead detail program for any building services costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 8920 - Buildings - Electrical/Mechanical (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 8921 - Electrical Systems/Subsystems**

All indirect O&M costs pertaining to electricity, electrical services and systems. Where the electrical system is process - specific, the costs should be charged directly to the process. Where the electrical distribution system (i.e., lighting, main breakers, motor control centers, etc.) is common, then the system costs should be charged to this indirect program.

**Detail Program 8922 - Communication Services/Subsystems**

All indirect O&M costs pertaining to communication (i.e., phone lines, computer lines, etc.) and instrumentation and control subsystems, such as common service lines, which are not process - specific.

**Detail Program 8923 - City Water Services**

All O&M costs pertaining to potable water service. Includes all underground and common city water distribution piping, valves, etc., which cannot be associated with a specific process. Includes air gaps, pumps, water towers and other components of the distribution system.

**Detail Program 8924 - Plumbing Systems**

All O&M costs pertaining to sanitary plumbing systems.

**Detail Program 8925 - Process Water Systems**

All indirect O&M costs pertaining to process water systems, which are not process - specific, such as common facilities, and including distribution & control systems and the distribution/piping network.

**Detail Program 8926 - High Pressure Air Systems**

All indirect O&M costs pertaining to high - pressure air systems, which are not process - specific, such as common facilities and including distribution and control systems.

**Detail Program 8927 - Turbine Generator**

All O&M costs pertaining to the turbine generator, including its waste heat recovery boiler. Includes the various piping, valves, and electrical systems dedicated to the generator and recovery boiler. Includes all auxiliary support equipment such as the gas compressors, filters, and digester gas storage tanks.

**Detail Program 8928 - Steam Generation/Distribution and HVAC Systems**

All O&M costs pertaining to steam production and service. Includes all underground and common steam distribution and condensate return piping, valves, meters, etc., which cannot be associated with a specific process. Includes boilers, feed water treatment systems, pumps, condensate tanks and other components of the distribution system.

**Detail Program 8929 - Buildings - General Electrical/Mechanical**

All indirect costs for Buildings - General, Electrical/Mechanical overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 8930 - Grounds (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 8931 - Landscaping**

All O&M cost for landscape installation, maintenance, and repairs.

**Detail Program 8932 - Roads/Parking Lots**

All O&M costs pertaining to installation, maintenance and repairs to roads and parking lots.

**Detail Program 8933 - Railroad**

All costs pertaining to installation, inspection, maintenance and repairs to railroad right-of-way, track bed, crossings, ties, switches, tracks, etc.

**Detail Program 8935 - Vehicles, Mobile Equipment, and Support Systems**

All costs for vehicles (including cars, trucks, trailers, personnel carriers, mobile cranes, wheel loaders, lift racks, engine analyzers, etc.) used for the movement of equipment, staff, and/or other transportation needs, and their support systems.

**Detail Program 8938 - General Real Estate**

All indirect O&M costs for incidental activities associated with District leases, easements or permits, which are not directly related to specific collection, treatment, solids processing, drying or disposal activities. Includes inspections, review and related activities on District - owned properties.

**Detail Program 8939 - Grounds General**

All indirect O&M costs for Grounds General. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

**Program 8940 - Emissions Monitoring and Control****Activities (ICC)**

Summary of the following detail programs. Costs will be charged only to these programs or their subdetail programs.

**Detail Program 8941 - Odor Control Activities**

All O&M costs pertaining to odor control activities.

**Detail Program 8942 - Weather Monitoring Activities**

All O&M costs pertaining to permit required weather monitoring, and emissions testing and control activities.

**Program 8990 - Administrative Overhead (ICC)**

Summary of the following detail programs pertaining to the field offices' administrative activities, which cannot be readily associated with the process - specific program series (i.e., 1900/2900/3900/5900).

**Detail Program 8991 - Human Resources Administration**

All costs pertaining to human resources administration, such as work schedules, employee ratings, discipline, counseling, training, etc.

**Detail Program 8992 - Budget Administration**

All costs pertaining to the budgetary process - its development, review and administration.

**Detail Program 8993 - Purchase Orders/Contract Administration**

All costs pertaining to the preparation, review, and administration of purchase orders or contracts.

**Detail Program 8994 - Regulatory Administration**

All costs pertaining to the preparation, review and administration of IEPA, USEPA and other regulatory permits.

**Detail Program 8995 - Public Affairs**

All costs pertaining to tours or other public presentations.

**Detail Program 8996 - Process/Facility Planning**

All costs pertaining to process and facility planning.

**Detail Program 8997 - Safety/Security Administration**

All costs pertaining to safety and security administration, including safety equipment such as life safety equipment, portable gas meters, fire and intrusion alarm and prevention systems.

**Detail Program 8998 - Services Provided by Other Governmental Units**

All costs pertaining to the preparation, review, payments, and administration of other activities and services performed by other units of local government.

**Detail Program 8999 - General Administrative Overhead**

All indirect costs for General Administrative Overhead. Use this general overhead detail program for any costs that cannot be readily charged to one of the above detail programs. These costs will be reallocated later.

V. CLASSIFICATION OF COMMITMENT ITEMS

The term “commitment item” is used to include both object and commitment item expenditure accounts. A description of each account is presented on the pages that follow.

