Total	2,542,960	514					121.3	392	55,143	

* Used storage volume for low solids lagoons is based on the depth measurement at the DOB, Used storage volume=Depth remaining*Avg. storage per foot. The used storage volume for cake lagoons is based on the dry tons in the lagoon and assuming 23%TS for cake lagoons, Used Storage Volume=(DT/%TS)(2000lb/ton)(1gal/8.345lb).

Approximate number of days for emergency low-solids capacity @ 3%TS: 111 days
 Approximate number of days for emergency low-solids capacity @ 6%TS: 222 days
 Approximate number of days for emergency low-solids capacity @ 9%TS: 332 days

Average daily digester discharge = 3.54mgd