SUMMARY OF COMMITMENT ITEM TITLES

<u>Code No.</u>	<u>Account Description</u>	<u>Code No.</u>	<u>Account Description</u>
<b>100</b>	<b>PERSONAL SERVICES</b>	612860	Repairs to Vehicle Equipment
601010	Salaries of Regular Employees	612970	Repairs to Testing and Laboratory Equipment
601060	Compensation Plan Adjustments	612990	Repairs, N.O.C.
601070	Social Security and Medicare Contributions		
601080	Salaries of Nonbudgeted Employees	<b>300</b>	<b>MATERIALS AND SUPPLIES</b>
601090	Employee Claims	623030	Metals
601100	Tuition and Training Payments	623070	Electrical Parts and Supplies
601230	District Contribution for Early Retirees	623090	Plumbing Accessories and Supplies
601250	Health and Life Insurance Premiums	623110	Hardware
601270	General Salary Adjustments	623130	Buildings, Grounds, Paving Materials, and Supplies
601300	Personal Services, N.O.C. (Not Otherwise Classified)	623170	Fiber, Paper, and Insulation Materials
		623190	Paints, Solvents, and Related Materials
<b>200</b>	<b>CONTRACTUAL SERVICES</b>	623250	Vehicle Parts and Supplies
612010	Travel	623270	Mechanical Repair Parts
612030	Meals and Lodging	623300	Manhole Materials
612040	Postage, Freight, and Delivery Charges	623520	Office, Printing, and Photographic Supplies, Equipment, and Furniture
612050	Compensation for Personally-Owned Automobiles	623530	Farming Supplies
612080	Motor Vehicle Operating Services	623560	Processing Chemicals
612090	Reprographic Services	623570	Laboratory Testing Supplies, Small Equipment, and Chemicals
612150	Electrical Energy	623660	Cleaning Supplies
612160	Natural Gas	623670	Railroad Supplies
612170	Water and Water Services	623680	Tools and Supplies
612210	Communication Services	623700	Wearing Apparel
612240	Testing and Inspection Services	623720	Books, Maps, and Charts
612250	Court Reporting Services	623780	Safety and Medical Supplies
612260	Medical Services	623800	Computer Software
612280	Subscriptions and Membership Dues	623810	Computer Supplies
612290	Insurance Premiums	623820	Fuel
612330	Rental Charges	623840	Gases
612340	Discount Loss	623850	Communications Supplies
612360	Advertising	623860	Lubricants
612370	Administration Building Operation	623990	Materials and Supplies, N.O.C.
612390	Administration Building Mc Pav Operation		
612400	Intergovernmental Agreements	<b>400</b>	<b>MACHINERY AND EQUIPMENT</b>
612410	Governmental Service Charges	634600	Equipment for Collection Facilities
612420	Maintenance of Grounds and Pavements	634620	Equipment for Waterway Facilities
612430	Payments for Professional Services	634650	Equipment for Process Facilities
612440	Preliminary Engineering Reports and Studies	634670	Railroad Equipment
612450	Professional Engineering Services for Construction Projects	634760	Material Handling and Farming Equipment
612490	Contractual Services, N.O.C.	634780	Safety and Medical Equipment
612500	Biosolids Application Services	634790	Marine Equipment
612510	Biosolids Disposal Charges	634800	Office Furniture and Equipment
612520	Waste Material Disposal Charges	634810	Computer Equipment
612530	Farming Services	634820	Computer Software
612540	Sludge Cake Disposal	634840	Communications Equipment (Includes Software)
612590	Sludge Disposal	634860	Vehicle Equipment
		634970	Testing and Laboratory Equipment
		634990	Machinery and Equipment, N.O.C.
	<i>612600 - 612990 (Corporate Fund Only)</i>		
	<b><u>Repairs to Structures and Non - Structural Improvements</u></b>	<b>500</b>	<b>CAPITAL AND PRESERVATION PROJECTS</b>
612600	Repairs to Collection Facilities	645600	Collection Facilities Structures
612620	Repairs to Waterway Facilities	645620	Waterway Facilities Structures
612650	Repairs to Process Facilities	645630	Army Corps of Engineers Services
612670	Repairs to Railroads	645650	Process Facilities Structures
612680	Repairs to Buildings	645680	Buildings
		645690	Capital Projects, N.O.C.
	<b><u>Repairs to Machinery and Equipment</u></b>	645700	Preservation of Collection Facility Structures
612760	Repairs to Material Handling and Farming Equipment	645720	Preservation of Waterway Facility Structures
612780	Safety Repairs and Services	645730	Preservation via Corps of Engineers Services
612790	Repairs to Marine Equipment	645750	Preservation of Process Facility Structures
612800	Repairs to Office Furniture and Equipment	645780	Preservation of Buildings
612810	Computer Equipment Maintenance	645790	Preservation of Capital Projects, N.O.C.
612820	Computer Software Maintenance		
612840	Communications Equipment Maintenance (Includes Software)		

<u>Code No.</u>	<u>Account Description</u>
<b>600</b>	<b>LAND</b>
656010	Land
<b>700</b>	<b>FIXED AND OTHER CHARGES</b>
667020	Equity Transfer
667130	Taxes on Real Estate
667220	General Claims and Emergency Repair and Replacement Costs
667250	Refunds
667340	Payments for Easements
667350	Charges, N.O.C.
	<b>FIXED AND OTHER CHARGES - FINANCIAL</b>
	(See page 70 for Expenditures)
727070	Interest on Corporate Notes and Other Interim Financing
727080	Interest on Bond Anticipation Notes
727090	Interest on Construction Fund Notes
727100	Interest on Bonds
727102	Principal - Capital Lease
727110	Principal on Bonds
727112	Interest - Capital Lease
767300	Bond Issuance Costs
767301	Capital Outlay - Biosolids Facility
767400	Refunding Transaction Costs
767401	Liquidity Fees
767402	Remarketing Fees
767403	Trustee and Other Fees
777410	Transfer to Escrow Agents
777450	Other Financing Use - Bond Discount
787420	Intrafund Transfers
787430	Transfers - In/Out
787440	Offset for Prepaid Insurance
787500	Treasurer's Office - 2 Fund Reimbursement
787510	General Administration - 2 Fund Reimbursement
787520	Procurement & Materials Mgmt - 2 Fund Reimbursement
787530	Human Resources Department - 2 Fund Reimbursement
787540	Law Department - 2 Fund Reimbursement
787550	Finance Department - 2 Fund Reimbursement
787560	Monitoring & Research - 2 Fund Reimbursement
787570	Maintenance & Operations - 2 Fund Reimbursement
787580	Information Technology - 2 Fund Reimbursement
787700	Reimbursement to the Construction Fund for Labor Costs Incurred on Corporate Fund Projects
787710	Reimbursement to the Construction Fund for Indirect Costs Incurred on Corporate Fund Projects
787720	Reimbursement to the Construction Fund for Labor Costs Incurred on Bond Fund Projects
787730	Reimbursement to the Construction Fund for Indirect Costs Incurred on Bond Fund Projects
790001	Inventory Difference
790002	Inventory Scrapping
790003	Price Difference
790004	Materials Management Difference (Invoice Verification)
797890	Pension Costs
798200	OPEB - Professional Fees
798201	OPEB - Retiree Health Care Premiums & Claims

V. CLASSIFICATION OF COMMITMENT ITEMS

The term “line item” (commitment item) is used to include both object and line (commitment) item expenditure accounts. A description of each account and, in many cases, specific illustrations are presented. It should be noted that the particular commitment item is not limited to the illustrations shown, as these are merely included to show the general type of expenditure covered by a particular code number.

<u>Code No.</u>	<u>Name and Description</u>	<u>Code No.</u>	<u>Name and Description</u>
<b>100</b>	<b>PERSONAL SERVICES</b> The accounts under this classification relate to: salaries of regular and temporary employees; employee claims; and awards.	<b>601300</b>	<b>Personal Services, N.O.C. (Not Otherwise Classified)</b> Charge all compensation for personal services such as summer workers, vacation relief, awards for safety programs and suggestion awards. This pay does not include employee benefits.
<b>601010</b>	<b>Salaries of Regular Employees</b> Payments for budgeted personnel titles and rates.	<b>200</b>	<b>CONTRACTUAL SERVICES</b> This classification covers services rendered by other than District employees and facilities. Generally, these costs pertain to operational and repair work done for the District by outside agencies and companies, and other such services as are obtained by an actual or implied agreement or contract.
<b>601060</b>	<b>Compensation Plan Adjustments</b> Payments for adjustment of salaries due to the following: step increases based on standards of service and performance; changes in labor and trade wage schedules; incentive pay for unused sick leave over 120 days; retirement; severance; termination; unused overtime and/or vacation pay; paid overtime.	<b>612010</b>	<b>Travel</b> Payments for travel furnished by outside carriers (auto rental and parking charged to a/c 612330).  <b>Illustration:</b> Bus, cab, “L”, train, plane, employee or recruit transportation costs.
<b>601070</b>	<b>Social Security and Medicare Contributions</b> District contribution of employer portion of required Social Security and Medicare payments.	<b>612030</b>	<b>Meals and Lodging</b> Payments made to cover authorized meals and lodging because of District conferences or seminars, as well as payments for meals earned during overtime. (Do not include registration fees for seminars. See Commitment Item 601100.)  <b>Illustration:</b> Hotel, motel, meals, tips.
<b>601080</b>	<b>Salaries of Nonbudgeted Employees</b> Payments made to “nonbudgeted” employees receiving employee benefits such as paid holidays, sick leave, vacation and pension. Two types of employees who qualify for this category are: 1. District employees returning to work from certain types of leaves, with no budgeted positions available at the time of return; 2. New temporary emergency employees hired (for a maximum of 120 days) in an existing Civil Service title, with no budgeted positions open at that time.	<b>612040</b>	<b>Postage, Freight, and Delivery Charges</b> Payments made to post offices or substations and freight charges for materials shipped or hauled.  <b>Illustration:</b> Metered mail, parcel post, registered mail, special delivery stamped envelopes, stamps, freight charge, cartage or demurrage.
<b>601090</b>	<b>Employee Claims</b> Payments made for on-the-job injuries or accidents wherein physical impairment has resulted, as covered under Local Governmental Employees Tort Immunity Act, and Worker’s Compensation Act, Illinois Unemployment Insurance Act in compliance with Unemployment Amendments of 1976, PL 94 - 560.  <b>Illustration:</b> Injury settlements, hospitalization costs, compensation made to the State for District unemployment compensation.	<b>612050</b>	<b>Compensation for Personally-Owned Automobiles</b> Payments made to employees on authorized District business using their personally owned vehicles.  <b>Illustration:</b> Tolls, parking, rate per mile.
<b>601100</b>	<b>Tuition and Training Payments</b> Payments made for seminars, conferences and tuition costs of single course or full course of study for those working toward degrees or for those increasing their job effectiveness. Training equipment or supplies, meals and lodging for conferences or seminars are not to be included.  <b>Illustration:</b> Study courses, registration fees for professional seminars and conferences.	<b>612080</b>	<b>Motor Vehicle Operating Services</b> Payments for services to District - owned vehicles for gas, oil, greasing, washing, license plates, commercial driver’s license renewals, including tolls, when authorized; also parking for these District cars.
<b>601230</b>	<b>District Contribution for Early Retirees</b> The District’s contribution towards the early retirement program.	<b>612090</b>	<b>Reprographic Services</b> All forms of outside vendor reproduction service including bookbinding, reports, film, brochures, diagrams, letterheads, and tracings. Does not include the purchase of standard office forms.  <b>Illustration:</b> Printing, planographing, blueprinting, tracing, aerial and ground photography, microfilming, film processing, photostats, slides.
<b>601250</b>	<b>Health and Life Insurance Premiums</b> Payments for individual employee premiums for life insurance and hospitalization made with District funds.	<b>612150</b>	<b>Electrical Energy</b> Payments to power companies for consumption of electricity and self - assessed utility excise taxes paid directly to the State of Illinois under the provisions of the Electrical Excise Tax Law contained in Public Act 90 - 561.
<b>601270</b>	<b>General Salary Adjustments</b> Before the annual budget is finalized, this line item indicates the amount of general salary adjustments. When the Board of Commissioners makes a decision, various departmental amounts are distributed to the Regular Salary a/c 601010 and Compensation Plan Adjustments a/c 601060.	<b>612160</b>	<b>Natural Gas</b> Payments to gas companies for consumption of natural gas.

<u>Code No.</u>	<u>Name and Description</u>	<u>Code No.</u>	<u>Name and Description</u>
612170	<b>Water and Water Services</b> Payments made to cities, villages, or water companies for the consumption of water, including bottled water.	612370	<b>Administration Building Operation</b> Payments for maintenance and operation of the Main Office Building at 100 East Erie Street.
612210	<b>Communication Services</b> Payments made for telephone, Internet service providers, telegraph and telemetering services.		<b>Illustration:</b> Cleaning, heating, routine repair, window washing and pest control.
612240	<b>Testing and Inspection Services</b> Payments made for inspecting and testing materials, equipment, etc., for experimental work, research, construction, maintenance and operation work.	612390	<b>Administration Building Mc Pav Operation</b> Payments for maintenance and operation of the Main Office McMillan Pavilion at 111 East Erie Street.
	<b>Illustration:</b> Testing concrete, steel, lubricants, elevators, meters, and all types of equipment. Soil and rock mechanics investigations to assist in the design of structures.	612400	<b>Intergovernmental Agreements</b> Payments under project cost sharing agreements with other governmental agencies which will not result in District acquisition of capital assets.
612250	<b>Court Reporting Services</b> Payments made to governmental agencies or private reporting firms.		<b>Illustration:</b> Stormwater management projects or flood-prone property acquisitions for local municipalities.
	<b>Illustration:</b> Court reporting and transcript.	612410	<b>Governmental Service Charges</b> Payments for the operation of small sewage treatment plants, pumping stations and any other governmental agency service, including payments for fees and professional services.
612260	<b>Medical Services</b> Payments made for medical services rendered by doctors, hospitals, clinics, laboratories and veterinarians.		<b>Illustration:</b> Hinsdale, Fox River WRD, U.S. Geological Surveys, Corps of Engineers, IEPA Laboratory Certification Fee, studies by the Illinois State Water Survey.
	<b>Illustration:</b> Examinations, treatment, x - rays, etc.	612420	<b>Maintenance of Grounds and Pavements</b> Payments to outside contractors for the upkeep of District grounds and repair of pavements and walks.
612280	<b>Subscriptions and Membership Dues</b> Payments made to receive the services and benefits of professional and business organizations and societies.		<b>Illustration:</b> Snow removal; tree maintenance; weed and rodent baiting and spraying; grass mowing; repairs to sidewalks; streets and pavements; supervision of grounds and agricultural work; herbicide; insecticide application; deodorant for grounds only.
	<b>Illustration:</b> Payments for association, magazine, newspaper and society subscriptions, memberships, dues and fees, including electronic subscriptions and electronic books.	612430	<b>Payments for Professional Services</b> Payments to specialists in areas such as Human Resources, Law, Sewer Design, Flood Control, Research, etc.
612290	<b>Insurance Premiums</b> Payments made to cover loss for accident, catastrophe, and Worker's Compensation.		<b>Illustration:</b> Analytical services, legal opinions, tax anticipation warrants, land litigation, tax matters, condemnation works, studies, plans, surveys, auditing, lake diversion, inventory control, computer program, public information, fees for paying bonds and interest coupons, proctors for Civil Service exams.
	<b>Illustration:</b> Auto Insurance, Surety Bond Premiums, Worker's Compensation Premiums.	612440	<b>Preliminary Engineering Reports and Studies</b> Payments to consultants for engineering studies and preliminary plans.
612330	<b>Rental Charges</b> Payments for rental of land, structures, motor vehicles, office equipment and floating equipment. Included are services of operators, where applicable.	612450	<b>Professional Engineering Services for Construction Projects</b> Payments to consultants for the preparation of final contract plans and specifications, cost estimates, and on-site inspection and supervision of construction projects.
	<b>Illustration:</b> Helicopter, facilities, aerial surveys, rental of trailer, bus, boat, truck, airplane, office and plant equipment.	612490	<b>Contractual Services, N.O.C.</b> Payments for miscellaneous operations performed by outside agencies and individuals not covered under other impersonal service accounts.
612340	<b>Discount Loss</b> Expenditure generated when a payment is made outside of the discount payment terms.		<b>Illustration:</b> Contractual clerical services, towel and laundry service, public office fees, window cleaning, decorating service, duplicate key service, laboratory technician services, on - site training for specialized laboratory equipment, removal and installation of vehicle locator units.
612360	<b>Advertising</b> Payments to publishers and other communication media for various purposes, such as legal notices, position vacancies, ordinances and contracts.		
	<b>Illustration:</b> Magazine, Newspaper, Radio, Television.		

<u>Code No.</u>	<u>Name and Description</u>	<u>Code No.</u>	<u>Name and Description</u>
612500	<b>Biosolids Application Services</b> Payments made for contract laborers and materials in the application of Biosolids.	612790	<b>Repairs to Marine Equipment</b> Repairs to boats, barges, and related appurtenances.
612510	<b>Biosolids Disposal Charges</b> Normally for transportation and related expenses to move Biosolids from our sewage plants by rail, barge, truck, pipeline, etc.  <b>Illustration:</b> Other related costs - barge inspection, leasing expense, unloading barge and dock expense.	612800	<b>Repairs to Office Furniture and Equipment</b> Repairs to office items including typewriters, desks, chairs, photocopiers, and print shop and mail room equipment.
612520	<b>Waste Material Disposal Charges</b> All services and expenses relative to waste disposal and handling, excavation and transportation of process, lagoon and centrifuge solids.  <b>Illustration:</b> Grit, screenings, scum, trash, dragline, slackline, and dozer services.	612810	<b>Computer Equipment Maintenance</b> Contractual services and repairs performed under outside contract to items such as personal computers, servers, printers, central data processing equipment and other computer peripherals.
612530	<b>Farming Services</b> Services for agricultural work on District land.	612820	<b>Computer Software Maintenance</b> Maintenance and support of existing mainframe and personal computer software, including annual renewal licenses, version upgrades, and fees and maintenance for software as a service.
612540	<b>Sludge Cake Disposal</b> Payments for the disposal of predigested sludge.	612840	<b>Communications Equipment Maintenance (Includes Software)</b> Contractual services and repairs to items such as telephone switches, telephone equipment, radio, and fax machine, etc., including maintenance and support of existing communications systems software, software version upgrades and annual software renewal licenses.  <b>Illustration:</b> Radio, FAX machine, vehicle locator unit service fees and upgrades.
612590	<b>Sludge Disposal</b> Control management and disposal of solids by private contract.	612860	<b>Repairs to Vehicle Equipment</b> Repairs to District - owned, state - licensed cars and trucks (self - propelled "over - the - road" motor vehicles under 10,000 pounds gross vehicle weight) or any parts thereof, including appraisals, labor, parts, and materials.
612600 - 612680	<b>Repairs to Structures and Non - Structural Improvements (Corporate Fund Only)</b> Payments for repair and maintenance work only. Major rehabilitations or modifications, which are defined as capital improvements, are to be charged to Accounts 645600 - 645690, and 645700 - 645790.	612970	<b>Repairs to Testing and Laboratory Equipment</b> Repairs to testing and laboratory equipment including mass spectrometers chromatographs, centrifuges, mercury analyzers, balances, microscopes, flowmeters, dishwashers, fume hoods, microwave systems, respirometers, plasma units, and ovens.
612600	<b>Repairs to Collection Facilities</b> Repairs to sewers, tunnels, and sewage structures, pumping stations, all related machinery and equipment, and television inspection of sewers.	612990	<b>Repairs, N.O.C.</b> Various repair and maintenance expenses not covered in Commitment Items 612600 - 612970.  <b>Illustration:</b> Photographic equipment, engineering and drafting equipment, police weapons and holsters, televisions and audio/visual equipment.
612620	<b>Repairs to Waterway Facilities</b> Repairs to waterway appurtenances, locks, dams, bridges, viaducts, channels, ditches, reservoirs and their related pumping stations, machinery and equipment.	300	<b>MATERIALS AND SUPPLIES:</b> This classification extends to items which: 1. are changed or consumed when used; or 2. lose their individual identity when used with other materials or parts; or 3. have a normal use expectancy of less than one year; or 4. would meet all criteria for placement in the 400 series of line items, except for the fact that their individual cost is less than \$5,000.00.
612650	<b>Repairs to Process Facilities</b> Repairs to treatment plant facilities and related machinery and equipment.	623030	<b>Metals</b> Commodities consisting of manufactured (fabricated) metals to be used for reinforcing, patching, replacing, building, supporting, etc.  <b>Illustration:</b> Aluminum, brass, copper, iron, nickel, scrap, steel, tin, sheet, bar square, floor grating, round or flat stock, solder, babbitt lead flux welding rod and lead seal.
612670	<b>Repairs to Railroads</b> Repairs to railroads and equipment including railroad bed, track, and dump cars.		
612680	<b>Repairs to Buildings</b> Building repairs including tuckpointing, re - roofing, refrigeration, air conditioning, elevators, drinking fountains and heating.		
612760 - 612990	<b>Repairs to Machinery and Equipment: (Corporate Fund Only)</b> Payments for repair work and preventive maintenance only, performed under outside contract.		
612760	<b>Repairs to Material Handling and Farming Equipment</b> Repairs to equipment used in material handling and farming, including crawlers, tractors, cranes, and graders.		
612780	<b>Safety Repairs and Services</b> Repairs and services for safety items including refill of extinguishers, servicing monitoring equipment, gas meters, noise abatement equipment, recharge oxygen cylinders, lead and asbestos abatement.		

<u>Code No.</u>	<u>Name and Description</u>	<u>Code No.</u>	<u>Name and Description</u>
623070	<p><b>Electrical Parts and Supplies</b> Parts and supplies used to repair and maintain electrical systems, motors, telephone or telecommunications systems. Would also include electrical machinery and equipment, such as motors, transformers, circuit breakers, and communication equipment.</p> <p><b>Illustration:</b> Coil, connector, fuse, reflector, cable, switch box, battery (not auto) contact, terminal, conduit, outlet, lamp wire, telephones, and motors.</p>		<p><b>Illustration:</b> Bearings, blower parts, boiler parts, chain sprockets, compressor parts, crane parts, diaphragms, dryer parts, drill parts, feeder parts, filter blankets, furnace parts, heater parts, hoist parts, pistons, pump parts, packing turbines, replacement chains, and packing.</p>
623090	<p><b>Plumbing Accessories and Supplies</b> Piping, fittings, fixtures and supplies used to repair and maintain water, oil, compressed air, sewage, or steam systems, etc. Would also include plumbing equipment, such as gauges and pumps.</p> <p><b>Illustration:</b> Connectors, cross couplings, unions, ell joints, pipe elbows, pipe extensions, valves and parts, piping and tubing, iron, copper, plastic, rubber and neoprene, garden or steam hoses, and pumps.</p>	623300	<p><b>Manhole Materials</b> Included under this line item are all commodities, materials, parts or supplies used for replacement, repair, or upgrade of manholes.</p>
623110	<p><b>Hardware</b> Commodities used for fixing, improving and repairing machines and structures.</p> <p><b>Illustration:</b> Bolt, hinge, hook, lock, nail, nuts, pin, rivet, screw, spring, washer, bailing wire, tie wire, aluminum fence ties, track bolts, and spikes.</p>	623520	<p><b>Office, Printing, and Photographic Supplies, Equipment, and Furniture</b> Printing supplies such as inks, rollers, cover and paper stock, litho - film, chemicals, film and supplies for photography, drafting and drawing supplies, office supplies, office furniture and equipment.</p> <p><b>Illustration:</b> Photographic film, litho film, flashbulbs, developing paper and materials, drafting supplies, office supplies and photocopier supplies such as paper and toner, desk and pocket calculators, chairs, bookshelves, desks, filing cabinets and moveable partitions.</p>
623130	<p><b>Buildings, Grounds, Paving Materials, and Supplies</b> Materials and supplies used in repairing and improving structures, streets, walks and landscaping.</p> <p><b>Illustration:</b> Rock, sand, lime, granite, stone, asphalt, brick, cement, glass, lumber, plaster, roofing, tile, glue, adhesives, seals, trees, bushes, woodfiller, and rock salt.</p>	623530	<p><b>Farming Supplies</b> Farming equipment and supplies including vitamins, rubbing block, seed, and fertilizers.</p>
623170	<p><b>Fiber, Paper, and Insulation Materials</b> Commodities used to protect and safeguard structures, persons or equipment (paper stationery or printing not included).</p> <p><b>Illustration:</b> Asbestos covering, castable materials, felt, fiber sheets, insulation block, kraft and corrugated paper, rope insulating tape, water proofer, weather stripping, wool, heat resistant cement, firebrick, cement, canvas, and duck.</p>	623560	<p><b>Processing Chemicals</b> Commodities used for the facilitation of sludge treatment and disposal in Maintenance &amp; Operations.</p> <p><b>Illustration:</b> Ferric chloride, soda ash, muriatic acid, sodium hypochlorite, insecticides, herbicides, algicides, pesticides, larvacides, rodent control chemicals, chemical toilet supplies.</p>
623190	<p><b>Paints, Solvents, and Related Materials</b> Commodities used for protection from the elements and/or for appearance; supplies used to facilitate application and preservation of these products.</p> <p><b>Illustration:</b> Mineral spirits, brush &amp; roller, xylene putty, thinner, paint, remover, varnish, linseed oil, glue, enamel, wallpaper, paste, paint, grease cans, and covers.</p>	623570	<p><b>Laboratory Testing Supplies, Small Equipment, and Chemicals</b> Commodities, supplies and minor cost equipment used in research and laboratory-related activities and special projects.</p> <p><b>Illustration:</b> Beakers, burners, flasks, forceps, syringes, burettes, injection valves, funnels, tubes and tubing, pipettes, laboratory chemicals and gases, gauges, balances, microscopes, refrigerators, flowmeters, samplers, etc.</p>
623250	<p><b>Vehicle Parts and Supplies</b> Commodities used as replacement, repair, or as new to keep all self - propelled, engine - driven motor vehicles in operating condition. Would also include nonfarm material handling and vehicular equipment. See Commitment Item 612860 for repairs associated with District - owned vehicles under 10,000 pounds gross vehicle weight.</p> <p><b>Illustration:</b> Batteries, belts, distributor caps, gaskets, pumps, rings, springs, spark plugs, tires, tubes, and antifreeze.</p>	623660	<p><b>Cleaning Supplies</b> Commodities used in plants, offices and related facilities for cleanliness and sanitation of washrooms, equipment, etc.</p> <p><b>Illustration:</b> Brooms, disinfectants, mops, polishes, soaps, sponges, towels, rags, toilet paper, and cocoa mats.</p>
623270	<p><b>Mechanical Repair Parts</b> Commodities used in repairing equipment. Would also include mechanical equipment not relegated to other 300 - series line items.</p>	623670	<p><b>Railroad Supplies</b> Items used to operate and maintain railroad facilities.</p>
		623680	<p><b>Tools and Supplies</b> Implements used for cutting, drilling or shaping by hand or in conjunction with a machine or some equipment.</p> <p><b>Illustration:</b> Axes, braces, dies, drills, bits, broaches, chucks, cutters, machines or hand saws, pliers, shovels, spades, emery cloth, sandpaper, files, abrasives, flashlights, slings, and gang hooks.</p>

<u>Code No.</u>	<u>Name and Description</u>	<u>Code No.</u>	<u>Name and Description</u>
623700	<p><b>Wearing Apparel</b> Wearable commodities purchased for use by personnel in performing regular duties.</p> <p><b>Illustration:</b> Gloves, raincoats, rainpants, rainjackets, rubber boots, uniforms, jackets, protective apron, boots (not safety), caps, cap emblem, waders, body boots, lab coats, badges, jacket and uniform emblems.</p>		<p><b>Illustration:</b> Graphite, lubricating oil, motor detergent, wax, silicone.</p>
623720	<p><b>Books, Maps, and Charts</b> Commodities used for reference, illustrations, and for general or technical information to perform and understand one's activities and for recording data.</p> <p><b>Illustration:</b> Dictionaries, directories, manuals, maps, pamphlets, textbooks, and electronic digital equivalents, e.g., CD's or tapes.</p>	623990	<p><b>Materials and Supplies, N.O.C.</b> Commodities where no other applicable classification is available in terms of materials, parts or supplies.</p> <p><b>Illustration:</b> Decals, flag, signs (not safety or security), ammunition, marine supplies, railroad supplies.</p>
623780	<p><b>Safety and Medical Supplies</b> Materials and supplies required to maintain an adequate safety, medical, and fire prevention program.</p> <p><b>Illustration:</b> Safety goggles, safety eyeglass and shoe program, dust respirators, hard hats, chin straps, chemical refills (cartridges), gas cartridges (medical, oxygen), ear plugs, medicines, prescriptions, gauze, tape, bandages, vaccine, insect lotion, bee and wasp spray, chemical flame retardant apron, replacement and spare parts for safety and fire equipment, aluminum pike pole, safety boots, signs (tags, name plates, plaques), flashers, beacon ray light, safety lanterns, fire hose, and splints.</p>	400	<p><b>MACHINERY AND EQUIPMENT</b> This classification deals with capital outlay items which:</p> <ol style="list-style-type: none"> <li>1. are not expendable during first use; or</li> <li>2. have a normal use expectancy of more than one year; or</li> <li>3. do not lose their individual identity through use; and</li> <li>4. have an individual cost of more than \$5,000.00 (otherwise, budget the item in the appropriate 300 - series commitment item).</li> </ol>
623800	<p><b>Computer Software</b> Initial acquisition of computer software and licenses, such as individual department purchases of specialty software for individual PC's.</p>	634600	<p><b>Equipment for Collection Facilities</b> All expenditures made for the benefit of sewers and facilities such as pumping stations, regardless of whether equipment is electrical, heating, ventilating, shop, or portable.</p>
623810	<p><b>Computer Supplies</b> Parts and supplies used to repair and maintain computer equipment, including minor computer equipment.</p> <p><b>Illustration:</b> Cables, mice, circuit boards, floppy disks, memory chips, PC's and laptop computers, printers, monitors, scanners (flatbed and barcode).</p>	634620	<p><b>Equipment for Waterway Facilities</b> All expenditures made for locks, dams, powerhouses, detention reservoirs, and their pump stations, channels, or ditches, are charged to this account regardless of whether equipment is electrical, heating and ventilating, shop, or portable equipment.</p> <p><b>Illustration:</b> Motors, transformers, circuit breakers, pumps, drills, storage cabinets, contracts to furnish and install cooling equipment.</p>
623820	<p><b>Fuel</b> Commodities used for heating facilities, powering internal combustion engines, and burning in portable stoves and lanterns.</p> <p><b>Illustration:</b> Bulk gasoline, fuel oil, diesel oil, kerosene, naphtha, illuminants, and propane.</p>	634650	<p><b>Equipment for Process Facilities</b> Expenditures made for reclamation plants performing treatment, solids processing, and solids disposal will be charged to this line item account whether expenditures are electrical, heating, ventilating, shop, or portable plant equipment.</p> <p><b>Illustration:</b> Motors, transformers, circuit breakers, pumps, lathes, storage cabinets, steam flow meters, benches, vises.</p>
623840	<p><b>Gases</b> Commodities of a gaseous nature used for cutting, welding, igniting, burning sewage treatment. Also includes demurrage charges and deposits on containers.</p> <p><b>Illustration:</b> Acetylene, chlorine, and oxygen.</p>	634670	<p><b>Railroad Equipment</b> Equipment used in the transportation of materials, equipment and sludge by our railroad facilities.</p>
623850	<p><b>Communications Supplies</b> Commodities used for replacement, repair, upgrade or new purchases of communications equipment, including telephones, fax machines, radios, routers and pagers.</p>	634760	<p><b>Material Handling and Farming Equipment</b> Equipment used in loading or relocating bulky materials or performing farming tasks.</p> <p><b>Illustration:</b> Backhoes, buckets, bulldozers, end loaders, power shovels, tractors, cultivators, plows, discs, and tillers.</p>
623860	<p><b>Lubricants</b> Commodities used to help equipment performance and to cut down wear and tear on machinery, equipment and parts plus demurrage and deposits on containers.</p>	634780	<p><b>Safety and Medical Equipment</b> Equipment used for safety of personnel and facilities.</p>
		634790	<p><b>Marine Equipment</b> Items to be used on and by boats or on streams and rivers.</p> <p><b>Illustration:</b> Boats, marine engines, and equipment.</p>
		634800	<p><b>Office Furniture and Equipment</b> Items used in buildings for professional and clerical functions including items for decorating purposes.</p> <p><b>Illustration:</b> Cubicle partitions.</p>

<u>Code No.</u>	<u>Name and Description</u>	<u>Code No.</u>	<u>Name and Description</u>
634810	<b>Computer Equipment</b> Acquisition of major computer equipment and systems.  <b>Illustration:</b> Mainframe computers, minicomputers, peripherals, tape drives, and disc drives.	645650	<b>Process Facilities Structures</b> All capital projects concerned with necessary sewage conveying within a processing plant as well as tunnels, sewage structures, and sludge lines.  <b>Illustration:</b> Drying beds, grit chambers, tanks, aeration, concentration, digestion, final Imhoff preliminary, skimming.
634820	<b>Computer Software</b> Initial acquisition of computer software and licenses.	645680	<b>Buildings</b> Includes structures and any permanent fixtures within and out of such structures.  <b>Illustration:</b> Main Office Buildings, Storerooms, Sewer Control Chambers, curbs, gutters, roads, and sidewalks.
634840	<b>Communications Equipment (Includes Software)</b> Equipment and its associated software, other than computer equipment and software, used for telecommunications.  <b>Illustration:</b> Telephone systems, switchboards, and LAN bridges.	645690	<b>Capital Projects, N.O.C.</b> Included within this category are structures and nonstructural improvements, which are supplemental and incidental to the major items, listed in the above and related accounts.
634860	<b>Vehicle Equipment</b> Vehicles used for transportation of personnel or materials.  <b>Illustration:</b> Autos, dump trucks, sweepers, semitractors, and trucks.		<b>PRESERVATION PROJECTS</b> Costs that extend the useful life of an infrastructure asset, but do not increase the capacity (level of service) or efficiency (maintaining the same level of service at a reduced cost) of the asset.
634970	<b>Testing and Laboratory Equipment</b> Items that are used for checking and inspecting the operation and efficiency of pieces of equipment, structures and grounds as well as those items used in experiments, analyses, and research by technicians and chemists.  <b>Illustration:</b> Fault locators, instruments, incubators, ovens, sterilizers, centrifuges, ductless fume hoods, and furnaces, etc.	645700	<b>Preservation of Collection Facility Structures</b>
634990	<b>Machinery and Equipment, N.O.C.</b> Expenditures for equipment of a miscellaneous nature not chargeable to one of the other accounts in the 400 series.  <b>Illustration:</b> Engineering equipment such as drafting tables and planimeters. Photographic equipment such as cameras, enlargers, water coolers, and mail and postage machines.	645720	<b>Preservation of Waterway Facility Structures</b>
500	<b>CAPITAL AND PRESERVATION PROJECTS</b>  <b>CAPITAL PROJECTS</b> Items under this classification pertain to cost of acquisition, improvement, replacement, remodeling, completing, altering, constructing and enlarging District facilities. Included are all fixtures and equipment which are permanently attached to and made a part of such structures and non - structural improvements, and which cannot be removed without in some way impairing the facility or structure.	645730	<b>Preservation via Corps of Engineers Services</b>
645600	<b>Collection Facilities Structures</b> Capital projects having to do with separate and independent facilities outside the major treatment plant areas.  <b>Illustration:</b> Pumping Stations, Interceptor Sewers.	645750	<b>Preservation of Process Facility Structures</b>
645620	<b>Waterway Facilities Structures</b> All capital projects concerned with structures such as bridges, viaducts, locks, dams, channels, ditches, reservoirs, and powerhouses.  <b>Illustration:</b> Harbor retaining walls, service gates, and spillways.	645780	<b>Preservation of Buildings</b>
645630	<b>Army Corps of Engineers Services</b> All capital projects sponsored by the Army Corps of Engineers.	645790	<b>Preservation of Capital Projects, N.O.C.</b>
		600	<b>LAND</b>
		656010	<b>Land</b> Payments under this category cover expenditures related to the acquisition, condemnation, or site preparation for lease or sale of land sites..  <b>Illustration:</b> Demolition of structures, grading, and fill
		700	<b>FIXED AND OTHER CHARGES</b> This classification is for costs incurred through bond ordinances, from other governmental agencies, unforeseen circumstances, special purposes, and miscellaneous charges not otherwise classified.
		667020	<b>Equity Transfer</b> Transfer payments between funds.
		667130	<b>Taxes on Real Estate</b> Payments made on District property located in various townships throughout such counties as DuPage and Will Townships.
		667220	<b>General Claims and Emergency Repair and Replacement Costs</b> Payments made to persons or firms in settlements of injury or damage to property other than District property, or persons other than District employees for claims of deprivation of any constitutional or statutory right or protection. This account is also charged for emergency costs to repair or replace property or facilities damaged by fire, flood, explosion, vandalism, or any peril natural or manmade.
		667250	<b>Refunds</b> Payments made to individuals or firms to pay back amounts on such activities as rentals, appraisals, and other related expenses.

<u>Code No.</u>	<u>Name and Description</u>	<u>Code No.</u>	<u>Name and Description</u>
667340	<b>Payments for Easements</b> Payments made to individuals or firms for licenses or right - of - way privileges to perform District operations. Permanent or temporary.	777450	<b>Other Financing Use - Bond Discount</b>
667350	<b>Charges, N.O.C.</b> This account will be charged for any fiscal, operational, or safety-related special purpose not chargeable to any other specific account in the Fixed and Other Charges category.  <b>FIXED AND OTHER CHARGES - FINANCIAL</b>	787420	<b>Intrafund Transfers</b> Transfers among accounts within a fund.
727070	<b>Interest on Corporate Notes and Other Interim Financing</b> Periodic payments for use of money before annual property taxes are received for General Obligation Notes, Tax Anticipation Notes, and other interim financing.	787430	<b>Transfers - In/Out</b> Equity transfers related to Working Cash.
727080	<b>Interest on Bond Anticipation Notes</b> Periodic payments for interest on bond anticipation notes. This shall be an expenditure of the Capital Improvements Bond Fund.	787440	<b>Insurance Offset</b> Offset for Prepaid Insurance
727090	<b>Interest on Construction Fund Notes</b> Periodic payments for use of money before annual property taxes are received.	787500 - 787730	<b>Reimbursement to the Corporate Fund for Services Provided to the Construction Fund</b> Reimbursement from the Construction Fund to the Corporate Fund for direct and indirect services to support Construction Fund activities.
727100	<b>Interest on Bonds</b> Periodic payments of interest for bonds issued for various purposes.  <b>Illustration:</b> Cal - Sag Improvement, Construction Series, Working Cash.	787500	<b>Treasurer's Office - 2 Fund Reimbursement</b>
727102	<b>Principal - Capital Lease</b> Monthly principal portion of the District's capital lease payment for the biosolids processing facility.	787510	<b>General Administration - 2 Fund Reimbursement</b>
727110	<b>Principal on Bonds</b> Yearly payments for principal amounts of general obligation or revenue bonds used for various purposes.  <b>Illustration:</b> Construction Series, Working Cash.	787520	<b>Procurement &amp; Materials Management - 2 Fund Reimbursement</b>
727112	<b>Interest - Capital Lease</b> Monthly interest portion of the District's capital lease payment for the biosolids processing facility.	787530	<b>Human Resources Department - 2 Fund Reimbursement</b>
767300	<b>Bond Issuance Costs</b> Fees paid for legal, accounting, commissions, promotion costs, printing and other similar charges associated with a bond issue.	787540	<b>Law Department - 2 Fund Reimbursement</b>
767301	<b>Capital Outlay - Biosolids Facility</b> Capitalized net value of the District's biosolids processing facility.	787550	<b>Finance Department - 2 Fund Reimbursement</b>
767400	<b>Refunding Transaction Costs</b> Refunding Transaction Costs - costs associated with the defeasance of bonds (refunding issuance costs).	787560	<b>Monitoring &amp; Research - 2 Fund Reimbursement</b>
767401	<b>Liquidity Fees</b> Fees associated with a standby commitment to purchase and/or provide an alternative market for variable bonds.	787570	<b>Maintenance &amp; Operations - 2 Fund Reimbursement</b>
767402	<b>Remarketing Fees</b> Fees associated with the remarketing and interest rate setting on variable rate debt.	787580	<b>Information Technology - 2 Fund Reimbursement</b>
767403	<b>Trustee and Other Fees</b> Variable Rate Debt Administration Costs-Trustee and other Professional Fees	787700	<b>Reimbursement to the Construction Fund for Labor Costs</b> Corporate Fund reimbursement to the Construction Fund for salary costs of Construction Fund employees working on Corporate Fund projects.
777410	<b>Transfer to Escrow Agents</b> Transfers associated with refunding bond transactions.	787710	<b>Reimbursement to the Construction Fund for Indirect Costs</b>
		787720	<b>Reimbursement to the Construction Fund for Labor Costs Incurred on Bond Fund Projects</b> Bond Fund reimbursement to the Construction Fund for salary costs
		787730	<b>Reimbursement to the Construction Fund for Indirect Costs Incurred on Bond Fund Projects</b> Bond Fund reimbursement to the Construction Fund for indirect costs of Construction Fund employees working on Bond Fund projects. Indirect costs include health insurance, office space, utilities and supplies, etc.
		790001	<b>Inventory Difference</b> Corporate fund adjustment for any differences between the SAP inventory value and a physical count. (Transaction MI07).
		790002	<b>Inventory Scrapping</b> Corporate fund adjustment to inventory to remove obsolete items from inventory.
		790003	<b>Price Difference</b> Price changes related to inventory items, includes price changes on 501 movement types and adjustments when goods receipt does not equal the corresponding invoice for inventory items.
		790004	<b>Materials Management Difference (Invoice Verification)</b> Corporate Fund adjustment when goods receipt does not equal the corresponding invoice for non-inventory items.
		797890	<b>Pension Costs</b> Employer annual contributions to the Retirement Fund.

<u>Code No.</u>	<u>Name and Description</u>
798200	<b>OPEB - Professional Fees</b> Fees paid for legal, investment advisory, audit, trade execution, and other services related to administration of the OPEB Trust.
798201	<b>OPEB - Retiree Health Care Premiums &amp; Claims</b> Claims and insurance premiums paid for retirees.

## VI. ALPHABETICAL LISTING OF COMMITMENT ITEMS

The following alphabetical listing of expenditures and their respective code numbers is presented for quick reference.

<u>Commitment Item</u>	<u>Code</u>	<u>Commitment Item</u>	<u>Code</u>

**FINANCE DEPARTMENT CHART OF ACCOUNTS**

**I. DESCRIPTION OF FUND AND ACCOUNT GROUP STRUCTURE**

The District's accounts are classified into several funds. The funds and the sub - funds of the District are described below.

**Corporate Fund** - Established to account for an annual property tax levy and certain other revenues, which are to be used for the operation and payment of general expenditures of the District not specifically chargeable to other funds.

**Fund Number Sub - Fund**

- 101 101 - Regular
- 102 - Unpaid Bills Appropriation
- 104 - Refund
- 105 - Bid Deposits

**Construction Fund** - Established to account for the annual tax levy and certain other revenues to be used for the acquisition of long - term assets used in principal functions of the District.

**Fund Number Sub - Fund**

- 201 201 - Regular
- 202 - Unpaid Bills Appropriation

**Bond Redemption and Interest Funds** - Established to account for annual tax levies and certain other revenues which are used for the payment of interest and redemption of specific bond issues.

**Fund Number Sub - Fund**

**Stormwater Management Fund** - Established to account for an annual property tax levy and certain other revenues, which are to be used for stormwater management activities as required under Public Act 93 - 1049.

**Fund Number Sub - Fund**

- 501 501 - Regular

**Working Cash Funds** - Established to make temporary loans (repayable from the tax levy of the Applicable Year) to the respective Corporate or Construction Fund as applicable, thus reducing the need for issuance of tax anticipation warrants (or general obligation notes) and the resultant interest expense.

**Fund Number Sub - Fund**

- 701 701 - Corporate Working Cash
- 702 - Construction Working Cash
- 705 - Stormwater Working Cash Fund

**Retirement Fund** - Established to account for the proceeds of an annual tax levy which is payable as collected to the Employees' and Trustees' Annuity and Benefit Fund (a trust fund whose monies are to be used as retirement allowance to retired employees of the District or their surviving dependents).

**Fund Number Sub - Fund**

- 801 801 - Retirement Fund
- P801 - Non - CAFR Fund

**OPEB Trust (Non - CAFR)** - A fund established to maintain and administer the Other Postemployment Benefits (OPEB) program.

**Fund Number Sub - Fund**

- P802 - Non - CAFR Fund

**Reserve Claim Fund** - A fund established to maintain a reserve for the payment of claims, awards, losses, judgements, liabilities, settlements or demands and associated attorney's fees and costs including but not limited to the Workman's Compensation Act, Workman's Occupational Diseases Act, any claim in tort, or any claim of deprivation of any constitutional or statutory right or protection, for all expenses, fees, and costs, both direct and in support of the repair or replacement of any property damaged by fire, flood, explosion, vandalism, or any peril, natural or man-made.

**Fund Number Sub - Fund**

- 901 901 - Regular

**Group of Accounts:**

General Fixed Assets - Established to account for the fixed assets used in the principal functions of the District.

General Long - Term Debt - Established to account for the long - term indebtedness other than general obligation notes. The indebtedness is payable from the fund balance in the Bond Redemption and Interest Funds and future property tax levies and is backed by the full faith and credit of the District.

**Organization Units, Jobs (Class Numbers), and Position Control Numbers**

Organization Units, Jobs (Class Numbers), and Position Control Numbers all have an eight (8) digit number structure. The range for Organization Units is 40011012 - 40069945. For example, if the organization unit is 40067711:

The first three digits (in this example 400) represent the prefix;

The fourth and fifth digits represent the department code. In this case 67 refers to M&O - North Service Area, and;

The last three digits refer to the section number, which in this case represents the North Service Area Budget Control Unit.

Job numbers have the following numbering range: 20001001 - 20010240.

Positions Control Numbers will range from 30000000 - 39999999.

Any number starting with 31 is a position with a crosshatch 1, which signifies that the incumbent will retain the title until he or she vacates the position and then the position will be dropped.

Any number starting with 32 is a position with a crosshatch 2, which signifies that when the position is vacated, the person filling the vacancy will receive the title and/or pay grade within the parentheses in the Position Analysis portions of the annual Budget document.

Any number starting with 33 is a position with a crosshatch 3, which signifies that the position, upon vacancy, is subject to appropriation control. The position may be dropped at the discretion of the Executive Director based on operational requirements.

Any number starting with 34 is a position with a crosshatch 4, which signifies that a pay grade change to the Technical, Administrative, and Managerial (TAM) salary schedule has been made for a job title in a Job Class, but the incumbent in the position will be compensated under the previously assigned salary schedule.

Any number starting with 35 and 36 is a temporary, vacation relief, or Intern position and does not appear in the Position Analysis portions of the annual Budget document as these positions are paid out of Commitment Item 601300 (Personal Services, N.O.C.).

Any number starting with 38 is a “nonbudgeted” (line item 108) position, which, being unbudgeted, does not appear in the Position Analysis portions of the annual Budget document.

Any number starting with 39 is a Special Project Administrative Assistant to Commissioner or Administrative Clerk to Commissioner position and does not appear in the Position Analysis portions of the annual Budget document as these positions are paid out of Commitment Item 601300 (Personal Services, N.O.C.).

**Internal Orders**

Internal Orders (IOs) have been created to capture and monitor costs for District projects and contracts. IO numbers are used in several SAP modules. The use of an IO is required in many financial and budgetary transactions, such as long form contracts. Examples of costs that are posted to an internal order include materials, personnel hours, and equipment.

There are several different number schemes for internal orders depending on:

- The classification is a project or contract
- The department and;
- The length and amount of detail required in the number (generally a currently used contract or project number prefaced by a department number)

Primary numbering schemes: xx/xx/xxx/xx (OR xxx/xx/xxx/xx)

First 2 (or 3) digits = Department number (for the Engineering Department, the prefix is three digits - ENG). The M&O Department uses the division number. For example, 68 = Calumet and 69 = Stickney. The number 65 is used for multi-divisional contracts.

Next 2 digits = Year

Next 3 digits = Department contract number

First of the last 2 digits = Fund. For the Engineering Department: 1 = Corporate, 2 = Construction, 3 = Bond, 4 = Unlimited Bond (for TARP projects), and 5 = Stormwater.

Second of the last 2 digits = number of times the contract went out for bid (except for Engineering Collection facilities, Process facilities, and Infrastructure Management/Budget divisions). The last digit for the Engineering Department is a letter designating the project type.

D = Structural	E = Electrical	F = Flood control	H = TARP
L = Instream Aeration	M = Mechanical	P = Process	S = Sewer
